Rank	Annual range	
	Minimum	Maximum
Brigadier-General	37,000	46,800

Rank	Annual range	
	Minimum	Maximum
Brigadier-General	37,100	46,700
Colonel	31,400	43,000
Lieutenant-Colonel	30,400	42,100
Major	25,400	33,800
Captain	15,000	28,800

SEPARATION EXPENSE

Separation Expense is paid to a member of the Regular Force and of the Reserve Force on Class "C" Reserve Service who is posted to a unit where single quarters, rations, or single quarters and rations are not available and his wife or dependent child has not been moved to his new place of duty at public expense, or having been moved to his new place of duty at public expense, is subsequently moved in advance of the member on authority of the Chief of the Defence Staff, or are evacuated on authority of the Minister when emergency exists, or when rations and quarters are provided, in amounts up to \$350.00 for an officer, or up to \$305.00 for a man where he cannot be provided with rations and quarters, or when either quarters or rations are provided the amount of Separation Expense shall be reduced to such amounts as the Minister may determine, or when rations and quarters are provided the amounts are "(a) \$37.50 when the officer or man is in receipt of Foreign Duty Allowance; or (b) \$64.50 in all other circumstances".

CLOTHING UPKEEP ALLOWANCE

An officer or man of the Regular Force or of the Reserve Force on Class "C" Reserve Service shall be paid clothing upkeep allowance, except under specific conditions, to enable him to maintain his basic kit clothing. The rates authorized are \$9.65 a month for female members and \$7.75 a month for male members.

EXCEPTIONAL HAZARD ALLOWANCE

An allowance of \$100.00 per incident is paid to an officer or man who, having been ordered to do so, carries out normal disposal procedures on a known or suspected improvised explosive device, or carries out normal disposal procedures on any other extremely hazardous explosives.

Salaries, Wages and Other Personnel Costs (1)—Continued

NATIONAL DEFENCE—Continued

DEFENCE SERVICES PROGRAM—Continued
GENERAL EXPENDITURES INCLUDED:—Continued

AIRCREW ALLOWANCE

(a) For the purposes of this article, "pilot" means an officer below the rank of colonel of the Regular Force or of the Reserve Force on Class "B" or Class "C" Reserve Service who is qualified in the flying of aircraft to the standard prescribed in orders issued by the Chief of the Defence Staff. (b) Subject to any limitations prescribed by the Minister, an officer or man of the Regular Force or of the Reserve Force on Class "B" or Class "C" Reserve Service is, unless he is receiving Paratroop Allowance, Rescue Specialist Allowance, Casual Aircrew Allowance, Air Duty Allowance or Casual Air Duty Allowance entitled to Aircrew Allowance at the rate of \$100 a month if he is a pilot or qualified in the operation of aircraft or airborne equipment to the standard prescribed in orders issued by the Chief of the Defence Staff and is employed in a flying position designated by the Minister for the purposes of this article.

CASUAL AIRCREW ALLOWANCE

(a) For the purposes of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed by the Minister, an officer or man who is not entitled to Rescue Specialist Allowance, Aircrew Allowance, Air Duty Allowance or Casual Air Duty Allowance is, for each day during any part of which he performs duty in an airborne aircraft other than as a Paratrooper or Rescue Specialist or as a passenger, entitled to Casual Aircrew Allowance in the amount of \$9 if: (i) he is undergoing flying training to become a pilot; or (ii) the duty performed is of a kind designated by the Minister for the purposes of this article. (c) Unless the Minister otherwise directs, the total amount of Casual Aircrew Allowance payable in a calendar month to an officer or man shall not exceed \$100.

AIR DUTY ALLOWANCE

Subject to any limitations prescribed by the Minister, an officer or man of the Regular Force or of the Reserve Force on Class "B" or Class "C" Reserve Service is, unless he is receiving Paratroop Allowance, Rescue Specialist Allowance, Aircrew Allowance, Casual Aircrew Allowance or Casual Air Duty Allowance entitled to Air Duty Allowance at the rate of \$65 a month if he is qualified in the operation of airborne equipment and is employed in a flying position designated by the Minister for the purposes of this article.

CASUAL AIR DUTY ALLOWANCE

(a) For the purposes of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed by the Minister, an officer or man who is not entitled to Rescue Specialist Allowance, Aircrew Allowance, Casual Aircrew Allowance or Air Duty Allowance is, for each day during any part of which he performs duty in an airborne aircraft other than as a Paratrooper or Rescue Specialist or as a passenger, entitled to Casual Air Duty Allowance in the amount of \$6 if: (i) he is undergoing flying training to become qualified, other than as a pilot, in the operation of aircraft or airborne equipment; or (ii) the duty performed is of a kind other than one designated by the Minister. (c) Unless the Minister otherwise directs, the total amount of Casual Air Duty Allowance payable in a calendar month to an officer or man shall not exceed \$65.

FIELD OPERATIONS ALLOWANCES

(a) For the purposes of this article, "Field Operation" has the meaning prescribed in orders issued by the Chief of the Defence Staff. (b) Subject to any limitations prescribed by the Minister, an officer or man who is not receiving Foreign Duty Allowance is entitled, when he is on duty for a period of not less than twenty-four consecutive hours on a field operation away from the permanent facilities normally occupied by his base or other unit or element, to: (i) \$5 for each complete twenty-four hour period of that duty; and (ii) \$5 for any remaining period of that duty that is of six or more hours duration.

DIVING ALLOWANCE

(a) Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man is entitled to Diving Allowance: (i) at the rate of \$200 a month if he is a clearance diving officer, clearance diver or diving instructor and is filling a designated position requiring diving duties; or (ii) at the rate of \$40 a month if he is filling a designated position requiring the specialty of ship's diver or shallow water diver. (b) A clearance diving officer, clearance diver or diving instructor who is filling a designated position requiring diving duties is, in addition to his entitlement under (a)(i) of this article entitled to an allowance of \$12 for each day during any part of which he dives below 200 feet in a submersible, except that the total amount of such daily allowance payable to an officer or man in a calendar month shall not exceed \$60. An officer or man who is qualified to the standards prescribed for a clearance diving officer, clearance diver, ship's diver or shallow water diver in orders issued by the Chief of the Defence Staff and is, entitled to an increment of \$15 for each complete 24 hour period and for any remaining period of more than 6 hours during which he is, pursuant to orders, participating in an experimental saturation dive or simulated experimental saturation dive and subsequent decompression.

CASUAL DIVING ALLOWANCE

(a) For the purpose of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man who is not entitled to Diving Allowance is, for each day during any part of which he is undergoing diving training or performs diving duties, entitled to Casual Diving Allowance in the amount of: (i) \$6 if the training undertaken or duty performed involves clearance diving; or (ii) \$4 if the training undertaken or duty performed involves ship's diving or shallow water diving. (c) The total amount of Casual Diving Allowance payable in a calendar month to an officer or man shall not exceed: (a) \$200 under (b)(i) of this article; or (b) \$40 under (b)(ii) of this article.

FOREIGN DUTY ALLOWANCE

This allowance is payable to members of the Canadian Forces serving outside Canada who are not entitled to Foreign Service Allowances. The monthly rate of Foreign Duty Allowance is \$50 plus an amount ranging between \$50 and \$250 dependent upon the Post Rating Level allocated by the Minister of National Defence. Allowances Under Foreign Service Allowance Regulations are based on cost of living at the place of duty, the rank and marital status of serving members.

SUBMARINE ALLOWANCE

Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man is entitled to Submarine Allowance at the rate prescribed for his rank and classification in: (a) Column "A" of the table to this article if he is qualified for duty in and (i) is posted to a submarine, (ii) is not posted to but is serving in a submarine; or (b) Column "B" of the table to this article when he is undergoing submarine training at sea; or (c) Column "C" of the table to this article when he is (i) undergoing a training course ashore of more than six months duration designated by, and under such conditions as may be prescribed by the Chief of the Defence Staff, if immediately prior to commencing that training course he was receiving the allowance under (i) of paragraph (a) of this article, or (ii) filling an annotated position as designated in orders issued by the Chief of the Defence Staff.

Rank	Monthly rates (in dollars)		
	Column "A" (Operational rate)	Column "B" (Training rate)	Column "C" (Annotated rate)
	Rate "A" Rate "B"	Rate "A" Rate "B"	
Below Sergeant	250 300	165 215	85
Sergeant and Above	320 370	165 215	155

Salaries, Wages and Other Personnel Costs (1)—Continued

NATIONAL DEFENCE—Continued

DEFENCE SERVICES PROGRAM—Continued

GENERAL EXPENDITURES INCLUDED—Continued

CASUAL SUBMARINE ALLOWANCE

(a) For the purposes of this article, "day" means a calendar day. (b) Subject to (c) of this article and to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man who is not entitled to Submarine Allowance is, for each day during any part of which he performs duty in a submarine at sea, entitled to Casual Submarine Allowance in the amount of \$7.50. (c) The total amount of Casual Submarine Allowance payable in a calendar month of an officer or man shall not exceed (a) \$165; or (b) \$215, if he has 80 or more months of service in submarines or 10 or more years of service at sea, including service in submarines, as a member of the Canadian Forces.

ISOLATION ALLOWANCE

Isolation Allowance is paid to members of the Canadian Forces posted for duty at a place designated as an isolated post. The allowance varies according to conditions at various posts and, subject to a scaled classification assigned to the isolated post from time to time by the Treasury Board, could range monthly from \$42 to \$566 for accompanied personnel and from \$24 to \$333 a month for unaccompanied personnel.

SEA DUTY ALLOWANCE

Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man posted to a ship other than a submarine, or posted to any comparable vessel of a force other than the Canadian Forces, is entitled to a Sea Duty Allowance in the amount of: (a) \$120 a month; or (b) \$170 a month if he has served 10 or more years on ships, submarines, or any comparable vessel of a force other than the Canadian Forces.

CASUAL SEA DUTY ALLOWANCE

Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man who is not entitled to Submarine Allowance or Sea Duty Allowance is, for each day during any part of which he performs duty in a ship at sea, entitled to Casual Sea Duty Allowance in the amount of (a) \$6 for each complete 24 hour period of that duty; and (b) \$6 for any remaining period of that duty that is of six or more hours duration.

The total amount of Casual Sea Duty Allowance payable in a calendar month to an officer or man shall not exceed \$120, except that if he has served, as a member of the Canadian Forces, for 10 or more years in ships, submarines or in a sea-going position designated by the Minister; the total amount shall not exceed \$170.

PARATROOP ALLOWANCE

(a) Subject to any limitations prescribed in orders issued by the Chief of the Defence Staff, an officer or man is, while undergoing parachutist training or filling a position requiring parachute jumping, entitled to Paratroop Allowance at the rate of \$75 a month unless he is receiving Rescue Specialist Allowance, Aircrew Allowance or Air Duty Allowance. (b) An officer or man who is receiving Paratroop Allowance under (a) of this article shall continue to receive that allowance during any period for which he is entitled to Casual Aircrew Allowance or Casual Air Duty Allowance.

CASUAL PARATROOP ALLOWANCE

(a) Subject to any limitations prescribed by the Minister, an officer or man who is not entitled to Paratroop Allowance or to Rescue Specialist Allowance, is entitled to Casual Paratroop Allowance in the amount of \$20 for each parachute jump made by him from an aircraft if he is undergoing training to become a parachutist, or is a qualified parachutist, and is ordered to jump. (b) The total amount of Casual Paratroop Allowance payable in a calendar month to an officer or man shall not exceed \$75.

RESCUE SPECIALIST ALLOWANCE

(a) For the purpose of this article, "Rescue Specialist" means an officer or man who is qualified as a parachutist to the standard prescribed in orders issued by the Chief of the Defence Staff and employed on a continuous basis as a member of a rescue team designated by the Chief of the Defence Staff. (b) Subject to any limitations, prescribed in orders issued by the Chief of the Defence Staff, an officer or man who is a Rescue Specialist is entitled to Rescue Specialist Allowance at the rate of \$150 a month unless he is receiving Paratroop Allowance, Aircrew Allowance, Air Duty Allowance, Casual Aircrew Allowance, or Casual Air Duty Allowance.

SOLICITOR GENERAL

Royal Canadian Mounted Police

Rates of pay are authorized by Treasury Board under the provisions of the Royal Canadian Mounted Police Act, c. 54, 1959. The following was the strength in the various commissioned and non-commissioned ranks as at March 31, 1978: 1 commissioner, 4 deputy commissioners, 15 assistant commissioners, 38 chief superintendents, 125 superintendents, 355 inspectors, 1 corps sergeant-major, 11 staff sergeants-major, 2 sergeants-major, 881 staff-sergeants, 1,596 sergeants, 2,879 corporals, 7,018 constables, 1,235 special constables and 1,505 civilian members.

The annual rates of pay for commissioned officers, under the rank of chief superintendent, as at March 31, 1978, under authority of TB/CT 749234 were as follows: superintendent \$29,658 to \$31,658, inspector \$26,200 to \$28,258.

The annual rates of pay for other ranks as at March 31, 1978 were as follows: staff sergeant-major and sergeant-major \$24,281, staff-sergeant \$23,516 to \$24,161, sergeant \$21,691 to \$22,335, corporal \$19,865 to \$20,617, constable \$13,500 to \$19,000.

The Commissioner is authorized to engage special constables and civilian members under authority of the Royal Canadian Mounted Police Act.

TB 728152 authorized payment to each non-commissioned officer and constable a service pay of \$5 per month for each 5 year period of service.

Expenditures for allowances consisted of: plain clothes allowance at the rate of \$425 per annum \$2,143,745, kit upkeep allowance at the rate of \$6 per month \$587,526, foreign service allowance \$369,277, language allowance \$105,019 and isolated posts allowance \$1,458,653.

NATIONAL DEFENCE

ADVANCES TO OTHER GOVERNMENTS

The standing of these advances and the transactions in the current fiscal year are in Canadian funds. The amount that appears in the column "To be accounted for at 31 March 1978" reflects the respective foreign currency conversion rate at that date.

Government of the United States of America—Advances were made to the Government of the United States under individual Orders in Council and Treasury Board authorities for material on order, equipment supplied and services rendered.

Service	To be accounted for March 31, 1977	Advances 1977-78	*Liquidations 1977-78	Gain or (loss) on foreign currency conversion at 31 March 1978	To be accounted for at 31 March 1978
Canadian Armed Forces	\$ 122,455,401	\$ 56,093,701	\$ 54,834,625	\$ 9,733,827	\$ 133,448,304

* Includes refunds of \$3,861,724 that are due to cancellation of contracts or are unused balances. Billings on hand on Mar. 31, 1978, pending proof of receipt of goods and not applied to the reported liquidations, had a total value of \$19,419,519 (Canadian).

Government of the United Kingdom—Advances were made to the United Kingdom Government and/or private industries under individual Orders-in-Council and Treasury Board authorities for stores and equipment supplied and services rendered.

Service	To be accounted for March 31, 1977	Advances 1977-78	Liquidations 1977-78	Gain or (loss) on foreign currency conversion at 31 March 1978	To be accounted for at 31 March 1978
Canadian Armed Forces	\$ 4,822,818	\$ 1,596,818	\$ 636,909	(\$1,722,338)	\$ 4,060,389

Advances were made to Governments and/or private industries of the following countries under individual Orders-in-Council and Treasury Board authorities:

Country	To be accounted for 31 March 1977	Advances 1977-78	Liquidations 1977-78	Gain or (loss) on foreign currency conversion at 31 March 1978	To be accounted for at 31 March 1978

EXPENSES OF THE INDIAN CLAIMS COMMISSION

	Estimates	Allotments	Expenditures
Expenses(12)	\$ 472,000	\$ 20,000	\$ 19,542

P C 1969-2405, December 19, 1969, authorized the appointment of Dr Lloyd Barber as a commissioner, under Part I of the Inquiries Act to inquire into, study and report on how the second and third classes of Indian Claims may best be adjudicated, to consult with authorized representatives of the Indians and,

- (a) to receive and study the grievances arising in respect of:
 - (i) the performance of the terms of treaties and agreements formally entered into by representatives of the Indians and the Crown; and

Names of Members of Commissions and Rates of Payment—Continued

PRIVY COUNCIL—Continued

Indian Claims Commission

- (ii) the administration of moneys and lands pursuant to schemes established by legislation for the benefit of the Indians;
- (b) to recommend measures to be taken by the Government of Canada to provide for the adjudication of the claims received that he considers can be demonstrated to require special action in relation to any group or groups of Indians; and
- (c) to advise as to categories of claims that, in his judgment, ought to be referred to the courts or to any special quasijudicial or administrative bodies that he recommends as being desirable for adjudication of special awards.

The Order in Council also authorized the commissioner to exercise all the powers conferred on him by Section 11 of the Inquiries Act; to adopt such procedures and methods and to make such rules, including rules establishing time limits for the reception of claims, that he deems expedient for the proper conduct of his inquiry and study and to sit at such times and places as he may decide; to engage the services of such counsel, advisers and staff as he may require at rates of remuneration approved by the Treasury Board and to secure such advice and assistance as he may require from the service of Canada; to propose measures for the consideration of the Governor in Council that, in his opinion, would facilitate the conduct of his consultation, inquiry and study; report to the Governor in Council with all reasonable despatch, and file with the Dominion Archivist his papers and records as soon as reasonably may be after conclusion of his inquiry and study.

P C 1974-835, April 9, 1974, authorized payment to the Commissioner of an honorarium of \$200 per day while on duty as Commissioner of the Inquiry.

P C 1977-702, March 17, 1977, terminates appointment of the Commissioner appointed by Order in Council P C 1969-2405 of December 19, 1969.

EXPENSES OF ROYAL COMMISSION ON CORPORATE CONCENTRATION

	Estimates	Allotments	Expenditures
Expenses(12)	\$ 600,000	\$ 756,000	\$ 755,209

P C 1975-879, dated April 22, 1975.

WHEREAS, the Committee of the Privy Council have had before them a report from the Prime Minister representing that it is desirable to cause an inquiry to be made into and concerning the concentration of corporate power in Canada.

The Committee, therefore, on the recommendation of the Prime Minister, advise that Robert Broughton Bryce, Esquire, of the City of Ottawa in the Province of Ontario, be appointed a commissioner under

Part I of the Inquiries Act to inquire into, report upon, and make recommendations concerning:

- (a) the nature and role of major concentrations of corporate power in Canada;
- (b) the economic and social implications for the public interest of such concentrations; and
- (c) whether safeguards exist or may be required to protect the public interest in the presence of such concentrations.

The Committee further advise that the Commissioner:

1. may exercise all the powers conferred upon him by Section 11 of the Inquiries Act and be assisted to the fullest extent by government departments and agencies;
2. may adopt such procedure and methods as he may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as he may decide from time to time;
3. may engage the services of such counsel, staff, clerks and technical advisers as he may require at rates of remuneration and reimbursement to be approved by the Treasury Board; and
4. shall report to the Governor in Council with all reasonable despatch, and file with the Privy Council Office the papers and records of the Commission as soon as reasonably may be after the conclusion of the inquiry.

P C 1975-999, May 1, 1975, appointed Messrs Pierre Nadeau and Robert W V Dickerson as Commissioners and designated Mr Robert B Bryce as Chairman of the Commission.

P C 1975-8/1366, June 12, 1975, authorized payment to the Commissioners of an honorarium of \$250 per day while on duty as Commissioners of the Commission.

EXPENSES OF ROYAL COMMISSION ON FINANCIAL MANAGEMENT AND ACCOUNTABILITY

	Estimates	Allotments	Expenditures
Expenses(12)	\$ 1,740,000	\$ 1,290,800	\$ 1,378,670

P C 1976-2884, dated November 22, 1976.

WHEREAS, the Committee of the Privy Council have had before them a report of the right Honourable Pierre Elliott Trudeau submitting:

Names of Members of Commissions and Rates of Pay—Continued

PRIVY COUNCIL—Continued

Royal Commission on Financial Management and Accountability—Concluded

That the growth of government responsibilities and programs to meet the needs of Canada in recent years has placed unprecedented demands upon the structure, organization and process of administrative management and control in the Government of Canada;

That the Public Service of the Government of Canada has long enjoyed an enviable reputation for efficiency and probity and the government wishes to ensure the maintenance, in the new circumstances, of the high standards of public service the Canadian people have received in the past and rightly expect:

That reports of the Auditor General have caused the government serious concern that the current state of financial administration in the Government of Canada is not now adequate to ensure full and certain control over and accountability for public funds required for the expanded responsibilities and programs that now exist; and

That it is essential that the government have the capacity to ensure in the Public Service that authority and accountability together ensure the most efficient use of resources, and that all opportunities to make savings, avoid waste and increase productivity are vigorously pursued.

It is therefore in the national interest that a comprehensive inquiry be made into the best means of providing for financial management in the federal administration of Canada, including departments and Crown agencies, and for the accountability of deputy ministers and heads of Crown agencies for their administration, including evaluation of their performance in this regard; taking into account the constitutional roles and responsibilities of Parliament, Ministers and the Public Service, and more especially the principle of the collective and individual responsibilities of Ministers to Parliament.

The Committee, therefore, on the recommendation of the Prime Minister, advise that; H Marcel Caron, John Edwin Hodgetts, Allen Thomas Lambert and Oliver Gerald Stoner be appointed Commissioners under Part I of the Inquiries Act to examine and report on the management system required in the inter-related areas of:

- (i) financial management and control,
 - (ii) accountability of deputy ministers and heads of Crown agencies relative to the administration of their operations, and
 - (iii) the evaluation of the administrative performance of deputy ministers and heads of Crown agencies,
- and the interdepartmental structure, organization and process applicable thereto, including in particular:

- (a) the development, promulgation and application of financial management policy, regulations and guidelines by central agencies
- (b) procedures to ensure that,
 - (1) necessary changes in policy, regulations and guidelines are identified, and
 - (2) policy regulations and guidelines are adhered to,
- (c) systems and procedures to ensure effective accountability to government and, where appropriate to Parliament, of the administration of government departments and agencies, and
- (d) the organization necessary in central agencies, government departments and Crown agencies to achieve the foregoing.

The Committee further advise that the Commissioners:

1. ensure that their recommendations form a mutually compatible management system appropriate to the requirements of government;
2. be authorized to exercise all the powers conferred upon them by Section 11 of the Inquiries Act and be assisted to the fullest extent by government departments and agencies;

3. adopt such procedures and methods as they may from time to time deem expedient for the proper conduct of the inquiry and sit at such times and in such places in Canada as they may decide from time to time;
4. be authorized to engage the services of such counsel, staff and technical advisers as they may require at rates of remuneration and reimbursement to be approved by the Treasury Board;
5. report to the Governor in Council with all reasonable despatch, and file with the Dominion Archivist the papers and records of the Commission as soon as possible after the conclusion of the inquiry;
6. review the reports of the Auditor General for the fiscal years ending March 31, 1975 and March 31, 1976 and the supporting material thereof; and other relevant Parliamentary reports;
7. submit progress reports if possible, as they complete stages of their study, with an initial report not later than December 31, 1977; and
8. that Allen Thomas Lambert be designated Chairman of the Commission.

P C 1976-3322, December 24, 1976, appointed Mr Robert Després as Commissioner and accepted Mr H Marcel Caron's resignation.

P C 1977-45, January 13, 1977, advises that the Commissioners appointed under Order in Council P C 1976-2884, of November 22, 1976, as amended by Order in Council P C 1976-3322 of December 24, 1976, to inquire into the best means of providing for financial management in the federal administration, be known as the Royal Commission on Financial Management and Accountability.

P C 1977-8/477, February 24, 1977, authorized payment to the Commissioners of an honorarium of \$250 per diem while on duty as Commissioners of the Commission and a non-accountable living allowance of \$65 per diem.

Canadian Indian Rights Commission

EXPENSES OF THE CANADIAN INDIAN RIGHTS COMMISSION

	Estimates	Allotments	Expenditures
Expenses(12)		\$ 415,000	\$ 414,960

P C 1977-702, dated March 17, 1977.

WHEREAS, the Committee of the Privy Council have had before them a report representing:

That a Joint Committee consisting of members of the Privy Council and representatives of the National Indian Brotherhood has been established to provide to Ministers of the Crown and Indian leaders an opportunity to discuss problems of concern to the Government of Canada and the status Indians of Canada; and

Names of Members of Commissions and rates of Pay—Continued

PRIVY COUNCIL—Continued

Canadian Indian Rights Commission—Concluded

That a Joint Sub-Committee on Indian Rights and Claims, consisting of three members of the Privy Council and three representatives of the National Indian Brotherhood, has been established since the Government of Canada and the status Indians of Canada are concerned that agreement be reached on basic principles and processes for settling grievances about Indian rights and claims.

THEREFORE, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that:

1. Honourable Mr Justice E Patrick Hartt, a judge of the Supreme Court of Ontario, of Toronto, Ontario, and Mr Brian George Pratt, Executive Director, Indian Claims Commission, of Saskatoon, Saskatchewan be appointed to a Commission to be known as the Canadian Indian Rights Commission, to exercise the following duties:
 - (a) to facilitate the development of an inventory and classification of existing claims of status Indians and to report thereon to the Joint Committee; and
 - (b) where directed by the Joint Committee, to assist in the resolution of issues of concern to the Government of Canada and the status Indians of Canada.
2. The appointment of Mr Justice Hartt to the Commission be for a period of five years.
3. The appointment of Mr Brian George Pratt to the Commission be for a period of four years.
4. The Commission be authorized to secure the assistance of such officers and employees of the Government of Canada as may be required for its activities.
5. The Commission be authorized subject to the direction of the Joint Committee to engage the services of such counsel, staff, clerks and advisers as may be required at rates of remuneration and reimbursement to be approved by the Treasury Board.
6. The appointment of the Commissioner appointed by Order in Council P C 1969-2405 of December 19, 1969 be terminated as of the day of this Order.
7. In the case of any person who was engaged in the provision of services to the Commissioner appointed pursuant to Order in Council P C 1969-2405 of December 19, 1969 on the day immediately preceding the day of this Order by virtue of a contract of service between that person and the said Commissioner the Commission appointed pursuant to this Order shall, if so notified in writing by that person of his intention to fulfil his duties on behalf of the Commission appointed pursuant to this Order, assume the obligations and provide the benefits of the contract as if that contract of service had been entered into by the Commission appointed pursuant to this Order.

P C 1977-14/2692, September 22, 1977, authorized payment to Commissioner Mr Brian George Pratt of an honorarium of \$250 per diem while on duty as Commissioner.

A classification of expenditures follows:

	\$
Salaries and wages	174,060
Commissioners' honoraria	63,000

Special Inquirer for Elder Indians' Testimony

EXPENSES OF THE SPECIAL INQUIRER FOR ELDER INDIANS' TESTIMONY

	Estimates	Allotments	Expenditures
Expenses	(12)	\$ 25,000	\$ 24,442

P C 1977-703, dated March 17, 1977.

WHEREAS, the Committee of the Privy Council have had before them a report representing:

That a Joint Committee consisting of members of the Privy Council and representatives of the National Indian Brotherhood has been established to provide to Ministers of the Crown and Indian leaders an opportunity to discuss problems of concern to the Government of Canada and the status of Canada;

That a Joint Sub-Committee on Indian rights and claims, consisting of three members of the Privy Council and three representatives of the National Indian Brotherhood, has been established since the Government of Canada and the status Indians of Canada are concerned that agreement be reached on basic principles and processes for settling grievances about Indian rights and claims;

That it may be desirable to establish procedures for the purpose of better obtaining and preserving information concerning past events related to such grievances of status Indians;

That in obtaining such information it may be desirable to question elderly Indians with knowledge of the events giving rise to the said grievances in order that a record of such information may be preserved; and

That while both the Government of Canada and the National Indian Brotherhood recognize that such information may be useful in negotiating the settlement of grievances, the position of the Government of Canada is that such information may not be admissible in whole or in part in subsequent legal proceedings and the use of the procedures herein provided shall be without prejudice to the right of any party to such proceedings to contest the admissibility of such information.

That it is advisable now to appoint a Commissioner under the Inquiries Act who may, when a grievance as described above has been referred to him by a member of the Joint Sub-Committee, obtain information from elderly Indians with respect thereto.

Therefore, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that Dr Lloyd Barber, President of the University of Saskatchewan in Regina, Saskatchewan, be appointed a Commissioner under Part I of the Inquiries Act to obtain information from elderly Indians with knowledge of the events giving rise to the said grievance where a member of the Joint Sub-Committee has referred such grievance to the Commissioner for the purpose of obtaining information and he has decided such action is appropriate.

The Committee further advise that:

1. the Commissioner be authorized to exercise all the powers conferred on him by Section 11 of the Inquiries Act;
2. the Commissioner be authorized to adopt such procedures and methods and to make such rules as he deems expedient for the proper conduct of his Inquiry and to sit at such times and places as he may decide;
3. the Commissioner be authorized subject to the direction of the Joint Committee to engage the services of such counsel, staff and clerks as he may require at rates of remuneration approved by the Treasury Board and to secure the assistance of such officers and employees of the Government of Canada as may be required for his activities;
4. the Commissioner file with the Secretariat of the Joint Committee his papers and records as soon as possible after the conclusion of each Inquiry and that the Joint Committee be empowered to furnish copies of such papers and records to such persons and on such terms as the Joint Committee sees fit;

Names of Members of Commissions and Rates of Pay—Continued

PRIVY COUNCIL—Continued

Special Inquirer for Elder Indians' Testimony—Concluded

5. the Commissioner shall also file with the Dominion Archivist one copy of his papers and records as soon as possible after the conclusion of each Inquiry.

P C 1977-1479, May 26, 1977, authorized payment to Commissioner Dr Lloyd I Barber of an honorarium of \$250 per diem while on duty as Commissioner.

A classification of expenditures follows:

	\$
Commissioner's honoraria	13,500

Task Force on Canadian Unity

EXPENSES OF THE TASK FORCE ON CANADIAN UNITY

	Estimates	Allotments	Expenditures
Expenses(12)	\$ 2,000,000	\$ 1,842,000	\$ 1,850,831

P C 1977-1910, of July 5, 1977.

WHEREAS, the Committee of the Privy Council, having had before it a report of the Right Honourable Pierre Elliott Trudeau, the Prime Minister, concerning Canadian unity, advise that, Honourable Jean-Luc Pepin of Ottawa, Ontario, Honourable John Parmenter Robarts of Toronto, Ontario, Richard Cashin of St John, Newfoundland, Dr John Evans of Toronto, Ontario, Mayor Ross Marks of Hundred Mile House, British Columbia be appointed Commissioners under Part I of the Inquiries Act to enquire into questions relating to Canadian unity. During the course of the inquiry, the Commissioners shall:

- hold public hearings and sponsor public meetings to ascertain the views of interested organizations, groups, and individuals;
- work to support, encourage, and publicize the efforts of the general public, and particularly those of non-governmental organizations, with regard to Canadian unity;
- contribute to the knowledge and general awareness of the public the initiatives and views of the Commissioners concerning Canadian unity;
- assist in the development of processes for strengthening Canadian unity and be a source of advice to the government on unity issues; and
- enquire into any other matter concerning national unity that may be referred to the Commission by His Excellency in Council.

The Committee further advise that the Commissioners:

- be known as the Task Force on Canadian unity;
- be authorized to exercise all of the powers conferred upon them by Section 11 of the Inquiries Act and be assisted to the fullest extent by departments and agencies;
- adopt such procedures and methods as they may from time to time deem expedient for the proper conduct and conclusion of the inquiry within one year and sit at such times and in such places in Canada as they may decide from time to time;
- be authorized to engage the services of such counsel, staff and technical advisers as they may require at rates of remuneration and reimbursement to be approved by the Treasury Board;
- file with the Dominion Archivist the papers and records of the Commission forthwith after the conclusion of the inquiry; and
- Honourable Jean-Luc Pepin and the Honourable John Parmenter Robarts be designated as Co-Chairman of the Commission.

P C 1977-8/2342, August 10, 1977 and P C 1977-3313, November 24, 1977, authorized payment to the Commissioners of an honorarium of \$250 per diem while on duty as Commissioners and a non-accountable living allowance of \$65 per diem.

P C 1977-2361, August 24, 1977, appointed Mrs Solange Chaput-Rolland, of Montreal, Quebec a Commissioner of the Task Force on Canadian unity.

P C 1977-2362, August 24, 1977, appointed Mr G  rald A Beaudoin, of the City of Hull, in the Province of Quebec a Commissioner of the Task Force on Canadian unity.

P C 1978-157, January 19, 1978, authorized the Commissioners of the Task Force on Canadian unity to conclude their inquiry on the 31st day of December, 1978.

P C 1978-17/151, January 19, 1978, authorized payment to Commissioner Honourable John P Robarts of an honorarium of \$300 per diem while on duty as Commissioner and a non-accountable living allowance of \$65 per diem.

A classification of expenditures follows:

Commission of Inquiry Concerning Certain Activities of the Royal Canadian Mounted Police

EXPENSES OF THE COMMISSION OF INQUIRY CONCERNING CERTAIN ACTIVITIES OF THE ROYAL CANADIAN MOUNTED POLICE

	Estimates	Allotments	Expenditures
Expenses(12)	\$ 800,000	\$ 710,000	\$ 732,892

P C 1977-1911, dated July 6, 1977.

WHEREAS, it has been established that certain persons who were members of the RCMP at the time did, on or about October 7, 1972, take part jointly with persons who were then members of la S  ret   du Qu  bec and la Police de Montr  al in the entry of premises located at 3459 St. Hubert Street, Montreal, in the search of those premises for property contained therein, and in the removal of documents from those premises, without lawful authority to do so;

WHEREAS, allegations have recently been made that certain persons who were members of the RCMP at the time may have been involved on other occasions in investigative actions or other activities that were not authorized or provided for by law;

WHEREAS, after having made inquiries into these allegations at the instance of the Government, the Commissioner of the RCMP now advises that there are indications that certain persons who were members of the RCMP may indeed have been involved in investigative actions or other activities that were not authorized or provided for by law, and that as a consequence, the Commissioner believes that in the circumstances it would be in the best interests of the RCMP that a

Names of Members of Commissions and Rates of Pay—Continued

PRIVY COUNCIL—Concluded

Commission of Inquiry Concerning Certain Activities of the Royal Canadian Mounted Police—Concluded

Commission of Inquiry be set up to look into the operations and policies of the Security Service on a national basis;

WHEREAS, public support of the RCMP in the discharge of its responsibility to protect the security of Canada is dependent on trust in the policies and procedures governing its activities;

AND WHEREAS, the maintenance of that trust requires that full inquiry be made into the extent and prevalence of investigative practices or other activities involving members of the Royal Canadian Mounted Police that are not authorized or provided for by law.

THEREFORE, the Committee of the Privy Council, on the recommendation of the Prime Minister, advise that, pursuant to the Great Seal of Canada, appointing Mr Justice David C McDonald of Edmonton, Alberta, Mr Donald S Rickerd of Toronto, Ontario, Mr Guy Gilbert of Montreal, Quebec to be Commissioners under Part I of the Inquiries Act:

- (a) to conduct such investigations as in the opinion of the Commissioners are necessary to determine the extent and prevalence of investigative practices or other activities involving members of the RCMP that are not authorized or provided for by law and, in this regard, to inquire into the relevant policies and procedures that govern the activities of the RCMP in the discharge of its responsibility to protect the security of Canada;
- (b) to report the facts relating to any investigative action or other activity involving persons who were members of the RCMP that was not authorized or provided for by law as may be established before the Commission, and to advise as to any further action that the Commissioners may deem necessary and desirable in the public interest; and
- (c) to advise and make such report as the Commissioners deem necessary and desirable in the interest of Canada, regarding the policies and procedures governing the activities of the RCMP in the discharge of its responsibility to protect the security of Canada, the means to implement such policies and procedures, as well as the adequacy of the laws of Canada as they apply to such policies and procedures, having regard to the needs of the security of Canada.

The Committee further advise that the Commissioners:

1. be authorized to adopt such procedures and methods as the Commissioners may from time to time deem expedient for the proper conduct of the inquiry;
2. be directed that the proceedings of the inquiry be held in camera in all matters relating to national security and in all other matters where the Commissioners deem it desirable in the public interest or in the interest of the privacy of individuals involved in specific cases which may be examined;
3. be directed, in making their report, to consider and take all steps necessary to preserve:
 - (a) the secrecy of sources of security information within Canada; and
 - (b) the security of information provided to Canada in confidence by other nations;
4. be authorized to sit at such time and at such places as they may decide from time to time, to have complete access to personnel and information available in the Royal Canadian Mounted Police and to be provided with adequate working accommodation and clerical assistance;
5. be authorized to engage the services of such staff and technical advisers as they deem necessary or advisable and also the services of counsel to aid them and assist in their inquiry at such rates of

remuneration and reimbursement as may be approved by the Treasury Board;

6. be directed to follow established security procedures with regard to their staff and technical advisers and the handling of classified information at all stages of the inquiry;
7. be authorized to exercise all the powers conferred upon them by Section 11 of the Inquiries Act; and
8. be directed to report to the Governor in Council with all reasonable dispatch and file with the Privy Council Office their papers and records as soon as reasonably may be after the conclusion of the inquiry.

The Committee further advise that, pursuant to Section 37 of the Judges Act, His Honour Mr Justice McDonald be authorized to act as Commissioner for the purposes of the said Commission and that Mr Justice McDonald be the Chairman of the Commission.

P C 1977-3080, October 27, 1977, authorized payment to Commissioner Mr Guy Gilbert c.r. of an honorarium of \$650 per diem while on duty as Commissioner of the Commission and a non-accountable living allowance of \$65 per diem.

P C 1977-13/3078, October 27, 1977, authorized payment to Commissioner Mr Donald S Rickerd of an honorarium of \$250 per diem while on duty as Commissioner of the Commission and a non-accountable living allowance of \$65 per diem.

GRAINS

Payment in connection with the Prairie Grain Advance Payments Act

Payment..... (10) \$ 3,477,581

Section 15 of the Prairie Grain Advance Payments Act provides for payment to the Canadian Wheat Board of

(a) interest charges paid or payable to the Board with respect to money borrowed by it or advanced on its behalf for the purposes of the Act, and

(b) amounts of advance payments outstanding at the time of default, to the extent that the Board has not been reimbursed therefore after default.

The amount consisted of interest charges of \$3,443,598 for the period April 1, 1977 to March 31, 1978 paid under Section 15(a) of the Act, plus payment in respect of defaulted accounts \$33,983 paid under Section 15(b) of the Act, less refunds in respect of defaulted accounts \$186,398. Cumulative payments to March 31, 1978 in respect of interest charges were \$49,056,099, of defaulted accounts were \$2,029,381 and refunds in respect of defaulted accounts were \$837,422.

Payments in connection with the Prairie Grain Provisional Payments Act

Payment..... (10)

Section 3(1) of the Prairie Grain Provisional Payments Act authorized the Canadian Wheat Board to make provisional payments for the 1969-70 crop year in respect of future deliveries of unthreshed grain and Section 8(1) provides that, for the purpose of making such payments, the Board may borrow money, and the Minister of Finance may, on behalf of Her Majesty, guarantee, on such terms and conditions as the Governor in Council may approve, repayment of money so borrowed and interest thereon.

Section 13 of the Provisional Act provides for payment to the Canadian Wheat Board of

(a) interest charges paid or payable to the Board with respect to money borrowed by it or advanced on its behalf for the purposes of the Act, and

(b) amounts of provisional payments outstanding at the time of default, to the extent that the Board has not been reimbursed therefore after default.

No payments were made under this Act during the period April 1, 1977 to March 31, 1978, however, refunds in the amount of \$1,524.93 were received with respect to defaulted accounts.

Total Statutory Items..... \$ 3,477,581

AIR CANADA

AUDITORS' REPORT

TO THE HONORABLE
THE MINISTER OF TRANSPORT
OTTAWA

We have examined the balance sheet of Air Canada as at December 31, 1977, and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements are properly drawn up so as to give a true and fair view of the state of the affairs of the corporation as at December 31, 1977, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

We further report that, in our opinion, proper books of account have been kept by the corporation and the transactions that have come under our notice have been within the powers of the corporation.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

(a) Property and equipment

Depreciation and amortization is provided by the straight line method and is based on the following estimated useful lives:

Boeing 747	16 years
Lockheed 1011	15 and 16 years
Boeing 727	14 years
DC-8	14 years
DC-9	12 years
Ground equipment and facilities	5 to 30 years

For accounting purposes, leased flight equipment is treated as though it is owned.

Expenditures for maintenance and repairs are charged to operating expenses as incurred. Significant expenditures for modifications and betterments are capitalized.

(b) Spare parts

Provision for the obsolescence of aircraft spare parts included in current assets, less their estimated residual value, is made by charges to operating expenses over the service lives of the related aircraft types.

(c) Deferred charges

Costs incurred in introducing new types of aircraft are deferred and amortized on a straight line basis over five years, commencing with the time each type is placed into revenue service.

Financing and other deferred costs are amortized on a straight line basis over the period to which they relate.

(d) Passenger and freight revenues

Passenger and freight sales are recognized as earned revenue when the transportation service is provided. Unearned amounts are treated as current liabilities.

(e) Capitalized interest

Interest is capitalized on payments for major property and equipment additions made prior to their entry into regular service and is included in their cost.

(f) Translation of foreign currencies

Assets and liabilities are translated into Canadian dollars at year-end exchange rates except spare parts and non-current assets which are translated at exchange rates prevailing when the asset was acquired.

Gains and losses resulting from foreign exchange translation are reflected in income for the year.

(g) Income taxes

The corporation records income taxes on the tax allocation basis which recognizes the income tax effect on transactions when they are recorded in accounting income, regardless of when such items are recognized for tax purposes. These timing differences can result in deferred income taxes either being provided for or recoverable depending on when the items are recognized for accounting and tax purposes.

AIR CANADA—Continued

NOTES TO FINANCIAL STATEMENTS—Continued

(h) Pensions

Unfunded liabilities as determined by actuarial valuation are funded by annual payments which are charged to operations over periods recommended by the actuaries and as required by the Pension Benefits Standards Act. The cost of funding current service pension benefits is charged to operations as incurred.

Current Portion	43,454	52,849
	<u>875,606</u>	<u>861,421</u>

The six months revolving notes owing to the Government of Canada at December 31, 1976 were progressively converted to demand notes during 1977 in order to accommodate a conversion of long-term debt in 1978 under the new Air Canada Act (note 6). Additionally there is a \$20,000,000 note owing to Canadian National Railway Co. included in the current portion of long-term debt which has subsequently been converted to a demand note for the aforementioned purpose.

Long-term debt repayment requirements over the next five years amount to \$43,454,000 in 1978, \$91,011,000 in 1979, \$123,810,000 in 1980, \$98,877,000 in 1981 and \$36,555,000 in 1982.

Long-term debt includes \$151,651,000 payable in U.S. funds and \$15,591,000 payable in pounds sterling which are converted at current exchange rates.

6. Subsequent Events

(a) Subsequent to December 31, 1977, "An Act respecting the reorganization of Air Canada" (Bill C-3) received Royal assent. In addition to broadening the powers and activities of the corporation the Bill provides for the restructuring of the long-term debt and share capital of the corporation.

The Government has indicated its intention, under the provisions of the Act, to convert certain of the existing debt into share capital. This action will result in a reduction in annual interest costs and changes to the schedule of long-term debt retirement.

(b) In January, 1978, the Company reached an agreement in principle with the control group of Nordair Ltd. shareholders providing for a future offer for the acquisition of all outstanding shares of Nordair Ltd., a Montreal-based regional airline. The offer is to be made at a price of \$11.50 per share, subject to certain adjustments as provided in the agreement in principle. At a price of \$11.50 per share the aggregate consideration would be approximately \$25,000,000. The formal offer to purchase the shares will be made to Nordair shareholders only after the necessary Government approvals have been obtained. The offer will be conditional on acceptance by the holders of at least 90% of the outstanding shares.

7. Commitments

Commitments for the acquisition of one B-747 and eight B-727 aircraft at December 31, 1977, after deducting progress payments, amounted to approximately \$158,400,000. Delivery of the B-747 is scheduled for 1978, while the eight B-727 aircraft are to be delivered in 1979.

Commitments for ground facilities and equipment amounted to \$6,000,000 at December 31, 1977. Rental payments due in 1978 under term leases in effect for facilities at December 31, 1977, amounted to \$10,137,000 (excluding leased aircraft which are included in long-term debt).

8. Pension Plans

As at December 31, 1977, the present value of the unfunded liability of the Corporation's pension plans amounted to \$132,316,000. (1976—\$92,226,000), which includes the effect of adjustments to actuarial assumptions and improvements to pension benefits approved during the year amounting to \$47,747,000 less related payments.

The unfunded liability is being retired by annual payments of \$13,739,000, to 1992 and \$574,000 to 2027.

Effective January 1, 1978, the Corporation approved improvements to pension benefits which will increase the unfunded liability by a further \$26,024,000 to be retired by additional annual payments of \$2,843,000 to 1992.

AIR CANADA—ConcludedNOTES TO FINANCIAL STATEMENTS—*Concluded*

9. Anti-Inflation Act

The corporation is subject to restraint of profit margins, prices, dividends and employee compensation under the terms of the Anti-Inflation Act and Regulations which became effective October 14, 1975. Based on available information, the corporation is satisfied that it has complied with the legislation in all material respects for the year ended December 31, 1977.

10. Comparative Figures

Certain of the 1976 comparative figures have been reclassified to conform to the presentation adopted in 1977.

ATLANTIC PILOTAGE AUTHORITY

(Established by the Pilotage Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
February 17, 1978

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
MINISTER OF TRANSPORT
OTTAWA, ONTARIO.

I have examined the balance sheet of the Atlantic Pilotage Authority as at December 31, 1977 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1977

1. Nature of activities

The Atlantic Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within designated Canadian waters.

2. Significant accounting policies

(a) Parliamentary appropriations

Until the revenue from pilotage charges is sufficient to permit the Authority to operate on a self-sustaining basis it is the practice to recover any deficit and capital expenditures made from parliamentary appropriations provided for that purpose. Amounts received in excess of the deficit are shown under current liabilities.

(b) Fixed assets

Depreciation and amortization of fixed assets are calculated on a straight-line basis and are based on the estimated useful life of the assets as follows:

Buildings	20 years
Wooden boats	10 years
Steel boats	20 years
Aluminum boats	25 years
Wharves and structures	20 years
Furniture and equipment	10 years
Leasehold improvements	10 years

Although charged in the Statement of Operations, depreciation is not recovered from parliamentary appropriations.

(c) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, plus the cost of capital assets financed from parliamentary appropriations, are shown as contributed capital.

ATLANTIC PILOTAGE AUTHORITY—Concluded

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1977—Concluded

(d) Capitalized leases

The Authority leases boats from Canada under long-term financing leases. Under the terms of the lease agreements, the Authority assumes the rights and obligations of ownership of the boats. As a result, the leases are treated as purchases and the principal portion of lease payments is capitalized and depreciated over the estimated useful lives of the boats. The corresponding liability is reduced by the principal portion of lease payments and the interest portion is expensed in the year to which it relates.

3. Fixed assets

As at December 31, 1977, the fixed assets and related accumulated depreciation were as follows:

	1977		1976	
	Cost	Accumulated Depreciation	Net	Net
Land	\$ 750	\$	\$ 750	\$ 750
Buildings	13,585	2,259	11,326	11,956
Pilot boats	1,289,296	243,093	1,046,203	1,103,052
Wharves and structures	6,182	1,601	4,581	4,970
Furniture and equipment	73,830	35,627	38,203	39,857
Leasehold improvements	20,558	10,044	10,514	11,740
	<u>\$ 1,404,201</u>	<u>\$ 292,624</u>	<u>\$ 1,111,577</u>	<u>\$ 1,172,325</u>

4. Lease agreements

The Authority leases three boats from Canada under long-term bare boat charter agreements. These leases, maturing between 1989 and 1991, require maintenance and insurance in addition to total principal and interest payments for the three boats of \$116,939 per annum up to and including 1989 when they are reduced to \$54,785 per annum until 1991. As at December 31, 1977, the total principal and interest commitment on these leases is \$1,512,821.

Upon maturity of each of the boat charters, the Authority has the option to purchase the boat for \$1.

5. Past service pension contributions

Under provisions of the Pilotage Act contract pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Plan. Certain pilots have exercised their option to become employees and have elected to purchase pension benefits in respect of past service.

These elections have created an obligation to make employer contributions in respect of past service, and since 1976 the Authority recorded these contributions in the accounts. Pilots who have elected to become employees may purchase past service pension benefits either by monthly installments which are to be paid over their remaining service periods or by the payment of a lump sum. Virtually all of these pilots have elected to pay on the installment basis, therefore the Authority will be required to match past service pension contributions over the remaining service lives of the pilots.

With respect to pilots who have elected to purchase past service by monthly installments, employer contributions amounting to approximately \$356,000 will be required over future years until their retirement.

6. Income taxes

At December 31, 1977, the Authority had a loss carry-forward for income tax purposes of approximately \$547,000 available for deduction against future years' profits.

7. Anti-inflation legislation

Under P.C. 1976-3079 of December 10, 1976, with retroactive effect from May 27, 1976, the Authority is subject to the Anti-inflation Act and the regulations promulgated thereunder, which provide for restraints on prices, profit margins and compensation of employees.

ATOMIC ENERGY OF CANADA LIMITED

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 7, 1978

THE HONOURABLE A. W. GILLESPIE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Atomic Energy of Canada Limited as at March 31, 1978 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles. Further, in my opinion, except for the change in the method of costing heavy water inventories as referred to in note 2 to the financial statements, such accounting principles have been applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL

The accompanying notes and schedules are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
March 31, 1978

1. Significant accounting policies

- (a) Separate activities: The Company's activities are divided into two major phases, the Research and Utilization Program and Commercial Operations, the results of which are accounted for separately.

(i) The Research and Utilization Program comprises Research, Development and Demonstration operations conducted principally at the Chalk River and Whiteshell laboratories as well as the Company's Head Office. It also includes the Power Reactor Design, Testing and Marketing services of the Sheridan Park consulting engineering group and related laboratory operations. These consulting and laboratory services are rendered on a cost plus or fee basis principally to provincial power utilities and to the Company's own Commercial Operations. Interdivisional revenue, principally from Commercial Generating Stations, is recorded on the basis of services rendered at rates designed to recover direct personnel costs and other direct costs as well as an allowance for overhead expenses. The net cost of the Research and Utilization Program is generally funded by appropriations from Parliament by way of capital and operating votes which are deducted from the program costs in the Statement of Operations.

(ii) The Commercial Operations comprise (a) Commercial Products division which manufactures and markets medical and industrial radiation equipment and radioisotopes; (b) Heavy Water Projects which produces and sells heavy water used in nuclear reactors; and (c) Commercial Generating Stations which constructs nuclear power stations sold abroad and includes the Company's share of operations of the Pickering and Douglas Point power reactors which are operated by Ontario Hydro.

Heavy Water Projects supplies product to the Company's own construction projects under Commercial Generating Stations and such transfers are recorded on the basis of recovery of production cost.

- (b) Long-term contracts: A significant portion of the Company's activities involves long-term contracts which are accounted for as follows:

(i) Construction of nuclear power plants—Revenues and costs on contracts to construct nuclear power projects, part of the Company's Commercial Operations, are recorded on the completed-contract method. Under this method, sales and cost of sales are recorded on substantial completion of the work. When project estimates indicate a probable ultimate loss, full provision is recorded against current operations.

Construction contracts in progress are reported on the balance sheet at accumulated costs (including interdivisional charges from the Research and Utilization Program) less billings to customers. In accordance with industry practice, such amounts have been included in current assets or liabilities although a portion thereof may not be realized or paid within one year. Construction costs include direct materials, direct labour, construction overhead and sub-contract costs.

(ii) Nuclear consulting services—Contracts with provincial utilities for consulting engineering services are recorded under Power Reactor Design, Testing and Marketing, part of the Company's Research and Utilization Program. Revenues from such contracts are recorded using the percentage-of-completion method. When esti-

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO THE FINANCIAL STATEMENTS—Continued

mates indicate a probable ultimate loss on a contract, the full amount thereof is recorded as a provision against current operations.

- (iii) Heavy water—Revenue on the sale of heavy water is recorded at the time of delivery. Provision for estimated losses on fulfilling future sales commitments are recorded against current operations when estimated production costs exceed respective sales prices.

- (c) Foreign currencies: Monetary assets and liabilities in foreign currencies are recorded in Canadian dollars at current exchange rates. Accumulated costs and billings related to long-term contracts in foreign currencies are recorded at historical month-end rates. Gains and losses resulting from foreign currency transactions and balances, which relate to long-term contracts, are included in contract costs. Other foreign exchange gains and losses are recorded in operations as incurred.

- (d) Inventory valuation: Heavy water and radiation equipment and materials are carried in the inventory at the lower of cost and estimated realizable value. Maintenance and general supplies are carried at cost.

- (e) Plant and property:

- (i) Expenditures for research facilities are recorded as program costs in the year of acquisition.

- (ii) Other assets are recorded at cost and are depreciated on a straight-line basis over the estimated useful lives of the assets as follows:

Houses	—50 years
Buildings	—20 to 40 years
Machinery and equipment	—5 to 20 years
Heavy water plants	—25 years
Nuclear generating station	—30 years

Interest during construction is capitalized. Prior to the in-service date, expenditures in excess of amounts attributable to actual production are charged to operations as pre-operating expenses, unless there is certainty that such pre-operating expenses can be recovered from sales in the foreseeable future.

- (f) Comparative figures: Presentation of 1977 figures has been amended to conform to the 1978 format.

2. Change in accounting policy

Effective April 1, 1977, in order to conform to predominant business practice, the Company changed its method of costing heavy water for inventory to exclude interest charges relating to heavy water plants. This revised method has been used to compute the estimated cost of heavy water sales commitments made under firm price contracts.

This change in the method of costing of heavy water resulted in an excess of expense over revenue for 1978 of \$6.8 million for commercial operations, instead of \$26.6 million if the previous method of costing had been applied. The interest now excluded from heavy water cost will be recorded as a financial charge in the future accounts of the Company. It is expected that such interest charges will not be recovered from heavy water revenues in the next three years as virtually all heavy water production in this period is committed at firm prices.

3. Parliamentary appropriations

- (i) During the year Parliament approved appropriations for the nuclear research and utilization program as follows:

	(\$000's)	
	1978	1977
Net operating expenditures	96,069	89,107
Program capital	5,622	7,650
	101,691	96,757
It also approved supplementary appropriations to cover operating losses	26,800	13,300
	128,491	110,057

- (ii) Under Loan and Advance votes by Parliament, the Company received funds which were used for the following:

	(\$000's)	
	1978	1977
Investment in provincial utilities		
Lepreau generating station	60,400	44,100
Gentilly II generating station	41,000	59,000
Nelson River transmission facilities	2,000	1,000
	103,400	104,100
Plant and property		
La Prade heavy water plant	56,500	37,000
Port Hawkesbury heavy water plant	12,000	3,000
Glace Bay heavy water plant		23,000
Gentilly I prototype nuclear power station		5,871
	68,500	68,871
Other		
Heavy water inventory	5,000	5,000
Uranium concentrate	13,000	
Working capital loan	20,000	
	38,000	5,000
	209,900	177,971

- (iii) During the year Parliament granted the Company authority to convert certain loans from Canada into equity and forgave certain indebtedness. These transactions are summarized as follows:

	(\$000's)
Loans payable to Canada in respect of an investment in Ontario Hydro's Pickering nuclear generating station—	
Loan principal was converted into shareholder's equity	79,311
Accrued interest on loans was forgiven	38,628
Loans payable to Canada in respect of financing the development of prototype nuclear power stations—	
Douglas Point loan principal was converted into shareholder's equity	69,848
Gentilly I loan principal was forgiven	87,571
Amount credited to contributed capital	275,358

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO THE FINANCIAL STATEMENTS—Continued

4. Inventories

Inventories comprise the following:

	(\$000's)	
	1978	1977
Heavy water	66,757	48,160
Radiation equipment and materials		
—Raw materials	7,972	7,420
—Work in process	4,643	4,733
—Finished goods	1,355	1,036
	13,970	13,189
Maintenance and general supplies	6,396	5,258
	<u>87,123</u>	<u>66,607</u>

5. Uncompleted contracts

(a) Export nuclear stations—

The Company, together with its partner, Italmimpianti—Societa Italiana Impianti, Italy, has contracted to deliver in 1981, a 600 megawatt (electric) nuclear generating station to Comision Nacional de Energia Atomica, Argentina. In general, the contract stipulates a firm price subject to adjustment for escalation up to certain ceilings. On the basis of current forecasts, management has determined that the provision for loss on this project, including related heavy water supply, recorded at \$130 million in 1977 remains appropriate at March 31, 1978.

The Company has also contracted to deliver in 1981, a 600 megawatt (electric) nuclear power plant to the Korea Electric Company. This contract stipulates firm prices for the Canadian content of the nuclear steam supply system with provision for adjustment for escalation; the balance of the project, relating to the non-nuclear portions of the station, is on a cost-reimbursable basis.

The status of accumulated costs and billings of these uncompleted long-term contracts to March 31 is summarized as follows:

	(\$000's)	
	1978	1977
Billings in accordance with contract terms	290,197	164,565
Deduct: Construction costs incurred	258,460	128,634
Billings in excess of costs	<u>31,737</u>	<u>35,931</u>

(b) Heavy water—

Losses on fulfilling contractual sales commitments, other than heavy water to be supplied to nuclear power plants presently under construction by the Company, were estimated to be \$30 million in 1977. Deliveries during the year against prior years sales commitments resulted in losses of \$31.1 million against which \$27.2 million had been provided in 1977. Management has determined that the balance of the 1977 provision for losses of \$2.8 million is adequate in respect of sales commitments outstanding at March 31, 1978.

(c) Nuclear consulting services—

At March 31, 1978 the estimated cost to complete outstanding contractual commitments exceed recoverable amounts by \$10.3 million, for which a provision of \$5.3

million had been recorded in the 1977 Statement of Operations and an additional \$5.0 million is recorded in the 1978 Statement of Operations. Losses on services rendered during the year amounted to \$4.7 million which had been fully provided for in 1977.

6. Long-term notes and other receivables

The portion of notes and other receivables not due within one year represents the following:

	(\$000's)	
	1978	1977
(a) Notes receivable from Ontario Hydro for the sale of the Bruce heavy water plant. Interest at 7.795% is included in the monthly payments of \$2,102,987 to December 28, 1992	214,007	222,469
(b) Notes receivable, bearing interest rates of 7 15/16% to 10%, from Hydro Quebec for advances made by the Company to assist in financing the construction of Gentilly 2 nuclear generating station. Interest is received semi-annually and repayments of principal will commence after the plant in-service date and will be based on an amortization period of 25 years at a weighted average interest rate. Maximum loan authorization is approved at \$151.0 million	151,000	110,000
(c) Notes receivable, bearing interest rates of 9 1/4% to 10 1/8% from the New Brunswick Electric Power Commission for advances made by the Company to assist in financing construction of the Lepreau nuclear generating station. Repayment of advances plus accrued interest will commence after the plant in-service date or April 1983 whichever is first and will be based on an amortization period of 25 years at a weighted average interest rate. Maximum loan authorization (including accrued interest) is approved at \$350.0 million	151,094	79,981
(d) Mortgages receivable on houses sold, at interest rates ranging from 5% to 10% per annum and amortized over periods up to 30 years	6,179	6,842
(e) Lease/sale options due from foreign governments and companies. Interest rates range from 6% to 10 1/2% with terms of up to 12 years	36,019	18,617
	<u>558,299</u>	<u>437,909</u>

7. Investments

(a) Nelson River transmission facilities

During the year Parliament authorized the Department of Energy, Mines and Resources to acquire the Company's investment in the Nelson River transmission facilities, recorded at a cost of \$290.3 million. In consideration of the transfer of this asset, the Department assumed the related loan principal of \$196.8 million and accrued interest of \$93.5 million payable to Canada.

(b) Pickering nuclear generating station

Ontario Hydro, the Province of Ontario and the Company are parties to a joint undertaking for the construction and operation of Units 1 and 2 of Pickering nuclear generating station, with ownership of these units being vested in Ontario Hydro. Ontario Hydro is committed to make payments over a period terminating in 2001 to each of the parties in proportion to their capital contributions. These payments, termed "payback", represent in a broad sense the net operational advantage of having the power generated by Pickering Units 1 and 2 as compared with coal-fired units similar to Lambton Units 1 and 2.

ATOMIC ENERGY OF CANADA LIMITED—Continued

NOTES TO THE FINANCIAL STATEMENTS—Concluded

In prior years, the return on the Company's investment in the Pickering generating station did not result in income to the Company but under the terms of the loans from Canada, flowed through to the Consolidated Revenue Fund of Canada. As a result of converting the loans into shareholder's equity effective April 1, 1977 (Note 3) paybacks by Ontario Hydro of \$28 million in 1978 are recorded in operations as investment income of commercial generating stations. The cost of the investment is amortized on a straight-line basis and amounted to \$4.8 million for the year as a charge to operations.

8. Prototype nuclear power stations

The Douglas Point, Ontario and Gentilly, Quebec prototype stations were built primarily to provide information and to demonstrate the suitability of the CANDU system. Ontario Hydro and Hydro Quebec operate the respective stations. The cost of constructing and developing these stations was carried in prior years without depreciation in plant and property.

During the year the Company determined that Gentilly I is principally of a research nature and, therefore, is part of its research and utilization program. Accordingly, the carrying value of the station was written off. The amount of the write off was deducted from contributed capital arising on loans forgiven by Canada. Cost of improvements to the station and its operating results are included in the Company's research and utilization program.

At the same time the Company determined that Douglas Point is principally a commercial activity and, therefore, effective April 1, 1977 the operating results of the station are included in commercial generating stations, part of commercial operations. The Company also commenced to record depreciation on the Douglas Point reactor over the remaining 20 years of the station's useful life.

9. Purchase of Glace Bay heavy water plant

On February 9, 1978 the Company acquired the Glace Bay heavy water plant under an agreement which provides for annual payments of \$3.3 million payable quarterly for 20 years commencing April 1, 1978. The Company has recorded the purchase at a present value of \$32 million. Costs of \$211.2 million incurred by the Company to rehabilitate the plant, which had been shown as investments in prior years, were added to the cost of the purchase in 1978 and included in plant and property.

10. Major commitments

(a) In July 1969, the Company entered into a contract with Ontario Hydro whereby the Company is committed to purchase all of the Cobalt-60 produced at the Pickering generating station for a period of 30 years from the in-service date (1971) of the installation. The contract is independent of market demand and may be terminated by agreement between the parties.

(b) The Company is constructing a 725 metric-ton-per-year heavy water production plant known as La Prade, near Gentilly, Quebec. Capital expenditures to March 31, 1978 are \$217.2 million (excluding \$34.4 million of interest on loans). Management estimates that the cost of the plant, excluding interest during construction, will be \$846 million. Since the method of financing for this project is under review the associated interest costs are not determinable at this time.

(c) The Company has contracted to supply Hydro Quebec with 1,440 megagrams of heavy water by 1990 at a price that is

intended to fully recover all relevant costs. The Company is required to repurchase up to 960 megagrams of the heavy water in 1995 if declared surplus by Hydro Quebec.

11. Payment in escrow

In 1971 the Company supplied heavy water to a foreign government under a lease agreement granting an option to purchase. The agreement required compliance with specified conditions set by the Government of Canada as well as those stipulated in a multi-national agreement. Although the foreign government has purported to exercise the option to purchase by forwarding payment, the Company, after consultation with Canadian government authorities, has refused to recognize the exercise of the option because the foreign government has not complied with all of the specified conditions.

12. Supplementary information

(a) The Company filed Articles of Continuance in accordance with Section 181 of the Canada Business Corporations Act and received a Certificate of Continuance dated July 8, 1977.

(b) During the year, the Company's Board of 13 directors received aggregate remuneration as directors of \$22,400 (1977—\$14,000). The Company has 11 officers, two of whom are also directors. The aggregate remuneration received by these officers and by a past officer amounted to \$496,500 (1977—\$485,000).

(c) During the year remuneration and expenses paid to the following 36 sales agents and representatives and one procurement agent, aggregated \$2,236,291 (1977—\$17,353,752):

(i) Sales agents and representatives

Gammaster, The Netherlands; The Arab Trading & Engineering Office, Syria; Amtraco Service Corporation, Indonesia; Kostas Karayannis, Greece; Costa Rica Dental & Medical Supply Co., Costa Rica; C.G.R. Generay, Italy; C.G.R. Benelux, Belgium; C.G.R. MeV, France; The China Engineers Ltd., Hong Kong; China National Chemicals, People's Republic of China; A. Bruce Edwards, U.S.A.; Eastronics Ltd., Israel; Equipo Para Hospitales S.A., Mexico; C.G.R. do Brazil, Brazil; C.G.R. de Venezuela C.A., Venezuela; General Electric Espanola, Spain; General Electric Company, U.S.A.; Geveke Electronica en Automatie BV., The Netherlands; General Machinery Company Ltd., Chile; General Electric de Colombia S.A., Colombia; International General Electric Company (India) Private Limited, India; International Machinery Company, Bolivia; O.E. Hamman Y Cia, S.A., Peru; Labkar Company Limited, Iran; F. Mansilla Y Cia Ltda., Guatemala; Marubeni Corporation, Japan; C.H.F. Mueller A.G., Germany; High Energy & Nuclear Equipment S.A., Switzerland; Societa Lombarda Di Televisione SPA, Italy; Roberto L. Lannes, Uruguay; E-Comm Australia, N.S.W. Australia; Tamathe S.R.L., Argentina; Spring Port Taiwan Limited, Taiwan; GEC Medical Equipment Ltd., England; Koch & Sterzel C.G.R., Germany; Gebhart Y Asociados, Mexico.

(ii) Procurement agent

International Pharmaceuticals Limited, Ceylon.

(d) The Company is subject to restraint under the Anti-Inflation Act with respect to certain of its prices and profit margins and the compensation of its employees. In the opinion of management, all steps necessary for compliance have been taken.

BANK OF CANADA

AUDITORS' REPORT

We have examined the statement of assets and liabilities of the Bank of Canada as at December 31, 1977 and the statement of income and expense for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Bank as at December 31, 1977 and the results of its operations for the year then ended in accordance with the attached summary of significant accounting policies, applied on a basis consistent with that of the preceding year.

FINANCIAL STATEMENTS DECEMBER 31, 1977
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(a) Form of Presentation

The form of the statement of assets and liabilities meets the requirements of the Bank of Canada Act.

(b) Revenues and Expenses

Revenues and expenses have been accounted for on the accrual basis.

(c) Investments and Bills

In accordance with the requirements of the Bank of Canada Act, these assets have been recorded at their cost adjusted for amortization of purchase discounts and premiums. The amortization as well as gains and losses on disposition have been included in income.

(d) Translation of Foreign Currencies

Assets and liabilities in foreign currencies have been translated to Canadian dollars at the rates of exchange prevailing at the year-end.

(e) Depreciation

Depreciation has been recorded at the following annual rates applied on the declining balance method:

Buildings	5%
Equipment	20%

CANADA DEPOSIT INSURANCE CORPORATION

(Established by the Canada Deposit Insurance Corporation Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
February 24, 1978

THE HONOURABLE JEAN CHRÉTIEN, P.C., M.P.,
MINISTER OF FINANCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canada Deposit Insurance Corporation as at December 31, 1977 and the statements of income and accumulated net earnings and financial activities for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1977 and the results of its operations and financial activities for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1977

1. Objective of the Corporation

The Canada Deposit Insurance Corporation was incorporated as a Crown corporation on April 17, 1967 under the provisions of the Canada Deposit Insurance Corporation Act.

The Corporation's principal objective is to provide insurance on deposits with federal institutions (banks and trust and loan companies) and with approved provincial institutions (trust and loan companies) up to a stated amount per depositor per institution. Premiums are assessed against member institutions based on insurable deposits held by those institutions on April 30 of each year.

2. Significant accounting policies

Premiums

Premiums are credited directly to the Deposit Insurance Fund in accordance with section 18 of the Canada Deposit Insurance Corporation Act.

Revenue

Return on investments is reported inclusive of gains and losses on sales of investments and of the annual amortization of premiums and discounts on fixed term securities.

Recognition of losses

Provision for losses arising from actions taken to secure the subrogation of depositors' rights and interests is established in the year these actions are taken or as soon as possible thereafter when the eventual losses can be reasonably estimated.

Income taxes

The Corporation follows a policy of reducing its income for tax purposes and deferring a portion of its income tax otherwise payable by claiming a reserve on its investments as provided for by the Income Tax Act.

3. Investments

		1977		1976
	Due Date	Par Value	Amortized Cost	Amortized Cost
Canada Bonds	1977	\$	\$	\$ 14,000,516
	1978	54,600,000	54,656,644	39,629,496
	1979	32,479,000	32,502,029	32,518,284
	1980	11,200,000	11,196,868	6,214,325
	1983	3,150,000	2,809,686	2,749,632
		101,429,000	101,165,227	95,112,253
Treasury Bills	1978	23,902,000	23,735,722	20,393,992
		\$125,331,000	\$124,900,949	\$115,506,245

Under section 35(3)(a) of the incorporating legislation, funds of the Corporation must be invested in securities of the Government of Canada.

4. Assets acquired from member institutions

Assets acquired from member institutions are comprised of Canada bonds and other bonds and debentures recorded at amortized cost, and mortgages recorded at cost.

	1977	1976
Canada bonds	\$ 158,596	\$ 158,482
Other bonds and debentures	1,120,739	1,190,822
	<u>1,279,335</u>	<u>1,349,304</u>
Mortgages	1,588,035	2,451,229
	<u>\$2,867,370</u>	<u>\$3,800,533</u>

CANADA DEPOSIT INSURANCE CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1977—*Concluded*

Market value of Canada bonds and other bonds and debentures at December 31, 1977 was \$995,683 (1976—\$1,021,800).

5. Premiums

As provided in section 19(8) of the Act and as approved by the Board of Directors on February 2, 1972, member institutions were assessed reduced premiums during the year and in every year since 1972. Under an amendment to the Act dated June 29, 1977, the Corporation may pay a premium rebate to member institutions subject to stated limitations where, in the opinion of the Corporation, the Deposit Insurance Fund at the end of a financial year is adequate, having regard to all the circumstances. No rebates were paid during 1977.

6. Capital stock

Under an amendment to the Act dated June 29, 1977, the Corporation redeemed all of its capital stock for \$10,000,000.

Sections 3(2) and 3(3) of the Act provide that the Corporation is, for all purposes of the Act, an agent of Her Majesty and that the property of the Corporation is the property of Her Majesty. Accordingly the redemption of capital stock had no effect on ownership or control of the Corporation.

7. Dividends paid

During the year, the Corporation declared and paid a dividend of \$812,500 in respect of the year ended December 31, 1976 and an additional dividend of \$491,667 in respect of the period January 1, 1977 to August 26, 1977 (date of redemption of capital stock). The dividends were based on the rate of interest applicable to loans to Crown corporations as provided for in section 36 of the Act.

8. Insured deposits

Deposits insured by the Corporation, based on returns received from member institutions during 1977, totalled \$66,219 million, comprising deposits of \$58,068 million in federal institutions and \$8,151 million in provincial institutions. Of the deposits insured in provincial institutions, \$680 million was covered by a temporary agreement with one province to indemnify the Corporation against losses on those deposits.

CANADIAN ARSENALS LIMITED

(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
September 12, 1978

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.
MINISTER OF SUPPLY AND SERVICES
OTTAWA, ONTARIO

I have examined the balance sheet of Canadian Arsenals Limited as at March 31, 1978 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

At the end of the preceding year, approximately one fifth of the inventory owned by the Company and all of that supplied and owned by government departments had not been counted. I was therefore unable to satisfy myself as to the amount of inventory on the balance sheet as at March 31, 1977, and consequently I am unable to evaluate the effect of possible adjustments to that inventory which would have been absorbed in the operations of the year ended March 31, 1978.

As described in Notes 4 and 8 to the financial statements, the fixed assets used by the Company, including those purchased with funds provided from its annual parliamentary appropriation, are considered to be owned by Canada and therefore are not recorded as assets in the Company's accounts. The company does not pay for the use of such

assets and has not determined a fair value for their use. In my opinion, fixed assets purchased with funds provided by appropriations should be included as assets on the Balance Sheet and a corresponding amount should be included in parliamentary appropriation in the Statement of Deficit. The resulting depreciation charges and any related interest charges would have the effect of increasing the net loss for the year. In addition, certain of the fixed assets, mainly land and buildings, were paid for by Canada, prior to the establishment of the Company and are still owned by Canada. The continued failure to include a charge in the Statement of Operations for the use of such assets, further understates the net loss for the year and the deficit.

In my opinion, except for the matters referred to in the two preceding paragraphs, the financial statements give a true and fair view of the financial position of the Company as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1978

1. Incorporation and operation

The Company was incorporated on September 20, 1945 under the Companies Act of 1934 on the recommendation of the Minister of Reconstruction pursuant to authority granted by Order in Council P.C. 5929 of September 14, 1945.

During the year the Company obtained supplementary letters patent allowing it to extend its operations to the manufacture of products related to ammunition. It had previously been limited to the assembly of ammunition components. The Company's Head Office was also moved from Ottawa to City of Le Gardeur (St-Paul-l'Ermite), Québec.

2. Significant accounting policies

(a) Inventory valuation

Inventories of finished goods and work-in-process are valued at the lower of cost and net realizable value. Inventories of manufacturing supplies are valued at the lower of cost and replacement cost.

(b) Progress billings

Sales are recorded on the basis of deliveries to customers by the suppliers or the Company. Progress billings to customers are recorded on the basis of milestones provided in the contracts. The title for the goods is not transferred by the supplier at the time of the progress billing but it is nevertheless recognized by the Company as a liability.

The Company signs purchase contracts with the suppliers in order to meet the requirements of the contracts entered into with its customers. Progress billings to suppliers become due for payment on the basis of milestones provided in the contracts. The Company is committed to its customers for the performance of its suppliers and thus may absorb losses upon default of the suppliers. Such losses are recorded as they occur or are known.

3. Inventories

	1978	1977
Inventories of work-in-process and finished goods	\$ 1,849,131	\$ 1,874,706
Manufacturing supplies	280,246	301,055
	\$ 2,129,377	\$ 2,175,761

4. Fixed Assets

The fixed assets are owned by the Crown, are administered by the Company and are not reflected in the financial statements. The cost at March 31 were as follows:

	1978	1977
Land and improvements	\$ 2,286,854	\$ 2,283,401
Buildings	11,420,054	11,356,034
Equipment	9,132,687	9,003,578
	\$ 22,839,595	\$ 22,643,013

5. Loans due to Canada

These loans which provide working capital to the Company bear no interest and have no fixed repayment dates.

6. Provision for loss on prior year contract

Work on a contract which the Company is contractually committed to complete was interrupted in 1974. It is estimated that the net loss on completion of this contract will amount to \$146,507.

7. Remuneration of directors and officers

The Company has six directors and their aggregate remuneration as directors during the year was \$11,110 (nil in 1977). There are seven officers, one of whom is also a director, and their aggregate remuneration during the year as officers was \$143,849 (\$97,488 in 1977).

Certain 1977 figures have been reclassified to conform to the 1978 presentation.

CANADIAN BROADCASTING CORPORATION

(Established by the Broadcasting Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 13, 1978

THE CANADIAN BROADCASTING CORPORATION AND
THE HONOURABLE JOHN ROBERTS, P.C., M.P.,
SECRETARY OF STATE,
OTTAWA, ONTARIO.

I have examined the consolidated balance sheet of Canadian Broadcasting Corporation as at March 31, 1978 and the consolidated statements of income and expense, proprietor's equity account and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect

to the recording of the liabilities for accumulated interest on loans from Canada, for employee termination benefits and for employee vacation pay as described in Notes 3, 6 and 7 to the financial statements respectively, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and, except for the failure to obtain an Order-in-Council as required by the Broadcasting Act for the transaction described in Note 14 to the financial statements, the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

CANADIAN BROADCASTING CORPORATION—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1978

1. Significant accounting policies

a) Subsidiaries

The consolidated financial statements include the accounts of Canadian Broadcasting Corporation and its wholly-owned subsidiaries, CJBR Radio Limitée and CJBR-TV Limitée. The Corporation's former wholly-owned subsidiaries, St. Clair River Broadcasting Limited and Les Entreprises Roléo Limitée were both legally dissolved during the year.

b) Investments

Investments are carried at cost. Income arising from the investments is recognized when received.

c) Prepaid film rights

The Corporation enters into commitments for film broadcasting rights. These commitments are reflected in the accounts as prepaid film rights as payments are made under the terms of each contract. The rights are charged to operations as the films are broadcast or determined unusable.

d) Programs produced

Programs produced are carried in inventory at cost. Cost includes goods and services directly attributable to each program, labour and related overhead. The total program cost is charged to operations upon broadcast.

e) Fixed assets

Fixed assets are carried at cost of material, engineering, labour and related overhead and are depreciated from the in-service year on the straight line method using rates based on the estimated useful lives of the assets on the following basis:

Buildings	33 years
Transmitters and towers	20 years
Technical equipment	10 years
Studio and office furnishings and equipment	10 years
Vehicles	5 years

2. Investments at cost

Télévision St. François Inc., preferred shares	\$ 350,000
Master FM Limited—common shares	2,000
	<u>\$352,000</u>

3. Loans to finance acquisition of fixed assets

Payment of principal and interest on loans from Canada due after March 31, 1974 has been deferred until March 31, 1979, in accordance with Orders-in-Council P.C. 1974-633, P.C. 1974-704 and P.C. 1974-856. During 1978 the Corporation adopted the policy of recording in its accounts the interest on these loans. This policy was applied retroactively to April 1, 1974, and resulted in increased operating expenditures of \$14,053,194 for each of the years 1978, 1977, 1976 and 1975 and a cumulative liability of \$56,212,776. The comparative figures for 1977 have been restated to reflect this change.

4. Proceeds from Parliamentary appropriations

The proceeds from Parliamentary appropriations for operating and capital expenditures during the year were comprised of funds voted by Parliament and are exclusive of payments for the 1978 Commonwealth Summer Games.

	Operating	Capital	Total
Parliamentary appropriations	\$ 400,200,000	\$ 64,100,000	\$ 464,300,000
Repayments to Canada		58,467	58,467
Proceeds from Parliamentary appropriations	<u>\$ 400,200,000</u>	<u>\$ 64,041,533</u>	<u>\$ 464,241,533</u>

At March 31, 1978, the unexpended balance of operating appropriations amounted to \$4,093,000, which in accordance with an agreement with Treasury Board has been retained by the Corporation and included in the Proprietor's Equity Account.

The expenditures for winding-up the 1976 Summer Olympics amounting to \$619,000, exclusive of depreciation were financed from a \$950,000 carry-over of prior years' appropriations provided for that purpose.

The operating expenditures for the 1978 Commonwealth Summer Games amounting to \$507,000, exclusive of depreciation and \$220,000 capital expenses were financed from a \$2,700,000 Parliamentary appropriation provided for that purpose. The unexpended balance of \$1,973,000 has been carried over to 1978/79.

5. Pension plan

The latest actuarial review made at December 31, 1974 indicated the unfunded liability under the Corporation's pension plan to be estimated at \$47,690,000. The Corporation is liquidating this by annual payments of \$4,840,000, payable to 1992 and by annual payments of \$800,100 thereafter until the year 2027 representing both principal and interest as required by the Pension Benefits Standards Act 1966-67, c. 92. A further actuarial review is in process.

6. Employee termination benefits

During 1978 the Corporation adopted the policy of recording in its accounts, a provision for termination benefits accruing to employees. This accounting policy was applied retroactively and resulted in increased operating expenditures of \$7,501,000 for 1978, \$8,341,000 for 1977 and \$28,714,000 for prior years, and a cumulative liability of \$44,555,000. Comparative figures for 1977 have been restated to reflect this change.

7. Employee vacation pay

During 1978 the Corporation adopted the policy of reflecting in its books of account the liability related to employee vacation pay earned but not yet taken. Vacation pay or annual leave earnings commence April 1st of each year, building up to the maximum by March 31st and constitute a liability until taken or paid in the following fiscal year. This accounting policy was applied retroactively and resulted in increased operating expenditures of \$1,741,000 for 1978, \$2,274,000 for 1977 and \$14,650,000 for prior years, and a cumulative liability of \$18,665,000. Comparative figures for 1977 have been restated to reflect this change.

CANADIAN BROADCASTING CORPORATION—*Concluded*NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1978—*Concluded*

8. Contractual obligations

The Corporation has entered into commitments for future film rights amounting to approximately \$18.6 million, which, consistent with policy, are not reflected in the accounts.

The Corporation is also committed in the course of normal business under unexpired lease contracts to future expenditures of approximately \$72.4 million of which \$45.9 million will become payable over the next three fiscal years with the balance becoming payable over the subsequent fifteen years.

9. Contingent liabilities

In the ordinary course of the business of the Corporation, there are matters in suit and in dispute and contingencies outstanding against it. In the opinion of management, the losses, if any, which may result from the settlement of these matters will not be material.

10. Anti-Inflation Act

The Anti-Inflation Act provides for the restraint of prices and compensation. The Corporation is subject to this legislation and has no unrecorded or contingent liability in that respect.

11. Prior years' adjustments

The effect of the three material changes in the Corporation's accounting policies were:

	(in thousands of dollars)		
	1978	1977	Prior Years
Interest on loans (Note 3)	14,053	14,053	28,106
Employee termination benefits (Note 6)	7,501	8,341	28,714
Employee vacation pay (Note 7)	1,741	2,274	14,650
	<u>23,295</u>	<u>24,668</u>	<u>71,470</u>

12. Purchase of subsidiaries

The Corporation on August 1, 1977 purchased CJBR Radio Limitée and CJBR-TV Limitée for an amount of \$2.0 million. The excess of purchase price over net asset values obtained amounting to \$1,212,153 has been written off to operations and is included in depreciation and amortization.

13. Change in application of depreciation

During the year the Corporation changed the estimated useful life of buildings from 20 years to 33 years. This change was made to the current year only and resulted in a reduction of \$4,178,333 in depreciation.

14. Statutory financial limitations

In renewing its lease for facilities in Paris, France, the Corporation became party to a transaction involving real property the total value of which exceeded \$250,000 but inadvertently failed to obtain approval of the Governor in Council as required by Section 41 of the Broadcasting Act.

15. Comparative figures

The presentation of the prior year's comparative figures has been amended to conform to the current year's format.

CANADIAN COMMERCIAL CORPORATION

(Incorporated under the Canadian Commercial Corporation Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 8, 1978

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Commercial Corporation as at March 31, 1978, and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As described in Note 9 to the financial statements, a legal suit for approximately \$8.0 million has been filed against the Corporation, claiming damages arising from the termination of a portion of a contract. The Corporation is contesting this suit; however, the ultimate outcome is uncertain at this time.

I was unable to satisfy myself of the collectibility of accounts receivable from certain foreign governments of approximately \$1.8 million, as described in Note 3 to the financial statements.

In my opinion, subject to the outcome of the litigation mentioned in the second paragraph above, and subject to the collectibility of accounts receivable from certain foreign governments referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1978

1. Operations

The Corporation acts primarily as the contracting agency when other countries and international agencies wish to purchase supplies and services from Canada on a government-to-government

basis. An additional important function of the Corporation is the procurement in Canada of equipment, supplies and services which the Government of Canada contributes to other nations under Canadian International Development Agency programs.

Contracts are made with the purchaser (the Corporation's customer) and equivalent contracts are entered into by the Corporation with appropriate suppliers as sourced by the contracting arm of the Department of Supply and Services of the Government of Canada.

The Corporation has no capital assets or employees, and is charged for contracting services rendered by the Department of Supply and Services according to Treasury Board approved, predetermined rates, applied to the amounts of contracts procured. A portion of these costs is recovered from the Canadian International Development Agency based upon the contracts procured by the Corporation on behalf of that Agency.

Surpluses considered to be in excess of the requirements are transferred to the Receiver General for Canada. Reimbursement of realized deficits is contingent upon Parliamentary appropriations.

The Corporation is not liable for the payment of income taxes.

The Corporation has no capital stock. Paid in capital of \$10,000,000 comprises amounts received from Canada under subsection 8(1) of the Canadian Commercial Corporation Act.

2. Significant accounting policies

(a) Contract billings

Sales are recorded on the basis of deliveries to customers by the suppliers for fixed price contracts. Sales on cost reimbursable contracts are recorded when progress billings become due for payment. However, as title for the goods has not passed from the suppliers on these progress billings, the Corporation continues to recognize the liability.

Contracts are entered into with suppliers by the Corporation to fulfill the requirements of sales contracts which were entered into with its customers. While the provisions of both contracts are reciprocal, the Corporation is committed to its customers for the performance of its suppliers and thus may absorb losses upon default of the supplier. Such losses are recorded as they occur.

(b) Foreign currency

The greater part of the Corporation's business is conducted in U.S. dollars which have been translated to Canadian dollars. All assets, liabilities, income and expenses have been translated at the exchange rate on March 31, 1978. Gains and losses resulting from foreign currency transactions, including translations, are included in the statement of operations.

3. Accounts receivable from foreign governments

The Corporation's sales are on a government-to-government basis and the settlement of some accounts is protracted. As of March 31, 1978, approximately \$2.3 million (\$2.3 million in 1977) of receivables had been outstanding in excess of one year. However, the collection experience supports the likelihood of payments and no provision for doubtful accounts is deemed necessary.

4. Contractual commitments

As of March 31, 1978, the Corporation was committed to fulfill contracts with customers requiring future deliveries of goods and services as shown below:

	(\$ million)
Contractual commitments at beginning of the year.....	\$ 417
Contracts entered into.....	308
Deliveries.....	(286)
Contractual commitments at end of the year.....	\$ 439

CANADIAN COMMERCIAL CORPORATION—Concluded**NOTES TO FINANCIAL STATEMENTS MARCH 31, 1978—Concluded****5. Advances received from customers**

Certain advances received from customers amounting to \$1,959,099 (\$1,866,059 in 1977) bear interest at prevailing short-term bank deposit rates.

6. Loan to supplier

During 1971 the Corporation entered into a loan agreement with a supplier. The original agreement has been subsequently amended to provide that the Corporation controls the supplier's ability to obtain financing and to change ownership. The loan is non interest-bearing, unsecured and repayable in annual installments of increasing amounts terminating in 1990.

7. Investment in supplier

During 1976 the Corporation renegotiated certain supplier contracts and acquired 527,855 common shares and one special preference share of a supplier for a nominal value of \$1.00. This was done to fulfill contractual obligations to a major customer and to reduce a possible loss of \$5.8 million to approximately \$3.0 million.

The Corporation has a minority interest through its holding of common shares. These shares are subject to a voting trust which grants the controlling shareholder the voting rights of these shares until 1987. The Corporation holds the only issued preference share which grants certain powers over the supplier's ability to: borrow, mortgage property, dispose of all or part of its undertaking, pay dividends, enter into contracts and pay management fees.

8. Loans payable to Canada

Subsection 8(2) of the Canadian Commercial Corporation Act states that the Corporation may borrow up to \$10,000,000 from the Consolidated Revenue Fund on such terms and conditions as determined by the Governor in Council. As at March 31, 1978, \$3,300,000 was outstanding as follows:

<u>Amount</u>	<u>Due Date</u>	<u>Interest Rate</u>
\$1,800,000		6.3%
\$1,500,000		6.3%

9. Contingent liability

The Corporation is named as defendant in a legal action instituted in 1975 claiming damages for alleged losses resulting from the termination of a portion of a contract. Total damages claimed are approximately \$8.0 million. The action is being contested and the ultimate outcome is uncertain. Management is of the opinion that no provision for settlement is required.

10. Representative agreement

To facilitate its operations under the incorporating Act, the Corporation has entered into a representative agreement with Dismatica Industrial C.A. of Venezuela to whom aggregate fees of \$25,000 were paid during the year (\$ nil in 1977).

11. Subsequent events

Since April 1978, the Corporation is no longer contracting on behalf of the Canadian International Development Agency (CIDA) for the Grant Aid Program. Sales contracted by the Corporation on behalf of CIDA approximated \$128 million (\$112 million in 1977).

Pursuant to a Cabinet decision of June 10, 1976 affirming support for the Corporation's participation in multi-item acquisition and turnkey projects, personnel with experience in the assessment and management of major projects are to be hired directly by the Corporation and a reorganization of the Corporation's relationship with the Department of Supply and Services is to be made.

12. Comparative figures

The comparative figures have been reclassified to conform to the current year's presentation.

CANADIAN DAIRY COMMISSION

(Established by the Canadian Dairy Commission Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 5, 1978

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.,
MINISTER OF AGRICULTURE,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Canadian Dairy Commission as at March 31, 1978 and the statements of deficit, dairy support operations expense, marketing operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

The accompanying schedule and notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1978

1. Objectives

The objectives of the Canadian Dairy Commission as established by the Canadian Dairy Commission Act 1966-67 are "to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality."

2. Significant accounting policies

Accounting basis

a) Statement of Dairy Support Operations Expense

This statement reflects the expenses of the Commission which are recoverable from funds provided through parliamentary appropriations. Such expenses include subsidies to producers on milk and cream used for industrial purposes, loss on marketing operations expenses, administrative expense, expenditures for product and market research and product promotion and advertising programs.

b) Statement of Marketing Operations

The statement of Marketing Operations reflects the loss incurred by the Commission in the export of surplus dairy products and assistance payments made directly to exporters to permit them to compete with surplus products on the world markets.

3. Change in funding policy

The Commission made a change during 1977/78 with respect to the funding of marketing operations.

Previously, the marketing operations were reflected in the export equalization account. The Commission in managing the account established a producer levy intended to balance the account over a five-year period.

In 1978, Parliament voted to forgive loans made to the Commission totalling \$159,718,170. This amount represented the deficit as shown in the accounts at March 31, 1977.

4. Funding of Dairy Support Operations

	1978	1977
Funds received from Agricultural Stabilization Board through Agriculture Vote 20	\$258,098,039	\$233,117,732
Account receivable from Agricultural Stabilization Board, representing funds receivable for the Dairy Support Operations (subject to funds being appropriated by Parliament)	29,265,493	35,481,960
	<u>\$ 287,363,532</u>	<u>\$ 268,599,692</u>

CANADIAN DAIRY COMMISSION—Concluded

NOTES TO FINANCIAL STATEMENTS—Concluded

5. Inventories

The inventories are valued at the lower of cost and net realized value and consist of:

	1978	1977
Skim milk powder	\$11,782,488	\$24,416,217
Butter	23,281,652	11,388,112
Other related dairy products	3,016,262	5,544,833
	<u>\$38,080,402</u>	<u>\$41,349,162</u>

These inventories have been adjusted as follows:

Skim milk powder

Prices on the world market are depressed, resulting in the estimated net realizable value of the inventory as at March 31, 1978, being approximately \$31,000,000 (\$103,000,000—1977) less than the Canadian support price.

Butter

The inventory of 32.7 million pounds of butter at March 31, 1978 is 22.7 million pounds in excess of Canadian requirements. The excess will be exported at world prices and has been valued at \$15,669,867 less than the Canadian support price.

Other related dairy products

The inventory includes evaporated milk, butter oil and various forms of milk powder other than skim milk powder. The estimated net realizable value of the inventory as at March 31, 1978 is approximately \$2,000,000 (\$8,000,000—1977) less than acquisition cost plus conversion cost.

6. Loans from Canada

Loans from Canada obtained to finance purchase of dairy products bear interest rates varying from 7.375% to 7.625% per annum. Repayment terms are not specified in loan agreements. Interest, calculated on a simple basis, is paid at the year-end and at the time of any principal repayment. As at year-end, no accrued interest was payable.

7. Outstanding commitments

As at March 31, 1978, the Commission is committed to purchase skim milk powder and other related products produced prior to March 31, 1978 at the 1977 Canadian support prices in an amount of approximately \$8,600,000. The loss which may result from these purchases at higher than export prices has been estimated to be approximately \$5,700,000. The amount of this estimated loss has been charged to the marketing operations.

8. Agents' commission

The Commission has appointed three sales agents in connection with marketing surplus dairy products.

Commissions paid or payable are as follows:

Date of Appointment	Name of Agent	Market Area	Commission	
			1978	1977
Nov. 1/76	Coop Fédérée de Québec	Algeria	\$ 476,732	\$85,000
Apr. 1977	Ault Foods Limited	Mexico	650,555	
Aug. 1977	Lucalex International	Malta	39,682	
			<u>\$ 1,166,969</u>	<u>\$85,000</u>

9. Comparative figures

Certain figures for the previous year have been restated to conform to the current year's presentation.

CANADIAN FILM DEVELOPMENT CORPORATION
(Established by the Canadian Film Development Corporation Act)

AUDITOR GENERAL OF CANADA

Ottawa, Ontario
 July 7, 1978

THE HONOURABLE JOHN ROBERTS, P.C., M.P.,
 SECRETARY OF STATE,
 OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Film Development Corporation as at March 31, 1978 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes in accounting for employee vacation pay and investments in feature films described in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1978

1. Nature of activities

The Corporation was established in 1967 under the Canadian Film Development Corporation Act with the objective of fostering and promoting the development of a feature film industry in Canada. To achieve its objective, the Corporation advises and assists the Canadian producers and invests in Canadian feature film productions in return for a share in the proceeds from such productions.

2. Significant accounting policies

(a) Investments in feature films

The Corporation's investments in feature films are carried at the lower of cost and net realizable value. Net realizable value represents estimated future revenues attributable to the Corporation's investment in feature films during the current and preceding years.

(b) Furniture and equipment

Depreciation of furniture and equipment is provided under the diminishing balance method at 20% per annum.

(c) Equity of Canada

Parliamentary appropriations are credited to the Statement of Equity of Canada and the net cost of operations is charged thereto.

3. Changes in accounting policy

(a) Investments in feature films

During the year, the Corporation adopted the policy of recording its investments in feature films at the lower of cost and net realizable value. Previously, the Corporation carried as an asset its share of the cost of feature films in production and expensed all costs of films when they were placed in distribution. The change in policy has been applied retroactively and previous years' financial statements have been restated. As a result of the change, the net cost of operations decreased by \$813,069 and \$1,118,101 for the years ended March 31, 1978 and March 31, 1977 respectively.

(b) Employees' vacation pay

During the year, the Corporation adopted the policy of recording the liability for vacation pay accruing to its employees. Previously, amounts paid in respect of employees' vacations were expensed in the year of payment. The change in policy has been applied retroactively and previous years' financial statements have been restated. As a result of the change the net cost of operations was increased by \$1,377 for the year ended March 31, 1978.

4. Statutory appropriation

By the provisions of the Canadian Film Development Corporation Act \$10,000,00 was appropriated from the Consolidated Revenue Fund to be withdrawn by the Corporation from time to time for the furtherance of its objective. This sum was increased to \$20,000,000 in 1971-72 and to \$25,000,000 in 1975-76. The status of the appropriation at March 31 is as follows:

	1978	1977
Amount appropriated	\$25,000,000	\$25,000,000
Amount withdrawn in prior years	23,995,550	20,458,504
Balance of appropriation at beginning of year	1,004,450	4,541,496
Amount withdrawn during the year		3,537,046
Balance of statutory appropriation at end of year	\$ 1,004,450	\$ 1,004,450

CANADIAN FILM DEVELOPMENT CORPORATION—*Concluded*NOTES TO FINANCIAL STATEMENTS MARCH 31, 1978—*Concluded*

5. Commitments

The Corporation is committed under contractual agreements to invest an amount of \$266,576 in Canadian feature film production. The Corporation has also agreed in principle to invest an additional amount of \$998,500 in other Canadian feature film productions subject to certain conditions being met by the applicants.

6. Remuneration of Directors and Officers

Expenses include remuneration of Directors as Directors \$8,000 (1977—\$5,250) and remuneration of Officers as Officers \$72,269

(1977—\$62,474). The Corporation has five Directors and two officers; one Officer is also a Director.

7. Anti-Inflation Legislation

The Corporation is subject to, and has complied with, controls on compensation under the Anti-Inflation Program of the Government of Canada.

8. Comparative figures

Certain figures for 1977, presented for comparative purposes, have been restated to conform to the 1978 presentation.

CANADIAN LIVESTOCK FEED BOARD

(Established under the Livestock Feed Assistance Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
July 17, 1978

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.
MINISTER OF AGRICULTURE
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Livestock Feed Board as at March 31, 1978 and the statements of operations and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Board as at March 31, 1978 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

In further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

Balance at end of year	\$ 402,033	\$ 283,191

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1978

1. Nature of activities

The objectives of the Board are to ensure the availability of feed grain to meet the need of livestock feeders, the availability of adequate storage space in Eastern Canada for feed grain, and the maintenance of reasonable stability in, and fair equalization of, feed grain prices in Eastern Canada and British Columbia.

2. Significant accounting policies

(a) Basis of presentation

The claims for freight assistance are recorded as expense in the period in which the shipment takes place.

Payments made in April up to the extent of the available parliamentary notes and chargeable to the previous year's appropriations are recorded as due from Canada in respect of parliamentary appropriations.

(b) Furniture and equipment

Purchases of furniture and equipment are recorded as administrative expense in the year of acquisition.

(c) Accounting and cheque issue services

The Board includes as an expense in the statement of operations services provided without charge by a government department and a corresponding amount is credited in the statement of deficit.

CANADIAN NATIONAL RAILWAYS

TO THE HONOURABLE THE MINISTER OF TRANSPORT,
OTTAWA, CANADA.

We have examined the consolidated balance sheet of the Canadian National Railway System as at December 31, 1977 and the consolidated statements of income, earned surplus and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these consolidated financial statements are properly drawn up so as to give a true and fair view of the state of affairs of the System as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the System.

Montreal, Canada

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Summary of Significant Accounting Policies

Introduction

At the date of these financial statements, there is before Parliament a Bill entitled "An Act to amend the Canadian National Railways Capital Revision Act and the Railway Act and to amend and repeal certain other statutes in consequence thereof". If enacted and implemented in its present form, the Bill, the effects of which are more fully described in Note 13(a), will significantly alter the existing debt and equity structure of the Company and will affect certain aspects of existing arrangements for future financing. Similarly, a Bill, which has now been enacted but for which the date of coming into force has not yet been fixed by proclamation (see Note 13(b)), is expected to result in the elimination of the Company's investment in Air Canada and an equivalent amount of Company debt to the Government of Canada. These financial statements and accompanying notes (except for Note 13) reflect the financial position and arrangements as they exist under present legislation with no recognition being given to these changes.

All references in these Notes to the "Company" include the Canadian National Railway Company and its consolidated subsidiaries, and all references to the "System" mean Canadian National Railway Company and its consolidated subsidiaries together with the lines of railway and marine, telecommunications and other property owned by the Government of Canada and entrusted to the Company for management and operation.

(a) Principles of Consolidation

Consistent with the legislation governing the System, the consolidated financial statements include the accounts of the Canadian Government Railways, entrusted to the Company by the Government of Canada. They also include the accounts of all subsidiaries except Air Canada and VIA Rail Canada Inc. The Company does not have effective control over the operations of these subsidiaries, the investments in which are carried at cost. See also Notes 2 and 13(b) regarding pending legislation eliminating the Company's investment in Air Canada and the pending divestment to the Government of Canada of the Company's investment in VIA Rail Canada Inc.

Investments in jointly operated companies in which the Company has less than a majority interest are accounted for by the equity method where appropriate.

(b) Material and Supplies

The inventory has been priced at laid down cost based on weighted average cost for ties, rails and fuel, latest invoice price for new materials in stores, and at estimated utility or sales value for usable second hand, obsolete and scrap materials.

(c) Insurance Fund

The System is self-insured for various risks, maintaining a separately invested fund. The provision for insurance represents the estimated amount of self-insured losses to be adjusted.

(d) Property

Property is carried at cost, which, in the case of properties brought into the System at January 1, 1923, is the aggregate of the values then appearing in the books of the railways now comprised in the System, less a write-down of \$262.8 million at the time of capital revision in 1937.

Accounting for railway and telecommunications property is carried out in accordance with rules issued by the Canadian

Transport Commission and the Canadian Radio-television and Telecommunications Commission respectively (Canadian property), and the Interstate Commerce Commission (United States property), except, in the case of United States property, for the application of depreciation accounting to ties, rails, other track material and ballast as referred to below under Depreciation. Major additions and replacements generally are capitalized with the exception of labour costs relating to track material replacement which are charged to expense.

The cost of depreciable assets retired or disposed of, less salvage, is charged to accumulated depreciation, in accordance with the group plan of depreciation.

(e) Depreciation

Depreciation is calculated at rates sufficient to write off properties over their estimated useful lives, generally on a straight-line basis in accordance with the group method. For railway and telecommunications properties, certain rates are authorized by the Canadian Transport Commission, the Canadian Radio-television and Telecommunications Commission and the Interstate Commerce Commission. The rates for significant classes of assets are as follows:

	Annual Rate
Ties	3.25%
Rails	1.15%
Other track material	1.90%
Ballast	4.00%
Road locomotives	4.60%
Freight cars	2.97%
Commercial communication systems	4.18%

(f) Leases

Rentals under lease arrangements are charged to expense on an accrual basis.

(g) Pensions

Current service costs are charged to operations, and funded, as they accrue.

Prior service costs are charged to operations over varying periods to 2027, as set out in Note 8, and are being funded by annual payments covering principal and interest over varying periods to 2006 (2014 in the case of U.S. Plans) as permitted by regulatory authorities.

(h) Foreign Exchange

Assets and liabilities in foreign currencies have been translated into Canadian dollars at current rates except for investments, property investment and long-term debt for which historical rates have been used. Income is charged or credited with all exchange differences. Income and expenses of foreign subsidiaries have been translated at average rates during the year except for depreciation provisions which are on the same basis as the related property investment.

CANADIAN NATIONAL RAILWAYS—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(a) Guaranteed by the Government of Canada.

(b) It is a condition of the 5½% bonds due in 1985 and the 5% bonds due in 1987, that the Company will use its best efforts to purchase during each quarter of each calendar year to maturity when available in the open market at prices not greater than their respective original issue prices, at least ½ of 1% of the principal amount of the issue.

It is a condition of the 8½% bonds due in 1987 that the Company will use its best efforts to purchase bonds during each of the following twelve-month periods and in the aggregate principal amounts set forth below:

During each 12-month period commencing March 1	Principal Amount
1978	\$ 2,400,000
1979	1,800,000
1980-1986	1,200,000

in each case at a price not exceeding the offering price (99¼%).

For the 8½% debentures due in 2002 there is a mandatory sinking fund provision under which the Company will pay before July 1, in each of the years 1983 to 2001 inclusive, an amount sufficient to redeem U.S. \$5,000,000 principal amount of debentures at 100% of their principal amount or deliver to the sinking fund debentures otherwise acquired of equivalent principal amount.

- (c) Weighted average interest rate on Government of Canada loans and advances outstanding at December 31, 1977, was 7.7% per annum.
- (d) Government of Canada loans in the amount of \$521.0 million falling due within twelve months are included in long-term debt rather than in current liabilities at that date, since they are expected to be refinanced with the Government, as described in Note (g) below. These Government of Canada loans comprise \$465.2 million in the form of six-month or demand notes and \$55.8 million of other loans.
- (e) Payable by semi-annual instalments of \$7.16 million covering principal and interest to August 21, 1995.
- (f) Secured by rolling stock and payable by principal instalments in U.S. dollars, as follows:

Principal outstanding Dec. 31, 1977	Semi-annual Instalment	Period		Annual Interest Rate
		From	To	
(in thousands of U.S. dollars)				
\$ 8,400	\$ 1,200	January 1978	January 1981	9.00%

	Quarterly Instalment			
1,006	67	January 1978	July 1981	8.35%
\$185,699				

* Repayable by semi-annual instalments of \$200,000 representing blended payments of principal and interest, with the principal portion of the payments increasing from year to year.

(g) Principal amounts due in the years indicated, and expected Government refinancing, on debt outstanding at December 31, 1977, are as follows:

Year ending December 31:	Principal amount maturing	Expected Government refinancing
	(in thousands)	
1978	\$ 77,268	\$ 55,800
1979	340,771	317,000
1980	105,339	81,000
1981	492,938	467,250
1982	223,546	198,941
1983-1987	455,194	198,399
1988-1992	131,857	
1993-1997	60,473	
1998-2002	26,480	

Amounts of maturing principal for each period, shown as "Expected Government refinancing" in the above table, represent the portion of principal amounts maturing of a type which has been customarily refinanced with the Government in the past. Recent refinancings with the Government were made subject to amortization of the principal amount over a period of 20 years. It is to be expected that at least some portion of future refinancings will be subject to amortization. Principal amounts maturing in excess of expected Government refinancing represent the principal amount of the 8½% bonds, due 1986, the 8½% bonds, due 1987, and the 8½% debentures due 2002, including planned amortization of a portion of the principal amounts thereof prior to maturity, and amounts required for amortization of debt with respect to which amortization schedules have been fixed.

Excluded from principal amounts maturing in the above table is the principal amount of Government loans under various Canadian National Railways Financing and Guarantee Acts and the Canadian National Railways Refunding Act, 1955, which are in the form of six-month or demand notes and have been consistently refinanced with the Government at maturity. The outstanding principal amount of these loans was \$465.2 million at December 31, 1977.

(h) See Note 13(a) and 13(b) regarding subsequent events which are expected to alter significantly the amounts of Government of Canada loans and advances outstanding and arrangements for their repayment.

Note 5: Shareholder's Equity

- (a) The capital stock of the Canadian National Railway Company (other than the 4% preferred stock) and the capital investment of Her Majesty in the Canadian Government Railways are included in the net debt of Canada and disclosed in the historical record of Government assistance to railways as shown in the Public Accounts of Canada.
- (b) As authorized by annual Government appropriation the Government of Canada purchases 4% preferred stock at the price of \$1 per share, in amounts equal to approximately 3% of gross revenues for the period. Amounts recorded under this arrangement for the two years ended December 31, 1977, were as follows:

	Year ended December 31	
	1977	1976
(in thousands of shares)		
Balance—beginning of year	1,504,478	1,436,246
Additions during year	73,991	68,232
Balance—end of year	1,578,469	1,504,478

CANADIAN NATIONAL RAILWAYS—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(c) Capital investment of Government of Canada in Canadian Government Railways represents the assets entrusted to the Company by the Government of Canada for management and operation at the book values at the time of their entrustment.

Note 6: Major Commitments

(a) The Company had commitments as at December 31, 1977, for rentals under leases, the significant portion of which is in respect of railway rolling stock. These commitments are as shown below:

	Non-Cancellable Leases	
	Capital Leases	Other
	(in thousands)	
Years ending December 31:		
1978	\$ 28,899	\$ 50,350
1979	28,899	48,621
1980	32,375	47,179
1981	32,584	45,158
1982	32,688	43,351
1983—1987	173,261	175,926
1988—1992	76,816	80,159
1993—1997	7,288	12,583
1998	811	952
Total minimum lease payments	413,621	\$ 504,279
Less amount representing interest	236,650	
Present value of net minimum lease payments under capital leases	\$ 176,971	

Many of the leases provide renewal options and an option to purchase the property at fair market value at the end of the lease term.

(b) Rental expenses under lease arrangements were:

	Year ended December 31	
	1977	1976
	(in thousands)	
Total expenses	\$ 115,287	\$ 96,864
Capital leases	\$ 26,214	\$ 21,700

(c) Net reduction in income and increases in assets and liabilities in the consolidated financial statements, which would have arisen if leases satisfying the criteria of capital leases under accounting principles proposed by the Canadian Institute of Chartered Accountants had been capitalized, are as follows:

	Year ended December 31	
	1977	1976
	(in thousands)	
Net reduction in income	\$ 6,361	\$ 6,875
Increase in Assets		
Property Investment		
Leased property under capital leases	\$ 209,201	\$ 198,936
Less accumulated amortization	50,027	36,704
	\$ 159,174	\$ 162,232
Increases in Liabilities		
Current Liabilities		
Present value of obligations under capital leases	\$ 9,882	\$ 9,228
Non-Current Liabilities		
Present value of obligations under capital leases	\$ 176,971	\$ 176,325
Less current portion	9,882	9,228
	\$ 167,089	\$ 167,097

Note 7: Subsidies

Railway revenues include the following subsidies from the Government of Canada:

	Year ended December 31	
	1977	1976
	(in thousands)	
(a) payments under the Railway Act paid under authority of that Act and Appropriation Act No. 4, 1975 in respect of certain uneconomic operations, services and prescribed rates which railways are required by the Railway Act to maintain	\$ 240,621	\$ 255,218
(b) vessel subsidies	94,614	85,863
(c) Maritime Freight Rates Act and Atlantic Region Freight Assistance Act subsidies	14,166	15,332
	\$ 349,401	\$ 356,413

During 1977, an error was discovered which had caused claims for payments under the Railway Act submitted in respect of 1974 and 1975 to be overstated by \$22,300,000. The correction of this error increased the reported deficits for the years affected, and an equivalent amount has accordingly been recovered from the Government of Canada.

Note 8: Pensions

The Company has retirement benefit plans covering substantially all its employees under which they are entitled to benefits at retirement age, based on compensation and length of service. Pension costs are as follows:

	Year ended December 31	
	1977	1976
	(in thousands)	
	\$ 148,304	\$ 143,207

CANADIAN NATIONAL RAILWAYS—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

The amount of past service costs remaining to be charged to operations at December 31, 1977, based on the latest actuarial valuation as at December 31, 1975, adjusted for subsequent changes, amounted to:

	At December 31	
	1977	1976
	(in thousands)	
Canadian plans	\$ 1,048,841	\$ 1,058,720
U.S. plans.....	14,241	14,342
	\$ 1,063,082	\$ 1,073,062

This amount is being charged to operations in the following annual amounts, including principal and interest:

	Annual Cost (in thousands)
1978—1992	\$ 105,613
1993—1996	27,046
1997—2014	22,936
2015—2027	22,040

The charge to operations was determined on basis consistent with the previous year and exceeded the funding requirement by \$23,177,000, which amount is included in the Consolidated Balance Sheet in Other Liabilities and Deferred Credits.

The actuarially-computed value of vested benefits at December 31, 1975, the date of the latest actuarial valuation, exceeded the total of the pension funds at that date by \$463.4 million.

Note 9: Income Taxes

Undepreciated capital cost for income tax purposes exceeds the net book value of depreciable assets by about \$1.4 billion which is available to reduce taxable income of future years.

Note 10: Earned Surplus

Earnings remaining after payment of non-cumulative dividends on the 4% preferred stock of Canadian National Railway Company must be paid to the Receiver General for Canada, unless the Governor in Council directs that the whole or any part of such amount shall be applied in discharge of such obligations of the System as the Governor in Council may prescribe.

The surplus at December 31, 1976, was carried forward in the balance sheet and on March 30, 1977, the Governor in Council by Order-in-Council No. 1977-844 directed that an amount equal to the net income remaining in the accounts of the System for the 1976 fiscal year, being \$11,763,744, be applied in partial discharge of the 5% bonds of the Company which matured on May 15, 1977. This amount has now been so applied and has been reclassified as a current liability as at December 31, 1976. The net income remaining for the 1977 fiscal year has been similarly carried forward in anticipation of authority to apply an equal amount in discharge of specified obligations.

Note 11: Anti-Inflation Act

The Anti-Inflation Act provides for the restraint of profit margins, prices, dividends and compensation. The System is subject to this legislation but has no unrecorded or contingent liability in that respect.

Note 12: Restatement of Comparative Figures

During 1977, changes were made to improve the classification of certain items and for comparative purposes the related figures for 1976 have been restated.

Note 13: Subsequent Events

- (a) Legislative proposals are before Parliament which, if enacted, would consolidate into no par value capital stock of the Company all the elements of Shareholder's equity other than earned surplus; it would also increase Shareholder's equity by the conversion to capital stock of an amount of \$808 million of debt owing to the Government of Canada. The effective date of these changes would be December 31, 1977.

The proposed legislation would also:

- consolidate into one debt all remaining debt of the Company to the Government, on terms and conditions to be approved by the Governor in Council on the recommendation of the Minister of Finance and the Minister of Transport;
- repeal present legislation which requires the Company to pay all earnings to the Government unless the Government directs that all or part of such earnings be applied in discharge of specified Company obligations;
- repeal the statutory prohibition against funding any income deficit;
- require payment to the Receiver General for Canada of a dividend equal to 20% of net income for 1978 and subsequent years, or such greater percentage as the Governor in Council may direct;

Concurrent with adoption of the proposed legislation, the arrangement whereby the Government of Canada has made annual purchases of the Company's 4% preferred stock to provide funds for the Company's capital expenditures will be discontinued. At the same time the acquisition of 4% preferred stock by the Minister of Finance for 1977 would be restricted to an amount of \$51,448,697. This would effectively reduce the amount of preferred stock to be consolidated as no par value capital stock in the Pro Forma Consolidated Balance Sheet as at December 31, 1977, by 22,542,145 shares to 1,555,926,732.

- (b) On February 2, 1978, Royal Assent was given to legislation which, when it comes into force on a day to be fixed by proclamation, will cancel the Air Canada shares held by the Company and will authorize cancellation of Company debt to the Government equal to the Company's investment in the capital stock of Air Canada. The legislation will also authorize the Government to cancel Air Canada debt to the Company and an equivalent amount of Company debt to the Government.

(c) The following table illustrates the changes in the Consolidated Balance Sheet that implementation of the legislation described in Note 13(a) and 13(b) would bring about:

	As report- ed December 31, 1977	Pro Forma December 31, 1977
	(in thousands)	
Assets		
Current assets	\$ 713,443	\$ 690,901

Reduction in recognition of depreciation attributable to years prior to the adoption of depreciation accounting	(807,813)	
Capital stock of Canadian National Railway Company, no par value:		
6,000,000 shares authorized, issued and outstanding	\$359,963	2,344,474
Earned surplus	39,782	39,782
	<u>1,598,798</u>	<u>2,384,256</u>
	<u>\$ 4,698,221</u>	<u>\$ 4,326,202</u>

- (d) Canaven Limited, a wholly-owned subsidiary of the Company, was incorporated in 1976 to bid for the construction, equipping and commissioning of a new 700-kilometre railway line in Venezuela. Subsequently, Canaven has entered into a consortium agreement with Spanish and Venezuelan participants under the name «Escaven». Escaven is currently negotiating a general contract with Venezuelan national railway interests under which Escaven would have responsibility for the above-described undertaking.
- (e) Early in 1978, the Company arranged, subject to approval by the Governor in Council, to sell, by way of a private placement, sinking fund debentures payable in U.S. currency and to mature in 1998 in an amount not to exceed U.S. \$125 million.
- (f) By Order-in-Council dated February 9, 1978, the Company received authorization to acquire all of the issued shares of CN Marine Corporation which will be a consolidated subsidiary. This Company was recently incorporated with the intention of having it own and operate the vessels and facilities used in Atlantic Provinces ferry and coastal services which are at present operated by the Company. It is expected that these properties will be transferred from the Government to the Company for conveyance to CN Marine Corporation, which will thereafter provide the vessel services under compensatory contract arrangements with the Government. The value of assets transferred from Government ownership will be recorded as an increase in the Company's Shareholder's Equity.

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS, LIMITED
(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
 Ottawa, Ontario
 February 14, 1978

THE HONOURABLE OTTO LANG, P.C., M.P.,
 MINISTER OF TRANSPORT,
 OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian National (West Indies) Steamships, Limited as at December 31, 1977. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement gives a true and fair view of the financial position of the Company as at December 31, 1977 in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Company, the financial statement is in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS, LIMITED—*Concluded*NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 1977

1. History and current status of the Company

The active operations of the Company ceased during 1957 on the sale of its fleet of eight vessels to Cuban interests. The final instalment was due to be paid August 19, 1963 by an irrevocable letter of credit issued through the Bank of America. However on July 3, 1963, the United States Cuban Assets Control Regulations became effective which prohibited the Bank of America from honouring payment of the draft. Since that time, legal negotiations to obtain a preferred status, in order to collect the receivable, have not been successful and current legal opinion is that the monies will only be collected when the regulations are repealed. A waiver of the application of the statute of limitations has been obtained until January 1, 1979, and further extensions will be obtained as required. At the present time, legal counsel is examining the possibility of winding-up the affairs of the Company.

2. Matured bonds—unclaimed

The matured bonds have been outstanding since March 1, 1955 and as a result there is no legal obligation to redeem these bonds. Notwithstanding this, the Company intends to honour any of the outstanding bonds should they be presented.

3. Remuneration of directors and officers

The Company has four directors of whom three are also officers. All are public servants and receive no remuneration from the Company.

CANADIAN PATENTS AND DEVELOPMENT LIMITED
(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
May 31, 1978

THE HONOURABLE JACK H. HORNER, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Patents and Development Limited as at March 31, 1978 and the statements of surplus, income and expense and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances, except as noted below.

I was unable to satisfy myself concerning the amount of royalty income set forth in the statement of income and expense because of the inadequacies of the system to verify royalties earned and reported.

In my opinion, except for the effect of any adjustments which might have been required had I been able to satisfy myself with respect to the amount of royalty income, these financial statements give a true and fair view of the financial position of the Company as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, except for the failure to apply adequate procedures to check the accuracy of royalties earned as reported by licensees, in my opinion, proper books of account have been kept by the Company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1978

1. Objectives and operations of the Company

Canadian Patents and Development Limited was established to make available to the public through licensing arrangements with industry, the industrial and intellectual property which results from publicly-funded research and development.

The Company receives and processes industrial and intellectual property under arrangements with Federal Government Departments, Crown Corporations and Agencies, universities, and other publicly financed institutions. Suitable protection is sought in Canada and other countries for such property in instances where there is a promise of commercial use. In respect of money received from the exploitation of such property, the Company pays awards to public servants under the Public Servants Inventions Act and makes payments to other originators of such property in accordance with the agreements entered into with them.

2. Significant accounting policies

Industrial and intellectual property rights

Expenditures relating to the acquisition, protection, licensing and maintenance of industrial and intellectual property rights are charged to expense as incurred.

Development expenditures

Expenditures for development assistance and equipment under development contracts are charged to expense as incurred and any recoveries are recorded as income in the year received.

Royalties

The Company estimates the amount of royalties receivable as at the year-end, based on the operations of their licensees to that date. The portion of the royalties that is applicable to third parties is credited to them in accordance with the agreement under which the rights were acquired.

Service charges on overdue accounts

The Company effects a service charge of 1% per month on the overdue portion of accounts receivable.

Investment in bonds

The Company carries investments in bonds at cost since it is management's intention to hold the bonds to their dates of maturity. Differences between cost and par value are not amortized over the life of the bonds.

3. Investment in bonds

Details relating to the investments in bonds are as follows:

Par Value	Interest Rate	Maturity Date	Cost	Market Value
\$ 25,000	7½%	October 1, 1978	\$ 25,000	\$ 24,913
100,000	5½%	August 1, 1980	103,750	94,100
50,000	4 %	February 1, 1981	44,000	44,800
250,000	6¼%	February 15, 1989	247,500	211,250
<u>\$425,000</u>			<u>\$420,250</u>	<u>\$375,063</u>

4. Unexpired patent rights

To date, from 1948, approximately \$1,582,645 has been expended on the current inventory of unexpired patent rights for inventions.

5. Equipment purchased under development contracts

The cost of equipment purchased under active development contracts and held by a licensee amounts to \$123,500.

CANADIAN PATENTS AND DEVELOPMENT LIMITED—*Concluded*NOTES TO FINANCIAL STATEMENTS—*Concluded*

6. Employee benefits not charged to the Company

The National Research Council performs certain personnel functions for the Company including the payment of salaries. The Company reimburses the Council for the amount of gross salaries paid on its behalf but not with respect to the employer's share of the cost of certain of the related employee benefits. The cost of the latter is estimated to be equivalent to 13% of gross salaries.

7. Patent agents' fees and other patenting expenses

The Company incurs expense with respect to obtaining and maintaining patents on inventions. Some of this expense is recoverable. A summary for the year is as follows:

	1978	1977
Gross expense	\$291,117	\$316,910
Recovery	151,116	132,316
Net expense	<u>\$140,001</u>	<u>\$184,594</u>

8. Executive remuneration

Salaries for 1978 include remuneration of directors as directors \$2,125 (1977—\$1,875) and remuneration of officers as officers \$90,936 (1977—\$83,588). Nine of the twelve directors and three of the five officers received executive remuneration. Two officers are also directors.

9. Unrecorded royalties receivable

Due to uncertainties of collection there has not been reflected in the financial statements the unpaid portion of royalties amounting to \$166,150 with respect to the prior years operations of a foreign licensee which had been in dispute because of differences between that licensee and others using the invention. In 1973 a five year agreement was entered into with a new foreign licensee who agreed to pay the outstanding amount on the basis of future sales with the unpaid balance as at March 31, 1978 to be remitted thirty days after that date. Since the new licensee did not make any payments up to March 31, 1978, the full amount became due and remains unpaid at the time of preparing the 1978 financial statements. Any amounts received by the Company from the licensee may result in a payment to the inventor of up to 15% of such amounts received in accordance with the Public Servants Inventions Act.

10. Legislation affecting ownership of the Company

Legislation to effect the transfer of ownership and the reporting relationship of the Company from the Minister of State for Science and Technology to the Minister of Industry, Trade and Commerce was passed by Parliament in June 1977, but was not Proclaimed until May 1, 1978. With the coming into force of this legislation, Bill C-26, the shares registered on the share register of the Company in the name of the Council are transferred to the Minister of Industry, Trade and Commerce.

11. Comparative figures

Certain of the 1977 comparative figures have been reclassified to conform with the presentation adopted in 1978.

CANADIAN SALTFISH CORPORATION

(Established by the Saltfish Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 22, 1978

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.,
MINISTER OF FISHERIES AND THE ENVIRONMENT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Canadian Saltfish Corporation as at March 31, 1978 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1978, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

CANADIAN SALTFISH CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1978

1. Objectives and operations of the Corporation

The Canadian Saltfish Corporation was established by the Saltfish Act in March 1970, to improve the earnings of the primary producer of cured saltfish. The Corporation is an agency Crown Corporation of Canada and is required to conduct its operations on a self-sustaining basis. Total loans outstanding from Canada and from banks may not exceed \$15 million.

The Corporation has the exclusive right to trade in and market cured fish and its by-products in the Province of Newfoundland and the North Shore of Quebec and is required to buy all cured fish of an acceptable standard of quality offered for sale therein. Fish is purchased from fishermen, processed through agents of the Corporation and is subsequently marketed by the Corporation.

2. Significant accounting policies

Depreciation and amortization

Depreciation is provided in the accounts on the straight-line method using rates of 5%, 10% and 20% for building, equipment, and furniture and fixtures, respectively. Leasehold improvements are amortized over the remaining term of the lease.

Foreign currency translation

Accounts receivable and payable in foreign currency are translated to Canadian dollars at the year-end exchange rate. Transactions in foreign currency during the year are translated at the rate in effect at the time of the transaction.

Deficiency payments

Deficiency payments from the Fisheries Prices Support Board of the Government of Canada are made to support the price paid by the Corporation for small codfish. Such payments are considered as recoveries of amounts paid to fishermen and are deducted from the cost of sales in the Statement of Operations in the year in which the processed fish is sold by the Corporation.

Agreements with fish processors

The Corporation operates under a common processing agreement with its agents.

In the case of the Corporation's own plant, there is a management agreement with the agent which is supplemental to the common contract. This agreement provides for the Corporation to share in the agent's operating profit, and in the event of a loss, the agent receives a guaranteed fixed fee and the loss is absorbed by the Corporation.

The year-end of the management agreement is May 31. The profits or losses for the operation for the year ending each May are recorded in the Corporation's fiscal year for the following March 31.

For the year ending March 31, 1977, the Corporation's accounts include an amount of \$19,405 representing the Corporation's share of the agent's net income for the year ending May 31, 1976. For the year ending March 31, 1978 the Corporation's accounts include the amount of \$148,880 of which \$105,204 represents costs attributable to unusual operating conditions which under the agreement is a proper charge to the agent's operations for the year ending May 31, 1977. The remaining \$43,676 represents the operating loss for the period including the guaranteed fixed fee provided for under the agreement.

3. Accounts receivable

Accounts receivable are made up of the following categories:

	1978	1977
Trade	\$ 1,872,363	\$ 2,438,068
Provincial governments	205,585	133,718
Federal Government	24,667	563,917
Other	190,235	182,548
	<u>\$ 2,292,850</u>	<u>\$ 3,318,251</u>

4. Inventories

Inventories are made up of the following categories:

	1978	1977
Fish, at lower of cost and net realizable value	\$ 2,605,183	\$ 4,982,839
Packages and supplies, at cost	202,937	400,614
Salt, at cost	228,903	222,974
	<u>\$ 3,037,023</u>	<u>\$ 5,606,427</u>

5. Deferred charges

The Corporation has deferred certain engineering and design costs incurred under a programme which provides funds for the improvement of processing and storage facilities.

Funds to be expended under this program have been provided for in the 1977-78 year. The improvements will be made in the 1978-79 year and details of the implementation of the program are yet to be finalized.

6. Fixed assets

1978				
	Cost	Accumulated depreciation and amortization	Net book value	Depreciation expense and amortization
Building	\$ 246,760	\$ 24,578	\$ 222,182	\$ 12,338
Equipment	1,335,684	448,318	887,366	133,891
Furniture and fixtures	54,993	50,776	4,217	3,567
Leasehold improvements	44,272	38,348	5,924	2,962
	<u>\$ 1,681,709</u>	<u>\$ 562,020</u>	<u>\$ 1,119,689</u>	<u>\$ 152,758</u>
1977				
	Cost	Accumulated depreciation and amortization	Net book value	Depreciation expense and amortization
Building	\$ 244,799	\$ 12,240	\$ 232,559	\$ 12,240
Equipment	1,212,530	322,712	889,818	122,233
Furniture and fixtures	53,455	47,209	6,246	4,614
Leasehold improvements	41,812	35,386	6,426	2,142
	<u>\$ 1,552,596</u>	<u>\$ 417,547</u>	<u>\$ 1,135,049</u>	<u>\$ 141,229</u>

CANADIAN SALTFISH CORPORATION—*Concluded*

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1978—*Concluded*

7. Lease agreement for land

The land on which the building is located is leased from the National Harbours Board. This lease agreement, which terminates on July 31, 1984 and contains a provision for two further ten-year periods, requires annual lease payments by the Corporation of \$2,747.

8. Loans from Canada

Loans from Canada, used to finance current assets, are interest bearing and repayable within one year. Loans obtained to finance capital expenditures also bear interest and are subject to repayment in ten equal installments. Outstanding long-term loans are as follows:

Due date	Interest rate	Net Balance March 31, 1978	Annual principal payments
March 25, 1984	7½%	\$ 270,000	\$ 54,000
June 19, 1984	7½%	441,000	73,500
September 22, 1985	7½%	157,500	22,500
March 31, 1986	8%	87,500	12,500
		<u>\$956,000</u>	<u>\$162,500</u>

9. Appropriations of retained earnings

The Board of Directors established that the following amounts be appropriated from retained earnings:

	March 31, 1978	Increase	March 31, 1977
General contingencies	\$ 500,000	\$336,892	\$ 163,108
Processing and quality improvements	350,000	250,000	100,000
Research and development	100,000		100,000
Repayment of loan indebtedness	162,500		162,500
Reinvestment in fixed assets	506,500	325,000	181,500
	<u>\$1,619,000</u>	<u>\$911,892</u>	<u>\$ 707,108</u>

10. Deficiency payments

Deficiency payments from the Fisheries Prices Support Board of the Federal Government, in support of the price paid by the Corporation for small codfish, have been applied to reduce the cost of sales in the amount of \$300,300 received with respect to inventory on hand as at March 31, 1977, and sold during the year ended March 31, 1978.

In addition, the Fisheries Prices Support Board in 1977/78 supported the price of small size fish to the fishermen in the amount of \$161,754. The Corporation acted as the vehicle for facilitating payment in that funds under this program were channelled to the fishermen through the Corporation. This did not have any bearing on the Corporation's costs or revenues.

11. Other expenses

Other expenses include the following:

	1978	1977
Interest expense—long term	\$ 87,740	\$ 100,859
—current	535,254	534,746
Gain on foreign exchange	(180,871)	(208,142)
	<u>\$ 442,123</u>	<u>\$ 427,463</u>

12. Anti-inflation legislation

The Corporation is subject to, and has complied with, controls on compensation under the Anti-Inflation Program of the Government of Canada.

13. Comparative figures for 1976/77

Certain figures for 1977, presented for comparative purposes, have been restated to conform to the 1978 presentation.

CAPE BRETON DEVELOPMENT CORPORATION*(Established by the Cape Breton Development Corporation Act)***AUDITORS' REPORT**

TO THE HONOURABLE
THE MINISTER OF
REGIONAL ECONOMIC EXPANSION
OTTAWA, ONTARIO

We have examined the balance sheet and statement of equity of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1978, and the related income statements and the statements of changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

The financial statements of the Industrial Development Division and of its subsidiaries have been presented on a consolidated basis. With respect to those subsidiaries of which we are not auditors, we have carried out such inquiries and examinations as we considered necessary in order to accept for purposes of consolidation the reports of other auditors. As required by the provisions of the Cape Breton Development Corporation Act, the financial statements of the Coal Division and the Industrial Development Division are being presented separately.

In our opinion, these financial statements present fairly the financial position of the Coal Division and of the Industrial Development Division of the Cape Breton Development Corporation as at March 31, 1978, and the results of their operations and the changes in their financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Also, in our opinion, proper books of account have been kept and the transactions that have come to our notice have been within the powers of the Corporation.

Director

CAPE BRETON DEVELOPMENT CORPORATION—Continued

COAL DIVISION—Continued

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1978

1. Significant Accounting Policies

(a) Financing

During the year the Coal Division was financed by way of votes of The Parliament of Canada. Vote 31 is for operating purposes and Vote 25 for capital expenditures. Payments received in respect of these votes are treated as additions to equity.

(b) Depreciation

The Corporation has provided depreciation on its fixed assets based on their estimated useful lives. The Treasury Board of Canada has indicated that depreciation should not be provided in determining mining losses for Parliamentary appropriation. Accordingly, the depreciation provision has been eliminated in arriving at this amount.

(c) Amortization of Deferred Development Costs

These costs totalling \$1,632,000 consisted of the balance of unamortized development costs incurred in No. 26 Colliery during the period when production was interrupted because of fire. Total costs were amortized over a fourteen month period which ended March 31, 1977.

2. Accounts Receivable

	1978	1977
Government of Canada supplementary vote for mining losses and capital expenditures		\$ 4,340,000
Trade	\$10,937,083	6,553,643
Employees (current)	76,304	48,255
	<u>\$11,013,387</u>	<u>\$10,941,898</u>

A customer of the Corporation has withheld payments in the amount of \$701,418 on sales invoiced to it. This customer is claiming that these amounts represent damages incurred as a result of excessive moisture in coal purchased from the Corporation. The Corporation does not admit the claim and intends to take whatever steps are necessary to collect the amount withheld. As a result, no provision has been made for loss on this account.

3. Repayable Advances from Canada

	1978	1977
Current		
Working capital advance	<u>\$ 10,000,000</u>	<u>\$ 10,000,000</u>
Long term		
Note payable (including accrued interest)	\$ 15,859,799	\$ 14,642,674
Less current portion		1,464,267
	<u>\$ 15,859,799</u>	<u>\$ 13,178,407</u>

In 1975 the Corporation negotiated a term loan of \$13,600,000 from the Government of Canada to finance the development of the Prince Mine. During 1977, the Corporation drew down the remaining \$6,600,000 of this financing. This loan bears interest at the Government of Canada lending rates to Crown Corporations and others established quarterly by the Department of Finance and for the period involved the rate varied between 8% and 9%.

The loan, plus interest accrued to March 31, 1977 was repayable in ten equal annual installments commencing March 31, 1978. Interest accruing after March 31, 1977 was to be payable annually. As there were delays beyond the control of the Corporation in bringing the Prince Mine to its planned output and efficiency, the repayment terms of the loans were changed. The loan plus interest to March 31, 1981 are repayable in twelve equal annual installments commencing March 31, 1981. Interest accrued after March 31, 1981 will be payable annually.

4. Commitments

Commitments on capital projects as at March 31, 1978 amount to approximately \$10,000,000.

5. Contingent Liabilities and Claims

There are pending against the Corporation a number of possible claims, including the following:

- A claim of approximately \$1,400,000 (including estimated court costs) jointly against the Corporation and two other parties for damages and other costs related to an explosion aboard a vessel carrying a shipment of coal supplied by the Corporation. As at March 31, 1978 the action had not come to trial. The Corporation admits no liability in respect to this claim.
- Officials of the Nova Scotia Hospital Tax Commission have indicated to representatives of the Corporation that the Commission is proposing that certain items used by the Corporation in its mining operations, and previously considered to be exempt from hospital tax, be subject to tax. If such tax is imposed in respect of these items the resulting additional liability is estimated to amount to approximately \$1,600,000. The Corporation considers these items to be exempt from hospital tax and if an assessment is made, the Corporation will appeal it.

The total of provisions as at March 31, 1978 for all outstanding claims and potential claims amounts to \$500,000 which management estimates to be fully adequate.

6. Pensions

An actuarial valuation of the Cape Breton Development Corporation Non-Contributory Pension Plan as at December 31, 1977 indicated an unfunded actuarial liability of \$40,035,335 and in addition an experience deficiency of \$18,293,023. No provision for these liabilities has been included in the accounts as of March 31, 1978. The former amount is required to be liquidated by 1992 and the latter amount by 1981. The minimum annual amount required, including pension payments, will be \$9,795,184 from 1978 to 1981 and thereafter would decrease to \$4,729,102 annually. Current pension payments approximate \$4,500,000 and the balance will be funded by the Corporation prior to December 31 in each year.

In addition, for the contributory pension plan instituted April 1, 1974 the recommended funding payment for the year has been deposited with the trustee.

- During the year it became necessary to bank Langan coal at the colliery and it was decided to use development coal to provide a floor for the bank. While it is possible that some of this development coal may be recovered, the Corporation has decided that it would be prudent to write it off.

8. Remuneration of Directors and Senior Officers

The Corporation had seven directors, whose aggregate remuneration for the year was \$17,166 (1977—\$20,967). The Corporation had seven officers whose aggregate remuneration for the year as officers was \$318,467 (1977—\$299,425). The president is the only officer who is also a director.

CAPE BRETON DEVELOPMENT CORPORATION—Continued

COAL DIVISION—Continued

NOTES TO THE FINANCIAL STATEMENTS—Concluded
MARCH 31, 1978

9. The Corporation is subject to the Parliament of Canada's Anti-Inflation Legislation, which became effective October 14, 1975. This legislation limits increases in prices, profits, compensation payments and dividends. Management is of the opinion that the Corporation is complying with the requirements of the legislation.

CAPE BRETON DEVELOPMENT CORPORATION—Continued

INDUSTRIAL DEVELOPMENT DIVISION—Continued

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1978

1. Significant Accounting Policies

(a) Financing

The Industrial Development Division is financed by way of Vote of the Parliament of Canada. Parliament voted \$7,340,000 for this purpose during the fiscal year ended March 31, 1978.

(b) Basis of Consolidation

The financial statements of the Industrial Development Division include the results of the Division and all its subsidiaries except Mountain View Milling Limited and Cape Breton Welsh Black Limited as explained below. The subsidiaries consolidated are as follows:

	Corporation Interest	Company Year End
Darr (Cape Breton) Limited (Real Estate)	100%	December 31
Cape Breton Marine Farming Limited (Formerly Cape Breton Primary Production Limited)	100%	March 31
Cape Breton Lamb Limited (Live- stock Breeding)	95.4%	March 31
Whale Cove Summer Village Limited (Tourist Accommoda- tions)	62.5%	March 31
Cabotcraft Industries Limited (Boat Fabrication)	100%	October 31

Two of the subsidiaries have fiscal periods ending prior to March 31. These companies have been included in the consolidated statements for their respective fiscal years ending October 31, 1977, and December 31, 1977.

In addition to its ownership of 62.5% of the common shares of Whale Cove Summer Village Limited, the Corporation owns all of the 2,400 non-voting redeemable preference shares (\$100 par each).

As the financial statements of Cabotcraft Industries Limited and Cape Breton Lamb Limited showed deficit equity positions as at October 31, 1977 and March 31, 1978 respectively, and the minority interests in losses to date had been absorbed against the total of the minority invested capital, the losses of these companies for the respective years are included in the consolidated net loss. As a consequence, no minority interest is shown in the balance sheet for these subsidiaries.

The corporation also has two subsidiaries which are not consolidated:

	Corporation Interest	Total Investment and Advance
Mountain View Milling Limited...	53.3%	\$ 86,660
Cape Breton Welsh Black Limited	50%	24,004

The investment and advances to Mountain View Milling Limited have been fully reserved and it has not yet commenced operations. Cape Breton Welsh Black Limited has not yet completed a fiscal year.

The corporation has minority interests totalling \$274,645 in companies to which it has also advanced funds by way of loans. These loans, less provisions for the uncollectible por-

tion, amount to \$746,204. The largest of these investments is a 49% interest in Dundee Estates Limited which cost \$147,000. The corporation has made advances to Dundee Estates Limited of \$729,024.

(c) Fixed Assets

Fixed assets are recorded at cost. The cost and related depreciation of items retired or disposed of are removed from the books and any gains or losses are included in the consolidated operating statement. Depreciation is provided on the straight line method using rates based on the estimated useful lives of the assets generally as follows:

Buildings	Up to 20 years
Equipment	4 to 10 years
Vehicles	3 to 4 years

2. Cabotcraft Industries Limited and Cape Breton Lamb Limited

In their report on the financial statements of the above companies, the auditors included a qualification stating that the financial statements were prepared on the assumption that the companies can continue to operate as going concerns, which assumption depends on the continued financial support of Cape Breton Development Corporation.

3. Commitments

As at March 31, 1978, the Industrial Development Division of the Corporation was committed to expenditures and loans totalling approximately \$2,200,000 over and above the amounts included in the financial statements at that date.

4. Guarantees

(a) During the 1976 fiscal year the Corporation guaranteed the repayment by Sydney Steel Corporation of that company's \$70,000,000—11¼% Series D Debentures and the repayment of interest thereon. These funds were borrowed by Sydney Steel Corporation for the purpose of financing its plant rehabilitation program. The balance of the outstanding debentures has since been reduced to \$67,760,000.

The Corporation made the guarantee for and on behalf of Her Majesty the Queen in right of Canada and has obtained opinions from its solicitors and from the solicitors for the lenders that any amounts required to be paid by terms of the Guarantees are payable pursuant to Appropriation Act. No. 4, 1974 and Section 22 of the Financial Administration Act which provides that such amounts required to be paid shall be paid out of the Consolidated Revenue Fund of Canada and not out of the funds of Cape Breton Development Corporation.

(b) The Corporation in 1971 guaranteed the repayment of bank advances to Stora Kopparbergs Bergslags Aktiebolag. This guarantee originally amounted to \$30,000,000. The balance of advances has since been reduced to \$21,000,000 of which \$9,500,000 is in U.S. dollars.

5. Remuneration of Directors and Senior Officers

The Corporation had seven directors, whose aggregate remuneration for the year as directors was \$17,166 (1977—\$20,967). The Corporation had seven officers whose aggregate remuneration for the year as officers was \$318,467 (1977—\$299,425). The president is the only officer who is also a director.

6. The Corporation and its subsidiaries are subject to the Parliament of Canada's Anti-Inflation Legislation, which became effective October 14, 1975. This legislation limits increases in prices, profits, compensation payments and dividends. Management is of the opinion that the Corporation is complying with the requirements of the legislation.

CENTRAL MORTGAGE AND HOUSING CORPORATION

AUDITORS' REPORT

TO THE HONOURABLE THE MINISTER
OF STATE FOR URBAN AFFAIRS

We have examined the balance sheet of Central Mortgage and Housing Corporation as at December 31, 1977 and the statements of reserve fund, operations, financial activities and insurance, guarantee and contribution funds for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, the accompanying statements are in agreement with the books of account of the Corporation and present a true and fair view of the state of affairs of the Corporation as at December 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

In our opinion, proper books of account have been kept and the transactions of the Corporation that have come under our notice have been within the powers of the Corporation.

PATRICK A. RYAN, C.A.

CENTRAL MORTGAGE AND HOUSING CORPORATION—Concluded

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1977

1. Significant Accounting Policies

Central Mortgage and Housing Corporation was constituted as a Crown Corporation by an Act of Parliament on January 1, 1946. Its activities are regulated by the National Housing Act, and the Central Mortgage and Housing Corporation Act.

The principal accounting policies followed are:

(a) Revenue Recognition

Interest incomes is accounted for on the accrual basis. Recoveries from the Minister are recorded when expenditures are made on his behalf.

(b) Loans

Loans are capitalized as the cash is advanced. Costs incurred in connection with making loans are included in administrative expenses. No provisions are made for possible losses on loans since losses on insured loans are recoverable from the Mortgage Insurance Fund, while property acquired upon default on uninsured loans is transferred to Real Estate for subsequent disposal.

(c) Real Estate

Real Estate is recorded at cost. Property acquired upon default of loans is recorded at the unpaid loan balance plus interest accrued to the date of default, together with any acquisition expenditures incurred and modernization and improvement costs. Both the net operating costs prior to disposal and net losses resulting from the disposal of properties acquired upon default of loans are recoverable from the Minister.

Profits on the sale of Corporation funded real estate or real estate acquired without cost, to the extent that financing is provided for the transaction, are deferred and income recognized as repayments are received.

(d) Depreciation

Depreciation on Real Estate is recorded on a straight line basis. Rates are set in terms of the loan repayment originally negotiated, usually 40 or 50 years.

Depreciation on business premises, office furniture and equipment, is recorded on a diminishing balance basis at the following fixed annual rates:

Masonry buildings	5%
Frame buildings	10%
Furniture, fixtures and equipment	20%
Automotive equipment	30%

(e) Federal-Provincial Agreements

The investments recorded under Federal-Provincial Agreements include only costs to the Corporation and do not reflect amounts contributed by other parties. The Corporation's share of losses under these agreements is charged to the Minister.

(f) Income Taxes and Reserve Balance

The Corporation is required to pay taxes on its income. These taxes are recorded on a taxes payable basis which is not significantly different from the tax allocation basis. Income or loss after taxes is transferred to the Reserve Fund which is limited by statute to \$5,000,000. Any excess over this amount is transferred to the credit of the Receiver General.

(g) Insurance and Guarantee Funds

Real Estate acquired on claims against the Mortgage Insurance Fund is carried in the accounts at the amount of

the claim or the estimated realizable value whichever is lower. Real Estate acquired by the Rental Guarantee Fund is carried at cost. No depreciation is recorded on real estate owned by these funds.

2. Real Estate

The estimated amount of possible losses from the future disposal of real estate acquired as a result of default on loans is \$11 millions. This amount represents the difference between the book value of all properties held and their market value at December 31, 1977 as estimated by the Corporation.

3. Borrowings from the Government of Canada

The Corporation borrows from the Government of Canada to finance investments in loans, Federal-Provincial Agreements, real estate and agreements for sale, and mortgages arising from sale of real estate. These loans bear interest of varying rates and are repayable over periods not in excess of 50 years.

4. Loan and Investment Commitments Outstanding

At year end the Corporation had outstanding commitments to make loans and investments under Federal-Provincial Agreements approximating \$2,392 millions.

5. Home Insulation Contribution Fund

The Home Insulation Contribution Fund was created in the first quarter of 1977 by Parliament through an appropriation of \$40.3 millions. The Corporation is authorized to make contributions from this fund to persons insulating existing housing units or hostel buildings in Nova Scotia and Prince Edward Island. The Corporation's related administrative costs are recoverable from the Fund.

6. Anti-Inflation Legislation

The Corporation is subject to and has complied with the provisions of the Anti-Inflation Act as it applies to restraint on compensation.

7. Comparative Figures

Certain of the 1976 comparative figures have been reclassified to conform with the presentation adopted in 1977.

CROWN ASSETS DISPOSAL CORPORATION

(Established by the Surplus Crown Assets Act)

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

June 2, 1978

THE HONOURABLE JEAN-PIERRE GOYER, P.C., LL.B., M.P.,
MINISTER OF SUPPLY AND SERVICES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Crown Assets Disposal Corporation as at March 31, 1978 and the statements of operations, retained earnings and changes in financial position for the General Account and the statement of operations for the Agency Account for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting

principles applied, after giving retroactive effect to the method used to account for fixed assets as referred to in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and, except for the failure to remit funds to Canada within the time periods prescribed by the Surplus Crown Assets Act as referred to in Note 4 to the financial statements, the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

CROWN ASSETS DISPOSAL CORPORATION—*Concluded*NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1978

1. Objectives and operations of the Corporation

The Surplus Crown Assets Act, administered by the Minister of Supply and Services, established the Crown Assets Disposal Corporation to act as an agent of the Crown in the sale of surplus assets. The Act requires that each department, and other bodies, report to the Minister any property in its custody or under its control or administration that is determined as surplus to its requirements. The Corporation has the authority to sell or otherwise deal with such surplus property and to transfer net proceeds received from sales to the Consolidated Revenue Fund. Lands and buildings and certain commodities are exempted from sale by the Corporation, and certain agencies are excluded from the provisions of the Act.

The Agency Account represents amounts on hand and/or uncollected on sales of surplus assets which have not yet been remitted to Canada.

The primary objective of the Corporation is to obtain on behalf of the Crown the highest return from the sale of surplus assets.

2. Significant accounting policies

Depreciation

Depreciation is recorded on the straight line method over five years which is the estimated useful life of the assets.

Amortization

Amortization is recorded on the straight line method over five years which is the term of the leases.

Deferred charges—Agency Account

Deferred charges represent the costs of maintaining and safeguarding certain surplus assets that have yet to be sold. These costs are charged to expense in the period in which the related sales occur.

3. Change in accounting policy

Fixed assets, depreciation and amortization

During the year, the Corporation adopted the policy of recording expenditures of a capital nature as fixed assets and introduced depreciation accounting. In prior years the cost of fixed assets was charged to expense in the period of acquisition. Under the new policy, a retroactive adjustment has been made to retained earnings at April 1, 1976 of \$36,645 and fixed assets and accumulated depreciation have been recorded in the accounts to date. Had this policy change not been made, the excess of expenses over income for the year would have been \$33,765 more. The 1977 accounts have been restated reducing the excess of income over expenses for that year by \$7,182.

4. Statutory financial limitations

The Surplus Crown Assets Act, section 11(2) requires that:

All moneys deposited in the Corporation's bank account except

- (a) moneys paid or advances to the Corporation by Her Majesty on account of working capital, and
- (b) such percentage of the net proceeds of sales and of all other moneys received by the Corporation during any period as the Governor in Council may from time to time fix to be retained to meet administrative costs or other expenses

of the Corporation, shall be transferred or deposited to the credit of the Receiver General on requisition by the Minister of Finance but, if no such requisition is made, on a day not later than the 15th day of the month following receipt thereof by the Corporation.

These moneys have not always been remitted within the statutory period, due primarily to the time required to prepare the statement of operations for the Agency Account from which the remittance is calculated.

Order in Council 1970-534, 24 March, 1970 requires that all of the Corporation's surplus in excess of \$300,000 be paid to Canada at intervals of not longer than six months.

5. Due to Canada and others—Agency Account

This amount does not become payable until moneys are received from customers.

6. Income tax

The Corporation is not subject to the provisions of any income tax act.

7. Anti-inflation legislation

The Corporation is subject to, and has complied with, controls on compensation under the Anti-Inflation Program of the Government of Canada.

8. Commissions to agents

During the year, the Corporation paid \$55,000 to Gibson Shipbrokers Limited, its sales agent in Montreal, Quebec, and \$36,000 was retained from proceeds remitted to the Corporation by Vebeq, an agency of the Government of the Federal Republic of Germany.

9. Lease commitments

The Corporation is committed to pay \$151,448 per annum for rental of premises under various leases expiring by 1982.

10. Comparative figures

The comparative figures have been restated to conform to the current year's presentation.

DEFENCE CONSTRUCTION (1951) LIMITED

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1978

1. Objectives and operations of the Company

Defence Construction (1951) Limited was incorporated in 1951 under the Canada Corporations Act, pursuant to the authority of the Defence Production Act, to contract for major military construction and maintenance projects required by the Department of National Defence. The control and supervision of the Company was transferred from the Minister of Industry to the Minister of National Defence in April 1965.

The Company's principal functions in the field of construction management are to obtain tenders, make recommendations regarding proposed awards and to award and administer contracts. As an integral part of its responsibility for contract administration, the Company inspects the work to ensure completion in accordance with the contract and certifies contractors' progress claims for payment from funds of the Department of National Defence. It also engages architectural and engineering firms to prepare plans and specifications in accordance with the requirements of the Department of National Defence and may provide technical and administrative assistance on construction matters to other government departments when requested.

The deficit is funded from a Department of National Defence appropriation to the extent of annual cash requirements.

2. Significant accounting policies

Net expense

The accounts of the Company reflect only the administration expenditure incurred in procuring the construction and maintenance of defence projects on behalf of the Department of National Defence and in procuring the construction of such other projects as are approved by the Treasury Board.

Fixed assets

Fixed assets are charged to expense in the year of acquisition. As at March 31, 1978, the aggregate original cost of furniture, machinery and other equipment on hand amounted to \$292,364 (1977—\$268,588).

3. Changes in accounting policy

For the first time this year, a liability was recognized for furlough and life insurance benefits before they become due.

As a result, expenditures for 1978 and 1977 were charged (reduced) with an additional \$5,200 and (\$23,000) respectively and a retroactive adjustment of \$255,300 was recorded. As at March 31, the provision included the following amounts:

	1978	1977
Termination benefits	\$ 1,306,559	\$ 1,260,948
Life insurance for retired employees	349,421	378,563
Furlough benefits	63,500	58,300
	\$ 1,719,480	\$ 1,697,811

4. Contractors' security deposits

Contractors' security deposits represents bid deposits—\$326,596 (1977—\$189,999) and deposits on plans and specifications—\$66,625 (1977—\$44,725).

5. Recovery of expense

The Company provides government departments and agencies certain technical and administrative assistance regarding construction matters on a cost-recovery basis.

6. Comparative figures

The comparative figures have been restated to conform to the current year's presentation.

DEFENCE CONSTRUCTION (1951) LIMITED—Concluded**NOTES TO FINANCIAL STATEMENTS****MARCH 31, 1978—Concluded****7. Remuneration of officers**

The Company has six directors and five officers, one of whom is also a director. The aggregate remuneration paid the officers during the year was \$180,984 (1977—\$191,581). No directors' fees were paid.

8. Income tax

The Company is not liable for the payment of income taxes.

9. Supplementary information

The Company's contracting activity on behalf of government departments and agencies, is summarized below:

	1978	1977
	(\$000)	(\$000)
Contracts in progress at beginning of the year ...	157,331	132,010
Contracts awarded	124,823	96,814
	282,154	228,824
Contracts completed	74,037	71,493
Contracts in progress at end of the year	208,117	157,331
Payments on contracts in progress at end of the year	139,200	100,750
Work outstanding on contracts in progress at end of the year	68,917	56,581

ELDORADO AVIATION LIMITED

(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
February 7, 1978

THE HONOURABLE ALASTAIR W. GILLESPIE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Eldorado Aviation Limited as at December 31, 1977 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the company as at December 31, 1977 and the results of its operations and changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the company, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1977****1. Operations**

The Company is a Schedule D Crown corporation and is a wholly owned subsidiary of Eldorado Nuclear Limited and operates four fixed wing aircraft as well as three helicopters for use in hauling freight and passengers for the parent company and on a more limited basis for Northern Transportation Company Limited. The net cost of operations is recovered from the parent company and Northern Transportation Company Limited on the basis of hours flown.

2. Significant accounting policies**Deferred engine overhaul**

The costs of rebuilding engines are deferred and charged to operations over the estimated life of the rebuilt engine on the basis of actual hours flown.

Depreciation

Depreciation is recorded in the accounts on the diminishing balance method based on the estimated useful lives of the assets.

3. Change in estimated lives of fixed assets

To more closely match the level of utilization, the estimated useful lives of aircraft and aircraft parts have been increased thereby reducing the annual depreciation charge. As a result, the net cost of operations was \$19,969 less than would have been the case had the original estimated useful lives been used.

4. Remuneration of directors and officers

The Company paid no remuneration to its five directors nor to its five officers who were all directors.

5. Federal anti-inflation legislation

The Company is subject to restraint of profit margins, prices, dividends and employee compensation under the Federal Anti-Inflation Act and Regulations and has complied in all material respects therewith.

ELDORADO NUCLEAR LIMITED

(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
February 20, 1978

THE HONOURABLE ALASTAIR W. GILLESPIE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO

I have examined the statement of consolidated financial position of Eldorado Nuclear Limited as at December 31, 1977 and the statements of consolidated earnings, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these consolidated financial statements give a true and fair view of the financial position of the corporation as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the basis of establishing the deferred liability, with which I concur, as explained in Note 4 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of accounts have been kept by the corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1977

1. Accounting policies

A statement of significant accounting policies of the Company is provided separately in these financial statements.

2. Other income and expense

	1977	1976
Expenses		
Interest on long term debt	\$ 4,104,408	\$ 3,631,498
Loss on disposal of fixed assets	347,775	
Zirconium asset writedown	653,351	
Miscellaneous	204,834	34,120
Income		
Interest and other non-operating items ..	(1,307,747)	(1,623,733)
Government of Canada grants for exploration		(973,748)
	<u>\$ 4,002,621</u>	<u>\$ 1,068,137</u>

3. Income taxes

Income taxes for the year were offset as a result of losses carried forward. The accounts of the Company do not reflect the potential benefit of remaining loss carry-forwards and expenses recorded in the accounts in excess of deductions claimed for income tax purposes. At December 31, 1977 the Company has a loss carry-forward for tax purposes of \$5,083,000 which expires in 1978 and had recorded expenses of \$6,706,000 in excess of amounts claimed for tax purposes. These amounts may be used to reduce taxable income of future years.

4. Prior year's adjustment

The basis of establishing the deferred liability, as set up in the accounts at December 31, 1977, providing for committed future processing activities, has been changed from that of the previous year. As a result of the retroactive application of this adjustment, the 1976 financial statements have been restated by reducing the retained earnings at December 31, 1976 and the net earnings for that year by \$972,064 and increasing other liabilities as shown on the consolidated statement of financial position at December 31, 1976 by a similar amount.

5. Mine concentrates on loan

Mine concentrates on loan are recorded at inventory cost, which is lower than net realizable value. These costs are classified as either current or non-current assets, according to estimated or scheduled repayments.

Income from the mine concentrates on loan is included in current earnings.

6. Property and equipment

	1977	1976
Land	\$ 3,672,531	\$ 3,306,650
Buildings	39,464,388	33,542,502
Equipment	78,297,053	66,858,055
Construction in progress	3,643,770	1,824,520
	125,077,742	105,531,727
Less accumulated depreciation	70,137,835	64,419,096
	<u>\$ 54,939,907</u>	<u>\$ 41,112,631</u>
Depreciation for year	<u>\$ 5,869,591</u>	<u>\$ 5,725,494</u>

ELDORADO NUCLEAR LIMITED—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1977—Concluded

7. Deferred charges

	1977	1976
Mine development-shaft sinking	\$ 3,010,312	\$ 2,714,407
Refinery preproduction	489,106	659,608
	<u>\$ 3,499,418</u>	<u>\$ 3,374,015</u>
Amortization for year	<u>\$ 170,502</u>	<u>\$ 87,976</u>

8. Accounts receivable

The Company agreed to extend financing arrangements for the payments due under one sales contract. The terms provide for payment over a 30 month period with financing charges related to the movement of the Consumer Price Index.

9. Long term debt

(a) Income debentures

On November 14, 1977, the Company issued income debentures to three Canadian chartered banks in the amount of \$40 million due on December 31, 1983 and bearing interest at approximately one-half of the bank's prime lending rate. The income debentures are not secured by any charge against the assets of the Company and certain prepayment and exchange privileges are available.

No deduction is allowed under the Income Tax Act for interest expense related to the income debentures.

(b) Loans from Canada

	1977	1976
8 3/4% notes due 1978-80	\$10,397,321	\$10,397,321
7 1/16% note due 1978	1,064,433	1,064,433
7% note due 1979	7,129,592	7,129,592
5 7/16% notes due 1980	11,547,739	11,547,739
4 15/16% notes due 1981	7,761,755	7,761,755
6 1/2% notes due 1982	10,062,226	10,062,226
5 3/4% notes due 1983	5,081,606	5,081,606
6 3/4% notes due 1984	10,093,435	6,227,054
Sub-Total	63,138,107	59,271,726
Less: Current portion of long term debt listed above	6,723,668	
Total	<u>\$56,414,439</u>	<u>\$59,271,726</u>

Prepayment of the notes may be made in specified groups without premium or penalty. Interest during 1977 on the loans was deferred until December 31, 1984. All deferred interest payments are supported by notes carrying a 6 3/4% interest rate.

- (c) The long-term debt due in each of the next five years is as follows: 1978—\$6,723,668; 1979—\$11,262,205; 1980—\$12,153,214; 1981—\$7,761,755; 1982—\$10,062,226.

10. Shareholder's equity

	1977	1976
Authorized:		
110,000 common shares of no par value		
Issued and fully paid:		
70,500 shares to Canada	<u>\$ 6,586,080</u>	<u>\$ 6,586,080</u>

11. Supplementary information

- (a) The Company's by-laws provide for nine Directors. At December 31, 1977 the Company had nine Directors and nine Officers. Two of the Directors are also Officers. Remu-

neration of Officers in 1977 totalled \$387,000 and remuneration of Directors as Directors in 1977 totalled \$31,417.

Interest bearing housing assistance loans totalling \$100,000 were granted to Officers, under the Company's policy which provides assistance to senior professional employees relocating from a lower cost to a higher cost housing area.

- (b) During 1977 sales commissions totalling \$411,011 were paid to Marubeni Corporation and Wambesco International by, who have been retained as sales agents since 1960. In December 1974, the agency agreement with Wambesco was terminated, to be effective December 31, 1976. In December 1977, an agreement was reached with Wambesco to terminate all rights to commission payments on future deliveries in return for cash payments totalling \$1.25 million. The full cost of this agreement was reflected in the 1977 accounts.
- (c) The actuarial valuation of the Eldorado Pension Plan (1959) as of December 31, 1976 revealed a deficiency of \$5,034,740 for the Eldorado companies. The total unfunded liability is being amortized and funded over 15 years as indicated in Eldorado's accounting policies and the Pension Benefits Standards Act.
- (d) The Company is subject to restraint of profit margins, prices, dividends and employee compensation under the federal Anti-Inflation Act and Regulations. All aspects will be covered at least until December 31, 1978 under the phase-out guidelines.
- (e) Certain 1976 accounts have been reclassified for comparison purposes.

12. Contingencies

In connection with its operations, the Company is the defendant in certain pending or threatened litigations. It is the opinion of management, based on legal counsel, that these actions will not result in any significant liabilities to the Company.

ELDORADO NUCLEAR LIMITED—Concluded**STATEMENT OF ACCOUNTING POLICIES**

The Company's accounting policies are in accordance with generally accepted accounting principles and have been applied on a basis consistent with that of the preceding year. The following policies are considered to be significant.

Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Eldorado Aviation Limited.

Inventories

Inventories of mine concentrates are initially measured and accounted for in the financial statements when the material is sealed in containers upon completion of the milling process.

Inventories of mine concentrates and refined products are valued at the lower of cost or net realizable value.

Cost for mine concentrates and for refined products is determined on a weighted average basis.

Supplies

Operating and general supplies are carried at cost.

Property and equipment

Assets are carried at cost. Costs of additions, betterments, and renewals are capitalized. When assets are retired or sold, the resulting gains or losses are reflected in current earnings.

Maintenance and repair expenditures are charged to cost of production.

Depreciation

The principal depreciation method used is the straight line method based on ten years' estimated life.

Mine development and preproduction costs

Mine development costs incurred in shaft sinking programs and refinery preproduction costs are deferred until commencement of production. These costs are then amortized based on production over not more than ten years. Other mine development costs are charged to production as incurred.

Research and development and exploration costs

Expenditures for applied research and development relative to the products and processes of the Company and expenditures for geological exploration programs are charged against earnings as incurred.

Pension Plan

The Company has a contributory, defined benefit, trustee pension plan covering all of its regular full-time employees. Assets in the pension fund are valued by a moving average market value method, while liabilities are costed by the projected benefits entry age normal method.

Pension costs are amortized and funded at rates confirmed by the consulting actuary pursuant to periodic actuarial revaluations. All actuarially-determined deficiencies are amortized and funded over periods that adequately reflect their specific nature, up to a maximum of fifteen years.

Sales of products and services

In accordance with normal industry practices, the Company contracts for future delivery of mine concentrates and refinery conversion

services. Sales revenue is recorded in the fiscal year that title passes and/or delivery is effected.

EXPORT DEVELOPMENT CORPORATION

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
March 1, 1978

THE HONOURABLE JACK H. HORNER, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Export Development Corporation as at December 31, 1977 and the statements of income and retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1977

1. Export Development Corporation

Export Development Corporation is a Crown corporation established on October 1, 1969 by the Export Development Act, a statute of the Parliament of Canada, as the successor to the Export Credits Insurance Corporation which commenced operations in 1944.

The Corporation has broad powers including the power to borrow, to lend and to guarantee loans, to enter into export credits insurance contracts and to issue guarantees in respect of export transactions and foreign investments. The Corporation is not subject to the requirements of the Income Tax Act with respect to its earnings.

Contracts are entered into either under the authority of the Board of Directors ("Corporate Account") or under the authority of the Governor in Council ("Canada Account") and are so reflected in separate financial statements. The Act sets out separate loan and liability limits for Corporate Account and Canada Account, and for all purposes the Corporation treats Corporate Account and Canada Account separately. Canada Account transactions are administered by the Corporation for the Government of Canada. Funds required for such transactions are paid to the Corporation by the Government of Canada and the Corporation does not have any liability for transactions administered for Canada Account. All contracts of foreign investment insurance are issued for Canada Account.

2. Summary of Significant Accounting Policies

Export Loan Fees Earned

Export loan fees are taken into income as earned: administration fees are generally earned within ninety days of a loan agreement being signed; standby fees are earned over the loan disbursement period.

Insurance Premiums

For whole turnover export credits insurance policies, premiums are taken into income at the commencement of coverage. Premiums on other export credits insurance policies are taken into income on a reducing balance method, generally reflecting the diminishing exposure over the terms of the policies.

Provision for Insurance Claims

This provision is adjusted by a charge to income based on past claims experience and an assessment of existing coverage. Claims payments are charged and recoveries credited to the provision.

Interest Expense

Interest expense is prorated between export loans and investments on the basis of average funds employed.

Translation of United States Currency

Assets and liabilities are translated into Canadian dollars at exchange rates prevailing at year end. Income and expenses are translated at average monthly exchange rates in effect during the year. Resulting gains and losses are included in investment interest earned.

Provisions for Losses on Loans Receivable

Provisions for losses are based on a review of collectibility of all outstanding loans to sovereign and commercial borrowers. In respect of this review, the Corporation recognizes that the future economic and political conditions in some of the countries where the Corporation has made loans are subject to varying degrees of pressures, some of which are unpredictable. Accordingly, delays in the repayment of principal and interest may well occur from time to time.

In the case of loans made to sovereign borrowers, that is the governments of countries or their agencies, payment delays are

EXPORT DEVELOPMENT CORPORATION—Continued

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1977—Concluded

not necessarily indicative of a future loss requiring a provision. Sovereign entities and their international financial obligations do not have commercial mortality, and the international system does not allow the unilateral denial of a sovereign obligation. Furthermore, the international system provides several mechanisms and institutions through which countries facing repayment difficulties can effect remedial measures in agreement with their creditors. Therefore, except in the rare instance of outright repudiation or a write-off of asset value agreed to by creditors, in the opinion of management the ultimate collectibility of a sovereign obligation, and thus its asset value, is not subject to question although delays may have to be accepted.

Finally, if the review of the outstanding loans does not specifically indicate future loss, it is the policy of the Corporation nonetheless to set aside each year some provision in consideration of the total loan portfolio.

3. Loans Receivable

Loans receivable at December 31, 1977 mature as follows:

Overdue	\$ 6,157,000
1978	145,666,000
1979	207,831,000
1980	212,643,000
1981	233,357,000
1982	227,628,000
1983 and later	678,969,000
Total	<u>\$ 1,712,251,000</u>
Amount of commercial loans included above	<u>\$ 477,837,000</u>
Amount of U.S. \$ loans included above	<u>U.S. \$ 214,943,000</u>
Overdue interest	<u>\$ 2,368,000</u>

The review of export loans receivable at December 31, 1977 indicates no circumstance where a loss is likely in respect of a commercial obligor; nor, in respect of a sovereign obligor, any circumstance where there is likely to be either a repudiation or a write-off of asset value agreed to by creditors. In accordance with its policy as disclosed in Note 2, therefore, the Corporation has provided \$2,000,000 in 1977 for possible losses. At December 31, 1977 the total provision related to loans receivable is \$4,000,000.

During 1977, the Corporation rescheduled payments due of \$3,942,000. These reschedulings are intended to aid collectibility and servicing of the debt. Since inception of the export loans program in 1961, the Corporation has rescheduled \$65,377,000, of which \$591,000 is overdue at December 31, 1977.

Participation by other lenders includes \$81,144,000 with recourse to Export Development Corporation should the borrower default and \$40,052,000 without recourse to the Corporation.

4. Loans Payable

At December 31, 1977 loans payable to Government of Canada and other lenders bear interest at rates from 5-5/16% to 9-1/2%, annually, with an average cost to maturity of 7.93% and mature as follows:

1978	\$ 144,507,000
1979	152,877,000
1980	150,055,000
1981	231,783,000
1982	292,962,000
1983 and later	548,204,000
Total	<u>\$ 1,520,388,000</u>
Amount of U.S. \$ loans included above	<u>U.S. \$ 280,356,000</u>

5. Capital Stock

Capital stock, of which there are 4,000,000 shares authorized and 1,000,000 shares issued and fully paid, carries a par value of \$100 per share. Payments to date include an additional \$25,000,000 of contributed capital, the maximum amount provided in the Export Development Act.

6. Credits Insurance

The authority to enter into contracts of export credits insurance and related guarantees under the Export Development Act is limited to an aggregate of \$2,500,000,000 at any time. As at December 31, 1977, the Corporation is contingently liable for \$653,053,000 under such contracts.

7. Credits Insurance Claims

Claims payments to Canadian exporters were \$3,047,000 in 1977, and \$1,193,000 was recovered against outstanding claims. At December 31, 1977, the Corporation is undertaking recovery action on \$5,161,000 of claims paid.

8. Export Loans

Under the Export Development Act, the Corporation may have outstanding loans to foreign borrowers, outstanding guarantee agreements to other lenders and signed but undisbursed loan and guarantee agreements up to a maximum of \$4,250,000,000 at any time. As at December 31, 1977, the position of the Corporation is as follows:

Loans receivable	\$ 1,833,447,000
Less: Participation by other lenders without recourse to the Corporation	40,052,000
	<u>1,793,395,000</u>
Guarantees, for which the Corporation is contingently liable	8,479,000
Undisbursed funds on signed loan agreements	1,647,909,000
	<u>\$ 3,449,783,000</u>

It is anticipated that these undisbursed funds will be disbursed in 1978 and subsequent years as delivery of goods and services or progress on projects is achieved. The Corporation expects to fund these loans near the time of disbursement by issuing debt instruments and capital stock. The cost of funding is uncertain and cannot be assured to be below the yield on the undisbursed loans.

EXPORT DEVELOPMENT CORPORATION—Continued

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
March 1, 1978

THE HONOURABLE JACK H. HORNER, P.C., M.P.,
MINISTER OF INDUSTRY, TRADE AND COMMERCE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Accounts Administered for the Government of Canada by Export Development Corporation as at December 31, 1977 and the statement of changes in Accounts Administered for the Government of Canada for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Accounts Administered for the Government of Canada as at December 31, 1977 and the changes therein for the year then ended in accordance with the accounting policies set out in Note 1 to the financial statements, applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept for the Accounts Administered for the Government of Canada by Export Development Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers set out in the Export Development Act.

J. J. MACDONELL
Auditor General of Canada

**NOTES TO ACCOUNTS ADMINISTERED FOR
GOVERNMENT OF CANADA DECEMBER 31, 1977****1. General**

The Corporation administers certain loan and insurance programs for the Government of Canada and the funds required for these operations are provided by the Government of Canada. Accordingly, the Corporation has no direct financial interest in these programs. As cash is received by the Corporation it is remitted to the Government of Canada, net of amounts withheld to cover administration expenses which are charged on a cost recovery basis.

The significant accounting policies applied to these accounts differ from those of the Corporation in that no provision is made for insurance claims or loan losses.

Foreign investment insurance premiums are taken into income evenly over the terms of coverage, excepting that the first year's premium is taken into income in its entirety when received.

2. Loans Receivable Funded by the Government of Canada

Loans receivable at December 31, 1977, mature as follows:

1978	\$ 8,259,000
1979	8,841,000
1980	11,410,000
1981	17,318,000
1982	23,326,000
1983 and later	110,780,000
Total	\$ 179,934,000
Amount of U.S. \$ loans included above	U.S. \$ 7,939,000

During 1977 the Corporation rescheduled payments due of \$472,000. These reschedulings are intended to aid collectibility and servicing of the debt. Since inception of the export loans program, \$1,998,000 has been rescheduled, none of which is overdue at December 31, 1977.

Under the Export Development Act, the Corporation may sell its interest in instalments payable to it. As at December 31, 1977, \$22,003,000 has been sold in this manner.

3. Credits Insurance

The authority to enter into contracts of export credits insurance and guarantees under the Export Development Act is limited to a maximum of \$1,000,000,000 at any time. As at December 31, 1977, the contingent liability under such contracts is \$353,149,000.

4. Foreign Investment Insurance

The authority to enter into contracts of foreign investment insurance under the Export Development Act is limited to a maximum of \$250,000,000 at any time. As at December 31, 1977, the contingent liability under such contracts is \$152,122,000.

5. Export Loans

Under the Export Development Act, the Canada Account may have outstanding loans to foreign borrowers, outstanding guarantee agreements to other lenders and signed but undisbursed loan and guarantee agreements up to a maximum of \$850,000,000 at any time. As at December 31, 1977, the position is as follows:

Loans receivable	\$ 201,937,000
Guarantees	15,316,000
Undisbursed funds on signed loan agreements	315,745,000
	<u>\$ 532,998,000</u>

FARM CREDIT CORPORATION

(Established by the Farm Credit Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 9, 1978

THE HONOURABLE EUGENE F. WHELAN, P.C., M.P.,
MINISTER OF AGRICULTURE,
OTTAWA, ONTARIO.

I have examined the balance sheet of Farm Credit Corporation as at March 31, 1978 and the statements of deficit—Farm Credit Act, retained earnings—Farm Syndicates Credit Act, income and expense, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes described in Notes 3 and 4 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1978

1. Corporate objective

The Farm Credit Corporation was established on October 5, 1959, by the Farm Credit Act as the successor to the Canadian Farm Loan Board. The Corporation's prime objective is to assist Canadian farmers to establish and develop sound farm enterprise through the use of long-term credit as provided for by the Farm Credit Act.

The Corporation also administers the lending program authorized under the Farm Syndicates Credit Act which was originally introduced as the Farm Machinery Syndicates Credit Act on December 11, 1964. It provides for loans to groups or syndicates of farmers organized to share in the purchase and use of farm machinery, buildings and installed equipment.

Pursuant to the Farm Credit Act and an agreement with the Department of Agriculture, the Corporation provides services pertaining to the purchase and sale of farm land in administering the Land Transfer Plan, a component of the Department's Small Farm Development Program. The Corporation's operating costs are reimbursed by the Department and the excess of income over expense is paid to Canada.

The transactions relating to each of these activities are accounted for separately by the Corporation.

2. Significant accounting policies

Allowance for doubtful accounts

The allowance for doubtful accounts relates to loans to farmers, loans to farm syndicates and agreements for sale. This allowance represents the Corporation's estimate of future probable losses on the accounts outstanding at March 31, 1978, and includes a component which, on the basis of historical loss experience, covers future losses not yet identified and also a component to provide for specifically identified probable losses.

Actual losses on loans, recoveries on loans and the changes in the allowance are recorded in the related statement of income and expense as a provision for doubtful accounts.

Capital losses resulting from real property transactions under the Small Farm Development Program may be recovered through a separate parliamentary appropriation. No requirement for the application of this provision has yet occurred.

Revenue recognition

Interest on loans to farmers, loans to farm syndicates and agreements for sale is recorded as income on an accrual basis.

Appraisal fees received with applications are recorded as income when received. Appraisal fees retained from loan funds are recorded as income at the time the loans are disbursed.

Supervision fees are recorded as income annually on the related instalment due date. Discharge and partial discharge fees are recorded as income when the discharge takes place.

Service charges earned on loans to farm syndicates are recorded as income when loans are disbursed.

FARM CREDIT CORPORATION—Continued

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1978—Continued

3. Income taxes

It has been the policy of the Corporation to reflect in the statement of income and expense under the Farm Credit Act, a provision for income taxes relating to the combined operations under the Farm Credit Act and the Farm Syndicates Credit Act. The portion of the provision for income taxes applicable to operations under the Farm Syndicates Credit Act amounted to \$4,569 for the year ended March 31, 1978 and \$12,227 for the year ended March 31, 1977.

The Corporation is showing a \$480,377 reduction in corporate income taxes for the current year as an extraordinary item in the statement of income and expense under the Farm Credit Act. The taxes payable for the year have been eliminated because the Corporation deducted \$487,076 of prior period adjustments and \$557,221 of tax losses carry-forward from taxable income for tax purposes.

Previously, the Corporation had not recognized deferred income tax debits arising from timing differences between depreciation recorded in the accounts and the amount claimed for tax purposes. The Corporation has now reflected these deferred income tax debits which amount to \$298,866 at March 31, 1978. Recognition of these income tax debits has resulted in an increase of \$45,399 in net income for the current year under the Farm Credit Act. The balance of Deficit — Farm Credit Act at March 31, 1977, has been restated to show a retroactive credit of \$253,467 at that date. The amount of \$39,399, which applied to the year ended March 31, 1977, had the effect of reducing the net loss by the same amount and has been reflected in the statement of income and expense under the Farm Credit Act for that year. The remaining amount of \$214,068 is applicable to years prior to April 1, 1976, and the balance of Deficit — Farm Credit Act has been restated to reflect a decrease by this amount at that date.

In previous years, the Corporation excluded funds provided by parliamentary appropriation from its income for income tax purposes. During the year, reassessments from Revenue Canada-Taxation for 1972 through 1975 were upheld with the result that funds received underparliamentary appropriations for recovering the Corporation's operating losses were included in computing income. These reassessments reduced the loss carry-forward for tax purposes as at March 31, 1977 from \$26,004,124 to \$2,459,206, assuming similar reassessments for 1976 and 1977. The Corporation now includes funds provided by parliamentary appropriation in its income tax purposes.

The loss carry-forward for tax purposes which has not been recognized in the financial statements, amounts to \$1,901,985. The tax benefits pertaining to this loss carry-forward are available until March 31, 1982.

4. Adjustments for prior years

The balance of Deficit — Farm Credit Act at March 31, 1977 has been restated to show a retroactive charge of \$276,000 representing an additional provision for employee termination benefits required at that date. Of this amount, a charge of \$8,000 was applicable to the year ended March 31, 1977, and has been reflected in the statement of income and expense under the Farm Credit Act for that year. An amount of \$268,000 is applicable to years prior to April 1, 1976 and the balance of Deficit—Farm Credit Act has been restated to reflect an increase of this amount at that date. The provision for employee termination benefits at March 31, 1978, after reflecting these adjustments for prior years and changes in the provision for the current year, amounted to \$1,534,000.

A retroactive charge of \$198,559 relating to an adjustment of interest earned on loans to farmers has been reflected in the statement of income and expense under the Farm Credit Act for the year ended March 31, 1977 and the balance of Deficit — Farm Credit Act at March 31, 1977 has been increased accordingly. Loans to farmers, secured by mortgages, at March 31, 1977, have been reduced by a similar amount.

The balance of Retained Earnings — Farm Syndicates Credit Act at March 31, 1977 has been restated to show a retroactive charge of \$12,517 representing an adjustment of interest earned on loans to farm syndicates. This adjustment has been reflected in the statement of income and expense under the Farm Syndicates Credit Act for the year ended March 31, 1977. Loans to farm syndicates, secured by notes, at March 31, 1977, have been reduced by a similar amount.

5. Long-term receivables

Outstanding amounts are receivable over periods of up to thirty years at interest rates in effect at the time of approval.

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands)	
			1978	1977
Loans to farmers	30 years	5—10	\$ 2,571,367	\$ 2,263,818
Loans to farm syndicates	15 years	6 1/4—10	10,816	11,875
Agreements for sale ..	30 years	5—10	11,552	12,253
			<u>\$ 2,593,735</u>	<u>\$ 2,287,946</u>

A summary of the long-term receivables in the aggregate, by annual interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands)						1984 through 2008
	Total	1979	1980	1981	1982	1983	
5-5 7/8	\$ 329,111	\$ 28,936	\$18,133	\$18,629	\$19,023	\$19,275	\$ 225,115
6-6 7/8	327,657	22,702	10,810	11,161	11,576	12,134	259,274
7-7 7/8	506,518	30,841	12,692	13,522	14,375	15,280	419,808
8-8 7/8	819,810	49,054	15,437	16,231	16,991	18,058	704,039
9-9 7/8	556,412	27,893	7,332	7,986	8,654	9,292	495,255
10	54,227	3,508	709	729	770	799	47,712
	<u>\$ 2,593,735</u>	<u>\$162,934</u>	<u>\$65,113</u>	<u>\$68,258</u>	<u>\$71,389</u>	<u>\$74,838</u>	<u>\$ 2,151,203</u>

FARM CREDIT CORPORATION—Continued

NOTES OF THE FINANCIAL STATEMENTS

MARCH 31, 1978—Continued

At March 31, 1978, accrued interest of \$102,240,000 (\$86,822,000—1977) and arrears of \$21,105,000 (\$15,541,000—1977) are included and are shown as maturing in the year ending March 31, 1979.

Prepayments of principal from borrowers of \$45,700,000 (\$33,700,000—1977) were received during the year and applied as a reduction of principal.

6. Real estate

This represents farm property held by the Corporation for resale and is carried at the lower of cost and net realizable value. It consists of property acquired in the process of administering the outstanding loans to farmers and to farm syndicates and must be disposed of by the Corporation within five years of acquisition or such further period as the Governor in Council may prescribe.

7. Due to Canada

The amount due to Canada of \$1,838,104 (\$1,591,074—1977) is in respect of operations during the year under the Farm Credit Act and under the Small Farm Development Program and is determined as follows:

	1978	1977
Operations under the Farm Credit Act—		
Funds received from Agriculture		
Vote 65 (Vote 60—1977)	\$ 1,700,000	\$ 2,400,000
Less: Portion of net operating loss recoverable		958,609
	<u>1,700,000</u>	<u>1,441,391</u>
Operations under the Small Farm Development Program—		
Funds received from Agriculture Vote 1 ..	500,000	738,070
Less: Administrative expense	444,454	675,896
	<u>55,546</u>	<u>62,174</u>
Excess of income over expense	82,558	87,509
	<u>\$ 1,838,104</u>	<u>\$ 1,591,074</u>

8. Canada loans

The Corporation has borrowed funds, secured by note, from the Minister of Finance for the purpose of making farm loans, pursuant to section 13 of the Farm Credit Act and section 8 of the Farm Syndicates Credit Act. The Corporation also borrows funds pursuant to the Farm Credit Act, as authorized by Order in Council P.C. 1972-1490, dated June 29, 1972, for the purposes of the Small Farm Development Program. These borrowings are repayable in accordance with the terms and interest rates prescribed at the time of borrowing.

Outstanding amounts as at March 31, 1978, are as follows:

	Period not exceeding	Annual interest rate %	Outstanding amount (in thousands)	
			1978	1977
Farm Credit Act	20 years	3 1/2-9	\$ 2,417,481	\$ 2,130,174
Farm Syndicates Credit Act	5 years	5 1/4-9	10,551	11,629
Small Farm Development Program	20 years	6-9	10,086	10,380
Accrued interest			55,628	51,694
			<u>\$ 2,493,746</u>	<u>\$ 2,203,877</u>

A summary of the Canada loans in the aggregate, by annual interest rate and fiscal year of maturity, is as follows:

Annual interest rate %	Maturities by fiscal year (in thousands)						
	Total	1979	1980	1981	1982	1983	1984 through 1999
3-4 7/8	\$ 15,914	\$ 2,725	\$ 2,353	\$ 2,451	\$ 2,552	\$ 2,355	\$ 3,478
5-5 7/8	275,000	35,907	29,767	31,063	32,761	32,346	113,156
6-6 7/8	618,159	48,429	40,544	43,152	45,929	40,623	399,482
7-7 7/8	533,911	29,574	21,607	22,789	23,666	24,985	411,290
8-8 7/8	906,542	41,303	21,714	23,505	25,447	27,344	767,229
9	144,220	6,293	3,456	3,555	3,680	4,018	123,218
	<u>\$ 2,493,746</u>	<u>\$ 164,231</u>	<u>\$ 119,441</u>	<u>\$ 126,515</u>	<u>\$ 134,035</u>	<u>\$ 131,671</u>	<u>\$ 1,817,853</u>

FARM CREDIT CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1978—*Concluded*

The amounts outstanding as of March 31, 1978, include accrued interest totalling \$55,628,000 (\$51,694,000—1977) and are shown as maturing in the year ending March 31, 1979.

9. Contributed capital

The contributed capital of the Corporation represents the amount received from Canada under section 12 of the Farm Credit Act. The statutory limit on this amount during the year has been \$100 million. Subsequent to the year-end, the limit has been increased as described in Note 14.

10. Interest rates

Loans to farmers bear an interest rate from the date of approval equal to the base rate defined in section 3(2) of the Farm Credit Act Interest Rates Regulations plus one per cent. The base rate is determined using the average yield on Government of Canada bonds payable in Canadian currency and due to mature in five to ten years. The lending rate is established for six-month periods commencing April 1st and October 1st each year and applies to all loans approved in the related six-month period.

However, if a new loan under the Farm Credit Act is made, a portion of which is to be used to repay an existing Farm Credit Act loan, the current lending rate and the rate on the existing loan are blended and a composite rate charged. Except for the provision for blended rates, rates on loans to farm syndicates are determined in the same manner using the yield on Government of Canada bonds maturing in one to five years plus one per cent.

Interest rates on borrowings from Canada by the Corporation under section 13 of the Farm Credit Act are established for six-month periods commencing April 1st and October 1st each year in accordance with the terms and conditions approved by the Governor in Council. Similarly, rates on borrowings under section 8 of the Farm Syndicates Credit Act are set on these dates for the same six-month periods.

11. Commitments to borrowers

Loans to borrowers approved but not disbursed as at March 31, 1978, amounted to \$62.6 million most of which were approved at 9-1/4%. It is expected that the majority of these loans will be disbursed within the six-month period ending September 30, 1978, from funds to be borrowed by the Corporation from Canada at 8-1/2%.

12. Comparative figures

Certain figures for the previous year have been restated to conform to the current year's presentation.

13. Anti-Inflation Act

Under this legislation, the Corporation is subject to mandatory compliance with the controls on employees' compensation.

14. Amendment to the Farm Credit Act

An Act to amend the Farm Credit Act was proclaimed by the Government on May 11, 1978.

The amendments provide for a new loan limit of \$200,000 for a farm unit with one qualifying applicant and \$400,000 for a farm unit where there are two or more qualifying applicants. Previously, the borrowing ceilings were \$150,000 for persons under 35 years of age and \$100,000 for borrowers 35 and over. The only age restriction to remain is the 35-year age limit for young farmers wishing to phase into farming over a five-year period while retaining off-farm employment. Previously, standard loans were based on an appraised or productive value while loans to persons under 35 years of age were based on market value. The amended Act now provides that all loans be based on market value.

The Corporation's authorized capital has been increased from \$100 million to \$150 million, with the provision that further increases in excess of this amount may be authorized under an Appropriation Act. As a consequence, the Corporation's maximum borrowing capacity from the Minister of Finance has been increased to \$3.75 billion.

The statutory \$25 a year charge for supervision applied to loans exceeding 75 per cent of the appraised value has been eliminated. In addition, interest on arrears will be charged at the loan interest rate rather than the loan interest rate plus one-half per cent as previously charged.

The amended Farm Credit Act now contains a provision allowing the Corporation to provide for future losses on loans in accordance with generally accepted accounting principles.

FEDERAL BUSINESS DEVELOPMENT BANK

AUDITOR'S REPORT

THE HONOURABLE MINISTER OF INDUSTRY,
TRADE AND COMMERCE,
OTTAWA, ONTARIO.

Sir:

I have examined the statement of assets and liabilities of the Federal Business Development Bank as at March 31, 1978 and the statements of operations, retained earnings, changes in cash position and accumulated provision for possible future losses on loans and investments for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present a true and fair view of the financial position of the Bank as at March 31, 1978 and the results of its operations, the changes in its cash position and the changes in the accumulated provision for possible future losses on loans and investments for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Bank, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Bank.

Yours very truly,

RAYMOND J. MORCEL, C.A.
of Price Waterhouse & Co.
Montreal, Quebec

May 19, 1978

FEDERAL BUSINESS DEVELOPMENT BANK—Continued

NOTES TO FINANCIAL STATEMENTS
AS AT MARCH 31, 1978

1. Significant Accounting Policies:

Loans and Investments

Loans and investments are recorded as assets when disbursed. Each loan remains as an asset until it is repaid or until realization of its security. Each investment remains as an asset until it is sold or written off. Losses on loans and investments are provided for as described in the following paragraph.

Provision for losses on loans and investments

A charge against income is made to cover amounts written off on loans and investments during the period. In addition, a provision is established to provide for future losses. This provision includes a component which, on the basis of historical loss experience, covers future losses not yet identified, and also a component to provide for specifically identified probable losses.

Revenue recognition

Interest on loans is recorded as income on an accrual basis except that interest is not accrued on loans where the Bank has taken possession of the assets pledged as security.

Fixed assets and depreciation

Fixed assets are recorded at historical cost. Leasehold improvements are depreciated under the straight-line method over the term of each individual lease. Other fixed assets are depreciated using the diminishing balance method at rates based on the estimated useful lives of such assets.

2. Loan and investment commitments:

The amounts not disbursed at March 31, 1978 on loans and investments authorized aggregated approximately \$138,000,000 (1977—\$111,000,000).

3. Loans to "interested persons" as defined by Section 36 of the Federal Business Development Bank Act:

On September 9, 1977 the Board of Directors approved a loan for \$100,000 to Field Sawmills Ltd., Courtenay, B.C. The Chairman of the Board of the company is Peter J. Gregory, a member of the British Columbia/Yukon Regional Advisory Council of the Bank.

4. The debentures issued to and held by the Bank of Canada at March 31, 1978 were as follows:

Rate %	Maturities by Fiscal Year (in thousands of dollars)				
	1979	1980	1981	1982	Total
6-6%	\$ 6,000	\$	\$	\$	\$ 6,000
7-7%	127,800	78,400	51,400	44,200	301,800
8-8%	15,400	70,400	40,000	39,800	165,600
9-9%	22,300	22,300	79,600	47,600	171,800
	<u>\$171,500</u>	<u>\$171,100</u>	<u>\$171,000</u>	<u>\$131,600</u>	<u>\$645,200</u>

5. The notes held by Canada at March 31, 1978 were as follows:

Rate %	Maturities by Fiscal Year (in thousands of dollars)					
	1979	1980	1981	1982	1983	Total
7-7%	\$35,000	\$35,000	\$34,000	\$21,000	\$	\$125,000
8-8%	4,000	3,000	5,000	18,000	36,000	173,000
9-9%	46,000	48,000	48,000	47,000	50,000	325,000
	<u>\$85,000</u>	<u>\$86,000</u>	<u>\$87,000</u>	<u>\$86,000</u>	<u>\$86,000</u>	<u>\$623,000</u>

6. Contingent liabilities:

The Bank is contingently liable as guarantor of loans aggregating \$7,881,000.

FEDERAL BUSINESS DEVELOPMENT BANK—Concluded

NOTES TO FINANCIAL STATEMENTS

AS AT MARCH 31, 1978—*Concluded*

7. Pension Fund:

The Bank maintains a Pension Fund for its employees which is contributory, trustee and funded. During the year, the Bank charged to operations special contributions into the Fund aggregating \$2,178,300 (principal and interest) in order to fully fund the experience deficiency of \$1,259,800 which had arisen in the calendar year 1976 and provide against a possible recurrence of such deficiency in 1977. According to the latest independent actuarial valuation, which was conducted as of December 31, 1977, these contributions, together with net experience gains realized in 1977, have caused the assets of the Fund to exceed the actuarially computed value of future benefits to employees.

8. Directors' and officers' remuneration:

As at March 31, 1978 the Bank had fourteen directors (fifteen in 1977) and ten senior officers (ten in 1977). One senior officer retired in February 1978. Remuneration of \$48,845 (\$59,500 in 1977) was paid to the ten directors selected from outside the public service of Canada. Remuneration of \$491,710 (\$453,573 in 1977) was paid to the senior officers. One senior officer is also a director.

FRESHWATER FISH MARKETING CORPORATION

(Established by the Freshwater Fish Marketing Act)

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

July 29, 1977

THE HONOURABLE ROMÉO LEBLANC, P.C., M.P.,
MINISTER OF FISHERIES AND THE ENVIRONMENT,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Freshwater Fish Marketing Corporation as at April 30, 1977 and the statements of operations, deficit, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at April 30, 1977 and the results of the operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in accounting policy as described in Note 2 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith, and the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED APRIL 30, 1977

1. Significant Accounting Policies

Inventories

Inventories have been valued on the following basis:

Finished fish products—at lower of cost and net realizable value.

Packaging material and parts—at the lower of cost and replacement cost.

Depreciation

The cost of fixed assets is written off by depreciation charges over the estimated useful lives of the fixed assets on the following basis:

Buildings	—Lake stations	10%	Declining balance
	—Plant	40 year	Straight line
Equipment	—Plant	20%	Declining balance
	—Mobile	30%	Declining balance
Packer vessel		15 year	Straight line
Leasehold improvements		Term of lease	Straight line

Payments to Fishermen

The Corporation purchases fish at initial prices established by the Board of Directors. Final payments, if any, to fishermen are determined by the Board after the end of the year, based on the results of operations for the year. The final payments are made in respect of products purchased during the year and are therefore charged to expense in the current year's Statement of Operations.

2. Changes in Accounting Policy

(a) Contributed Surplus

During the year the Corporation changed with retroactive effect the presentation of the proceeds of a grant from the Department of Regional Economic Expansion towards the construction of the Corporation's Transcona plant. Proceeds totalling \$515,752 which have previously been presented on the Balance Sheet as contributed surplus were reclassified as a reduction of fixed assets. As a consequence, the depreciation recorded for the year ended April 30, 1977 is \$19,830 less than would have been recorded under the former method. The reduction for the preceding year was \$22,325 and \$89,008 for the years 1972 to 1975.

(b) Final Payments to Fishermen

During the year, the Corporation adopted the policy of charging final payments to fishermen to operations in the

FRESHWATER FISH MARKETING CORPORATION—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED APRIL 30, 1977—*Concluded*

year to which they related. Previously, final payments were considered a distribution of retained earnings in the year paid. This change in policy has been applied retroactively and previous years' financial statements have been restated. As a result, net income for the year ended April 30, 1976 decreased by \$697,714 and retained earnings as at April 30, 1976 decreased by a corresponding amount. For the year ended April 30, 1975 net income decreased by \$369,637 and retained earnings as at April 30, 1975 decreased by a corresponding amount. The change in policy had no effect on the current year's operations.

3. Comparative Figures

The prior year's comparative figures have been restated to reflect changes in presentation and the change in accounting policy outlined in Note 2.

4. Mortgage Loan Receivable

Accounts receivable—other—includes \$106,000 (\$97,000—1976) which is a loan secured by a chattel mortgage. The loan, which was to be repaid by May 1, 1984 in monthly instalments, is in default, and the Corporation is proceeding with litigation.

5. Government Assistance for Fish Packing and Processing Stations

The Department of Indian Affairs and Northern Development has reimbursed the Corporation in the amount of \$89,000 to offset certain costs incurred by the Corporation in operating a fish packing and processing plant at Island Lake, Manitoba.

The Department of Indian Affairs and Northern Development and the Department of Northern Saskatchewan have agreed to reimburse the Corporation in the amount of \$77,000 and \$58,000 respectively to offset certain costs incurred by the Corporation in operating a fish packing and processing plant at Lake Athabasca, Saskatchewan.

The total of \$224,000 in government assistance has been offset against cost included in the Statement of Operations.

6. Fixed assets

At April 30, 1977 the fixed assets and related accumulated depreciation were as follows:

	Cost	Accumulated Depreciation	Net
Land	\$ 259,266	\$	\$ 259,266
Buildings	4,122,077	543,284	3,578,793
Equipment	2,835,053	1,448,430	1,386,623
Packer vessel	236,040	93,778	142,262
Construction in progress	47,243		47,243
Leasehold improvements	550,946	171,471	379,475
	<u>\$ 8,050,625</u>	<u>\$ 2,256,963</u>	<u>\$ 5,793,662</u>

Leasehold improvements

Leasehold improvements are amortized on the following basis:

	Cost	Amortization Period	Unamortized Balance
Hay River	\$ 358,319	20 years	\$ 283,536
Edmonton	95,502	10 years	28,646
Gunnar Agency	87,158	5 years	59,792
Savage Island Agency	9,967	5 years	7,501
	<u>\$ 550,946</u>		<u>\$ 379,475</u>

Depreciation and amortiza-

tion for the year

Depreciation
Amortization

\$ 427,021
46,788
<u>\$ 473,809</u>

7. Loans from Canada

These demand loans, secured by promissory notes, are made under Section 17 of the Act. At April 30, 1977 the outstanding loans included the following:

	Amount	Interest Rate
Working capital loans	\$ 700,000	9½%
	3,120,000	8½%
	800,000	7¾%
	<u>4,620,000</u>	
Fixed asset loans	3,431,251	4½%
	158,000	7½%
	623,000	9½%
	708,000	8¼%
	<u>4,920,251</u>	
	<u>\$ 9,540,251</u>	

Repayments of working capital loans are made within one year from the date the loan was granted. In general, fixed asset loans are repaid in amounts equal to the sum of the annual provision for depreciation on all fixed assets and proceeds derived from fixed asset transactions. The amount due on June 1, 1977 is approximately \$451,000.

8. Deficit

Contributions of \$3,000,000 towards the operating losses incurred by the Corporation in 1971/72 and 1972/73 have been requested from the Federal and participating Provincial and Territorial Governments. Of this amount, \$2,700,000 has been received: \$1,500,000 from Canada; \$150,000 from the Northwest Territories; \$150,000 from Ontario; \$150,000 from Alberta; and \$750,000 from Manitoba. These amounts have been credited to deficit in the year in which they were received. Under terms of an agreement with the Province of Manitoba, if the remaining \$300,000 is not received, the Manitoba contribution will become repayable.

9. Remuneration to Foreign Agents

During the year, the Corporation paid an aggregate amount of \$229,751 to the following foreign sales agents: Juhl Brokerage Incorporated, Miscosa Incorporated, Edwin Finsilver, and International Pacific Seafoods—United States; Legrande, Malo et Cie—France; Le Jos Oy—Finland; Malm and Stahl—Sweden.

GREAT LAKES PILOTAGE AUTHORITY, LTD. (Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
February 17, 1978

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Great Lakes Pilotage Authority, Ltd. as at December 31, 1977 and the statements of operations, deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1977

1. Nature of activities

The Great Lakes Pilotage Authority, Ltd. was established on February 1, 1972 pursuant to the Pilotage Act as a subsidiary of The St. Lawrence Seaway Authority. The objects of the Authority are to establish, operate, maintain and administer a safe and efficient pilotage service within specified Canadian waters.

2. Significant accounting policies

(a) Parliamentary appropriations

Until the revenue from pilotage charges is sufficient to permit the Authority to operate on a self-sustaining basis it is the practice to recover any deficit and capital expenditures made, from parliamentary appropriations provided for that purpose. Amounts received in excess of the deficit are shown under current liabilities.

(b) Depreciation

Depreciation of fixed assets is calculated on a straight-line basis and is based on the estimated useful life of the asset as follows:

Buildings	20 years
Furniture and equipment	10 years

Although charged in the Statement of Operations, depreciation is not recovered from parliamentary appropriations.

(c) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, plus the cost of capital assets financed from parliamentary appropriations, are shown as contributed capital.

3. Fixed assets

At December 31, 1977 the fixed assets and related accumulated depreciation were as follows:

GREAT LAKES PILOTAGE AUTHORITY, LTD.—*Concluded*NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1977—*Concluded*

	1977		1976	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Buildings	\$ 60,600	\$ 24,000	\$ 60,600	\$ 20,000
Furniture & equipment	19,900	9,000	19,200	7,800
	<u>\$ 80,500</u>	<u>\$ 33,000</u>	<u>\$ 79,800</u>	<u>\$ 27,800</u>

4. Contingent liability

Under provisions of the Pilotage Act pilots may choose to become employees of the Authority and become entitled to count service prior to becoming an employee as pensionable under the Public Service Superannuation Plan. Certain pilots have exercised their option to become employees and have elected to purchase pension benefits in respect of past service. These elections have created an obligation to make employer contributions in respect of past service, and since 1976 the Authority has recorded these contributions in the accounts.

Pilots who have elected to become employees may purchase past service pension benefits either by monthly instalments which are to be paid over their remaining service periods or by the payment of a lump sum. For the pilots who have elected to pay on the instalment basis the Authority will be required to match past service pension contributions amounting to approximately \$350,000 over the remaining service lives of the pilots.

With respect to the 20 contract pilots who may elect, in the future, to become employees of the Authority, the contingent liability with respect to past service pension contributions has not yet been determined.

5. Remuneration of directors and officers

Expense includes remuneration of directors as directors, \$1,600 (1976-\$2,000), and remuneration of officers as officers, \$133,000 (1976-\$81,000). The Authority has six directors and five officers. Two officers are also directors.

6. Anti-inflation legislation

Under P.C. 1976-3079 of December 10, 1976 with retroactive effect from May 27, 1976, the Authority is subject to the Anti-inflation Act and the regulations promulgated thereunder, which provide for restraints of prices, profit margins and compensation of employees. The Authority has filed six employee compensation reports with the Anti-inflation Board and is awaiting a decision with respect to three employee pilot agreements which expire March 31, 1978.

LAURENTIAN PILOTAGE AUTHORITY

(Incorporated under the Pilotage Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
February 17, 1978

THE HONOURABLE OTTO E. LANG, P.C., M.P.
MINISTER OF TRANSPORT
OTTAWA, ONTARIO

I have examined the balance sheet of Laurentian Pilotage Authority as at December 31, 1977 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1977

1. Nature of activities

The Laurentian Pilotage Authority was established on February 1, 1972 pursuant to the Pilotage Act. The objects of the Authority are to establish, operate, maintain and administer an efficient pilotage service within certain designated Canadian waters in and around the Province of Quebec, on a self-sustaining financial basis.

2. Significant accounting policies

(a) Depreciation

Depreciation is calculated on the straight line basis and is based on the following estimated useful lives:

Buildings	20 years
Pilot boats	20 years
Furniture and equipment	10 years
Communications equipment	10 years
Vehicles	3½ years

(b) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, plus the cost of fixed assets financed from parliamentary appropriations, are shown as contributed capital.

(c) Services provided without charge

An estimate of rent for office space provided without charge by a government department is included as an expense and credited to Retained Earnings.

(d) Past service pension obligations

Contributions to the Public Service Superannuation Plan with respect to past service pension benefits for pilots are expensed when paid, generally over the remaining service lives of the pilots to whom the contributions pertain.

LAURENTIAN PILOTAGE AUTHORITY—*Concluded*NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1977—*Concluded*

3. Fixed assets

Fixed assets and related accumulated depreciation are as follows:

	1977		1976	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Land	\$ 9,300	\$ —	\$ 9,300	\$ —
Buildings	23,622	9,922	23,622	8,245
Pilot boats	117,000	78,000	117,000	65,000
Furniture and equipment	64,030	37,780	59,167	33,341
Communications equipment	47,896	47,488	47,896	47,417
Vehicles	21,654	21,654	21,654	21,654
	<u>\$283,502</u>	<u>\$194,844</u>	<u>\$278,639</u>	<u>\$175,657</u>

4. Contractual and employee agreements

During the year an arbitration decision was rendered requiring the Authority to pay additional pilots' fees of \$100,002 in respect of prior years' services. Of this amount, \$28,650 relates to services provided to the Authority during 1976 and has been charged to expense of that year. The remaining \$71,352 is applicable to years prior to January 1, 1976 and has been applied to increase the deficit at that date.

An additional claim for \$44,500 in respect of an employee agreement has been received by the Authority. The Authority feels that its position is defensible and that the final outcome should not result in any material payments.

5. Pilotage charges in dispute

During the year the Authority settled certain disputes related to charges for pilotage services rendered prior to 1976. The estimated total cost of settling claims arising out of prior years' pilotage charges has exceeded previous provisions by \$165,000 and accordingly the deficit at January 1, 1976 has been increased by that amount.

6. Past service pension obligations

Under provisions of the Pilotage Act contract pilots may elect to become employees of the Authority and to purchase past service pension entitlements under the Public Service Superannuation Plan. These elections require the Authority to make matching contributions in respect of past service.

Pilots who have elected to become employees may purchase past service pension benefits either by monthly installments which are to be paid over their remaining service periods or by the payment of a lump sum. Virtually all of the 15 employees who have past service pension entitlements under the Act have elected to pay on the installment basis and therefore the Authority will be required to make past service pension contributions, which total approximately \$220,000, over the remaining service lives of such pilots.

With respect to the 222 contract pilots who may elect, in the future, to become employees of the Authority, the contingent liability with respect to past service pension contributions has not been determined.

7. Income tax

The Authority is not subject to the provisions of any income tax act and consequently has no taxable income.

8. Comparative figures

The presentation of certain of the 1976 comparative figures has been amended to conform to the 1977 format.

9. Anti-inflation legislation

The Authority is subject to the Anti-inflation Act and the regulations promulgated thereunder, which provide for restraints on prices, profit margins and compensation of employees. The Authority has complied in all material respects with the controls.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1978

1. Objective of the Corporation

Loto Canada Inc. was established as a Crown corporation under the provisions of Vote L27a, Appropriation Act No. 4, 1976, and was incorporated under the provisions of the Canada Business Corporations Act on June 7, 1976.

The Corporation's objective is to conduct and manage a national lottery in accordance with the National Lottery Regulations. The net revenues of the Corporation are required to be paid over to the Receiver General for Canada to be credited to a National Lottery Account and distributed as follows:

- 82.5%—to assist in the financing of the deficit of the 1976 Olympic Games and to assist in the financing of the 1978 Commonwealth Games;
- 12.5%—to the provinces, in proportion to the number of lottery tickets sold in each province;
- 5.0%—for the purpose of physical fitness, amateur sport and recreation programs.

2. Significant accounting policies

Determination of net revenue

The Corporation's net revenue is determined on the basis of lottery ticket sales, prizes and expenses in respect of completed draws. Proceeds from the sale of lottery tickets, interest income thereon and direct expenses related to future draws are deferred until completion of the relevant draws.

Unclaimed prizes—Completed draws

Unclaimed prizes are carried in the accounts for a twelve-month period subsequent to the relevant draw, when in accordance with the National Lottery Regulations any claim for the prizes is then void.

These voided prizes are transferred to "provision for prizes—future draws" for distribution as additional prizes at a later date.

The amount set aside by the Corporation in the previous fiscal period was fully utilized during the current year.

Furniture and equipment

Purchases of furniture and equipment were recorded as an administrative expense in the year of acquisition.

3. Prior Period

The figures for 1977 represent the period from incorporation, June 7, 1976 to March 31, 1977.

4. Draw #6

Although Draw #6 occurred on Sunday, April 2, 1978, all related transactions were completed by March 31, 1978. Accordingly, they are included in the statement of operations for 1977-78.

THE NATIONAL BATTLEFIELDS COMMISSION
(Constituted under an "Act respecting the National
Battlefields at Quebec")

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
May 9, 1978

THE HONOURABLE H. FAULKNER, P.C., M.P.,
MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT,
OTTAWA, ONTARIO.

I have examined the balance sheet of the National Battlefields Commission as at March 31, 1978 and the statements of operating expense, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 2b) to the financial statements, the Commission does not provide for depreciation on fixed assets which are susceptible to deterioration and obsolescence.

In my opinion, except for the effect of not recording depreciation of fixed assets referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1978, and its operating expense and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1978

1. Commission's Activities

The Commission is constituted under an "Act respecting The National Battlefields at Quebec", for the purpose of acquiring, preserving and developing an historic battlefields park.

2. Significant accounting policies

(a) Inventory

The inventory includes supplies, spare parts and tools and is valued at the lower of average cost and replacement cost.

(b) Fixed assets

Fixed assets are financed by parliamentary appropriations and are recorded in the accounts at cost. A corresponding amount is credited to the Equity of Canada. Gains or losses on disposal of fixed assets are credited or charged directly to Equity of Canada. In general, fixed assets of the Commission are not revenue producing and no depreciation is recorded in the accounts.

(c) Special Land Purchase Fund

Funds have been received from provincial and municipal governments and others for the exclusive purpose of acquiring certain land. These funds, together with interest revenue earned, are accounted for separately from the General Fund. Bonds held by the Special Land Purchase Fund are carried at cost as it is the Commission's intention to hold such bonds to maturity.

3. Fixed assets

Fixed assets, at cost, include:

	1978	1977
Land ..	\$ 724,710	\$ 724,710
Buildings	153,339	153,339
Roadways, driveways and grading	786,025	771,645
Equipment	616,591	583,080
Illuminated fountain	61,930	61,930
	\$ 2,342,595	\$ 2,294,704

NATIONAL CAPITAL COMMISSION (Established by the National Capital Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 9, 1978

THE HONOURABLE ANDRÉ OUELLET, P.C., M.P.
MINISTER OF STATE FOR URBAN AFFAIRS
OTTAWA, ONTARIO.

I have examined the balance sheet of the National Capital Commission as at March 31, 1978 and the statements of operations, proprietary interest and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 1 (a) (iii) to the financial statements, the Commission does not provide for depreciation on capital assets which are susceptible to deterioration and obsolescence. Such assets include all or portions of balances representing parkways, bridges and approaches, recreational facilities, property held for development, administration buildings, vehicles, machinery and equipment and office equipment and furniture.

In my opinion, except for the effect of not recording depreciation of capital assets, referred to in the preceding paragraph, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1978, and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1978

1. Significant accounting policies

(a) Capital assets

(i) Real property

Real property is recorded in the accounts at cost or nominal value. The nominal value represents the original cost of property acquisitions less proceeds from sale of part of the property. All proceeds from sales which occurred up to March 31, 1974 were credited to the asset account. Where the proceeds from such sales exceeded the total costs of acquisitions for a particular group of property, the property group has been valued at \$1. Gains or losses on sales of property since March 31, 1974 are reflected in the Statement of General Operations and the assets are credited with the cost of the property sold. As gains or losses on sales made prior to March 31, 1974 are determined, they are presented as prior years' adjustments to proprietary interest.

(ii) Other than real property

Capital assets other than real property are recorded in the accounts at cost. The acquisitions are financed by parliamentary appropriations provided for operating expenditures.

(iii) Depreciation

Capital assets are generally not revenue producing and no depreciation is recorded in the accounts. Treasury Board is co-ordinating a study on depreciation policy for Crown Corporations. Commission policy will be formulated within that overall framework.

(iv) Destruction or disposal of capital assets

Losses arising from the destruction or disposal of capital assets are charged to general operations of the year.

(b) Capital Projects

The National Capital Act defines capital projects as expenditures for the acquisition of property, for contributions, or for other works, and requires that each be specifically approved by the Governor in Council. Projects are financed through the National Capital Fund and through sales of property originally acquired through the National Capital Fund. In the latter case, only the cost portion of the proceeds is used to finance capital projects and reduce the amount required from the Fund. Only those projects producing Commission-owned real property are capitalized; studies and contributions to the works of other authorities are not capitalized.

The Commission also makes expenditures for acquisitions of real property out of the loans from Canada referred to in Note 3. The terms of these loans require that the loans and interest thereon be repaid if the property acquired from such loans is sold, granted, conveyed or otherwise disposed of, and further that if the monies received are in excess of what is required to repay the loans, the excess shall be applied against other loans made to the Commission. The excess is reflected in the Statement of General Operations but does not provide funds that can be used by the Commission for operating purposes.

(c) Inventories

Inventories of supplies and small tools are carried at most recent cost. Nursery stock is valued at replacement cost less an allowance for overhead, balling and packaging expenses.

(d) Interest and grants in lieu of taxes

The cost of real property does not include interest on loans used to finance the acquisition thereof nor the grants in lieu of taxes thereon.

NATIONAL CAPITAL COMMISSION—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 1978—Concluded

2. Capital assets—Real property

The following are the major categories of real property at March 31:

	1978	1977 Restated
Greenbelt	\$ 38,599,782	\$ 38,604,260
Parkways	57,141,930	56,162,964
Parks	26,484,268	23,059,881
Bridges and approaches	19,424,533	19,304,329
Historic sites	9,524,915	8,615,730
Recreational facilities	3,333,022	3,105,399
Rental and agency properties	145,290,428	140,886,959
Unsettled expropriations	2,766,500	2,900,000
Administration and service buildings	6,221,666	5,604,128
	<u>308,787,044</u>	<u>298,243,650</u>
Less: Provision for assets to be transferred at less than cost	(5,634,230)	(5,634,230)
	<u>\$303,152,814</u>	<u>\$292,609,420</u>

The provision for assets to be transferred at less than cost in the amount of \$5,634,230 pertains to property to be transferred at a future date in accordance with the agreements detailed below:

- agreements with the railway companies resulting from the relocation of the Ottawa area railway facilities;
- agreement with the Province of Quebec for lands to be given free of charge for approaches to the Macdonald-Cartier Bridge;
- agreement with the City of Ottawa for lands for the Queensway right-of-way from the eastern city limits to the Rideau Canal to be transferred free of charge;
- agreement with the Province of Quebec for the transfer of lands for \$1 used as a right-of-way for Highway No. 550; and
- agreement with the Province of Ontario for the transfer of lands for \$1 used as a right-of-way for Highway 417.

3. Loans from Canada

The Commission purchases real property out of funds advanced from the Consolidated Revenue Fund of Canada by way of loans as authorized by Parliament, upon such terms and conditions as to interest, terms of repayment and otherwise as approved by the Governor in Council.

Interest on loans from Canada is payable semi-annually at rates varying from 4% to 9.125% and averaging 6.5%. No dates for repayment of principal are specified except that loans and interest are required to be repaid by the full proceeds of sales. Effective April 1, 1974, payment of interest on loans borrowed for the purpose of acquiring property in the Greenbelt has been deferred until March 31, 1979. At March 31, 1978, the accrued interest payable amounted to \$8,326,659.

4. Cash on deposit in the National Capital Fund

The National Capital Fund is a special account in the Consolidated Revenue Fund of Canada. Amounts are paid from this fund to the Commission from time to time as required to finance the cost of capital projects. Payments are made by the Minister of Finance on the recommendation of the Minister of State for Urban Affairs.

5. Commitments

Subject to being provided with future funds from Parliament, the Commission is committed to make contributions to other levels of government:

- to the Province of Quebec one-half of the cost of a road network within the National Capital Region. The Commission's share during the period 1971-72 to 1981-82 is currently estimated at \$150 million of which \$40.1 million has been expended after provision for an estimated amount recoverable of \$3 million which is included in amounts recoverable from Provincial and Municipal governments;
- to the Province of Quebec and the Outaouais Regional Community one-third of the cost of a regional sewage disposal system. The maximum Commission cost will be \$40 million of which \$10.5 million has been expended after provision for an estimated amount recoverable of \$3.1 million which is included in amounts recoverable from Provincial and Municipal governments and accounts receivable—tenants and others;
- to the Province of Ontario and the Regional Municipality of Ottawa-Carleton one-third of the cost of a regional sewage disposal system. The maximum Commission cost will be \$16.1 million of which \$15.4 million has been expended; and
- under agreement with the Province of Quebec, the Commission is committed to expenditures totalling \$4 million as a 50% contribution towards the construction of Place d'Accueil in Hull. To date expenditures totalling \$3.1 million have been incurred.

6. Contingent liabilities

- Legal action has been taken against the Commission claiming \$4.5 million for wrongful termination of certain agreements. The Commission has denied any liability in its statement of defence and has filed a counterclaim for approximately \$2 million.
- Legal action has been taken against the Commission and others, claiming damages estimated at \$1.6 million for nuisance, during the construction of a collector sewer on Commission property.

7. Comparative figures

Prior period adjustments

- The balance of proprietary interest at March 31, 1977, previously reported as \$205,581,827, has been restated to show a retroactive reduction of \$3,587,684, representing the cumulative amount by which capital assets as at March 31, 1977 had been revalued due to not having previously recorded the following:

Provision for real property to be transferred at less than cost (Note 2)	\$ (5,634,230)
Gains on real property sales made prior to March 31, 1974 (Note 1 a(i))	2,045,433
Reinstatement of equipment and furniture previously written off.	1,113
	<u>\$ (3,587,684)</u>

- The current liabilities at March 31, 1977 previously reported at \$15,102,530 have been restated to include accrued vacation and termination benefits of \$547,183 originally recorded as a long term liability.

Restatements

Certain other figures for 1977 presented for comparative purposes have been restated to conform to the 1978 presentation

NATIONAL HARBOURS BOARD

(Established by the National Harbours Board Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
February 17, 1978

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of the National Harbours Board as at December 31, 1977 and the statements of operations, deficit, contributed assets and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the accompanying financial statements give a true and fair view of the financial position of the Board as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes resulting from depreciating fixed assets in the year of acquisition and crediting Parliamentary appropriations to operations as referred to in Notes 2 and 3, respectively, to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Board, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

NATIONAL HARBOURS BOARD—Continued

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 1977

1. Significant Accounting Policies

(a) Financial Statements

The financial statements of the National Harbours Board include the accounts of all the ports and other facilities under its administration.

(b) Investments

Investments are shown at amortized cost, with premium or discount amortized over the periods to maturity dates. Funds are invested temporarily in Government of Canada direct and guaranteed securities pending disbursements for capital projects and other purposes.

(c) Fixed Assets and Depreciation

Assets are recorded at cost except for those transferred to the Board from the Crown which are recorded at appraisal estimates. Depreciation has been calculated on the straight-line method commencing with the year of acquisition, for the full year, using rates based on the estimated useful lives of the assets.

The Board's policy is to capitalize additions, purchases of assets and original dredging costs which provide long-term benefit.

Expenditures for maintenance and repairs are charged to operating expenses as incurred.

(d) Appropriations from Parliament

Amounts receivable or received by the Board from parliamentary appropriations to cover certain operating losses are credited to operations. (See Note 3)

(e) Pension Costs

Annual pension contributions are charged to operations in the amounts paid to the Public Service Superannuation Account.

(f) Insurance

The Board assumes the risks against fire and general perils, as well as for workmen's compensation claims.

(g) Grants in lieu of municipal taxes

Grants in lieu of municipal taxes are provided based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act.

(h) Provisions for employee benefits

The Board accrues in its accounts annually the estimated liability for severance pay, annual leave, sick leave and overtime compensatory leave, which are payable to its employees in subsequent years under its collective agreements, or in accordance with Board policy. The estimated account due within one year is included in current liabilities.

2. Change in Accounting for Fixed Assets and Depreciation

During the year the National Harbours Board carried out a major review of its fixed assets with the assistance of an independent firm of consultants. As a result, a standard classification system was adopted and a complete physical inventory of its assets was conducted. New useful life estimates with an upper limit of forty years were adopted due to the potential impact of obsolescence. Furthermore, as a result of this study the following changes in accounting policies for fixed assets were implemented:

(a) Capital dredging was determined to be a depreciable asset, where formerly this class of asset was not depreciated.

(b) Depreciation was deemed applicable to newly acquired assets in their year of acquisition for the full year, while no depreciation would be recorded in the year of disposal. Previously depreciation was taken in the last year but not at all during the first.

As a consequence of the above changes in accounting policies the Board recorded a retroactive adjustment of prior years' depreciation by increasing the 1976 opening balance of the deficit account by \$11,116,000. Furthermore, as a result of the changes in the estimated useful lives of the fixed assets to reflect technological change, the Board recorded a special depreciation charge in its 1977 accounts amounting to \$133,642,000.

3. Change in Accounting for Parliamentary Appropriations

During the year the Board revised its policy with regard to accounting for parliamentary appropriations from the Government of Canada. Previously, such grants were credited to the deficit account when received. As these appropriations are for the purpose of defraying expenses of specific ports which are not recoverable from ordinary revenues, the Board has decided to reflect them in the statement of operations in the year they apply, in order to provide a proper matching of revenues and expenses.

Accordingly, the Board's accounts for the year ended December 31, 1976 have been restated to include appropriations in the statement of operations as a reduction in net operating loss. Parliamentary appropriations pertaining to 1976 operations received in 1977 totalling \$564,000 have been reflected in the statement of operations for 1976, included with the appropriation in respect of the Jacques Cartier Bridge for the same year, which was received in 1976.

Parliamentary appropriations reflected in the statement of operations are as follows:

	1977	1976
	(\$000's)	(\$000's)
Jacques Cartier Bridge	\$ 2,903	\$ 2,758
Halifax		425
Prince Rupert	510	130
Baie des Ha! Ha!		9
	<u>\$ 3,413</u>	<u>\$ 3,322</u>

4. Investments

Security	Rate of Interest	Maturity	Amount
			(\$000's)
Canada Treasury Bills	7.05—7.42%	1978	\$ 65,950
Bonds: Government of Canada	3%—10%	1978-1996	38,042
Canadian National Railways	4%	1981	10,957
			<u>\$ 114,949</u>

5. Long-term Accounts Receivable

Included in long-term accounts receivable are agreements of sale which are receivable over periods up to 31 years with interest at rates varying from 5¼ to 9%. They comprise \$6,924,000 in respect of the sale of two grain elevators at Vancouver and \$1,308,000 in respect of the sale of real property at Montreal. Of the total amount of \$8,232,000, \$7,944,000 is shown as the

NATIONAL HARBOURS BOARD—Continued

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1977—Continued

long-term portion and \$288,000 receivable within one year is included under current assets.

6. Debentures of Saint John Harbour Bridge Authority

The debentures, bearing interest at rates from 6 11/16 to 8 1/2%, were acquired in accordance with the provisions of Vote L106b, Appropriation Act No. 7, 1967, 1967-68, c. 8, which also authorized advances to the Board for such purposes.

The total amount of the debentures is \$14,883,000 comprised of \$14,822,000 shown as non-current assets and \$61,000 receivable in 1978.

The interest and repayment terms of the parliamentary advances to the Board are identical to those of the debentures. The parliamentary advances are included in Loans and Advances. The resultant offsetting income and expense amounting to \$1,020,000 is not reflected in the Statement of Operations.

7. Fixed Assets

(\$000's)

Asset	Cost	Accumulated Depreciation	Net	Rate of Depreciation
Land	110,435		110,435	
Dredging	27,614	18,428	9,186	2.5%

Buildings	138,778	74,580	64,198	2.5—10%
Utilities	24,121	9,147	14,974	3.3—10%
Roads and Surfaces ..	102,636	62,860	39,776	2.5—10%
Machinery and Equipment	60,061	47,168	12,893	5—20%
Office Furniture and Equipment	1,303	1,096	207	20%
Works Under Construction	10,417		10,417	
	<u>700,402</u>	<u>324,621</u>	<u>375,781</u>	

8. Financing Provided by Province

Under an agreement dated July 13, 1972, the Province of New Brunswick advanced \$25,000,000 to partially finance the construction of Rodney Terminal, Saint John, which is owned by the Board.

An agreement effective January 1, 1976, calls for the equal sharing of net operating income from the terminal until the Province's capital investment, without interest, is repaid. During the year, the debt to the Province was reduced by \$237,000.

9. Loans and Advances

These represent amounts loaned to the Board by the Government of Canada and, except for those which are not represented by certificates of indebtedness and which are non-interest bearing, have interest rates ranging from 2 3/4% to 10%.

The total debt is comprised of the following:

	1977 (\$000)	1976 (\$000)
Non-interest bearing advances with no fixed terms of repayment	\$ 6,490	\$ 6,490
Certificates issued prior to January 1, 1947 having no dates for repayment of principal or payment of interest (a)	15,337	15,337
Certificates issued between January 1, 1947 and July 8, 1970 having no dates for repayment of principal and for which the terms for repayment of interest have expired (a)	287,826	267,875
Certificates issued between January 1, 1947 and July 8, 1970 having no dates for repayment of principal and for which the terms for payment of interest expire subsequent to December 31 (a)	92,290	116,592
Certificates of indebtedness issued after July 8, 1970 (b)	83,055	64,922
	<u>\$484,998</u>	<u>\$471,216</u>

(a) Certificates amounting to \$139,901,000 of the principal balance outstanding at December 31, 1977 are treated as non-active loans by the Government of Canada and have been charged to net debt in the Public Accounts of Canada in the years in which the funds were advanced.

(b) At December 31, 1977 principal in arrears relative to loans issued subsequent to July 8, 1970 amounted to \$3,393,000.

Future repayments required with respect to loans received but not yet due, are as follows:

(\$000's)

1978	2,786
1979	3,033
1980	3,301
1981	3,592
1982	3,911
After 1982	63,039

10. Interest in Arrears on Loans and Advances

Interest on matured debt is continuing to accrue in the Board's accounts at the rate applying to the particular certificates of indebtedness on the dates they matured. The Board does not accrue interest on unpaid interest.

Included in the balance of interest in arrears on loans and advances are arrears of interest totalling \$118,547,000 at December 31, 1977 (\$113,563,000 at December 31, 1976) which relate to loans and advances which have been charged to net debt in the Public Accounts.

11. Burrard Inlet Crossing

In 1976 the Board wrote off, as an extraordinary expense, the engineering study costs incurred in prior years in connection with a proposed bridge-tunnel to be built across Burrard Inlet.

These costs totalling \$4,291,000 were funded by advances from the Government of Canada and together with accrued interest of \$2,225,000 had been carried as an asset in the Board's accounts. Interest of \$339,000 on the Government's advances was charged to operating expense in 1977, thereby increasing the Interest in Arrears to \$2,564,000.

NATIONAL HARBOURS BOARD—*Concluded*

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 1977—*Concluded*

On January 19, 1978, Treasury Board approved the deletion of the debt due to the Crown, including interest as at December 31, 1977. Accordingly, the Board has reduced its liabilities to the Government of Canada by \$6,855,000 as at December 31, 1977, and reflected this reduction in liabilities as an extraordinary item of income in the statement of operations for the year then ended.

12. Capital Expenditures

Capital expenditures for the completion of work under construction, and other authorized major additions to fixed assets are estimated at \$13,686,000. Of this amount, it is estimated that \$6,064,000 will be expended in the year ended December 31, 1978, and the balance in subsequent years.

13. Contingent Liabilities

Claims aggregating approximately \$11,800,000 in respect of lawsuits, guarantees, employee agreements, damage allegedly suffered on the Board's property and sundry other matters in dispute have been received by the Board but are not reflected in these financial statements. In the opinion of the Board and its legal advisers, the Board's position is defensible and the final outcome of such claims should not result in any material financial liability.

14. Anti-Inflation Legislation

The Board is subject to controls on employees' compensation under the terms of the Federal Government's Anti-Inflation Legislation which became effective October 14, 1975. User charge increases are controlled by Treasury Board. The Board is in compliance with these controls.

15. Restatement of Comparative Figures

During 1977, changes were made to the classification of certain items and for comparative purposes the related figures for 1976 have been restated. In addition, as a consequence of the changes in accounting principles, 1976 operating results have been restated as follows (in thousands of dollars):

Net loss for the year as previously reported		\$34,841
Add: Increase in depreciation expense	\$ 1,307	
Correction of accounts receivable	98	1,405
		<u>36,246</u>
Deduct: Parliamentary appropriations		3,322
Net loss for the year as restated		<u>\$32,924</u>

16. Canada Ports Act

The Minister of Transport has introduced legislation known as the Canada Ports Act, which received first reading in Parliament in 1977. This Act, if and when passed, provides for the establishment of separate ports commissions to administer the principal harbours and ports in Canada including those administered by the National Harbours Board. It also provides that any harbours, works and property remaining under the jurisdiction of the Board on the day the National Harbours Board Act is repealed will be transferred to the Minister of Transport.

NORTHERN CANADA POWER COMMISSION

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

July 19, 1978

THE HONOURABLE J. H. FAULKNER, P.C., M.P.,
MINISTER OF INDIAN AFFAIRS AND NORTHERN DEVELOPMENT,
OTTAWA, ONTARIO.

I have examined the balance sheet of Northern Canada Power Commission as at March 31, 1978 and the statements of operations, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and, except for the failure to obtain an Order-in-Council prior to implementing new rate schedules as described in Note 11 to the financial statements, the transactions that have come under my notice have been within its statutory powers.

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 1978

1. Authority and Objective of the Commission

Northern Canada Power Commission, a Schedule C Crown corporation, was established by the Northwest Territories Power Commission Act of 1948 and presently operates under the Northern Canada Power Commission Act as last amended in 1975.

The objective of the Commission is to provide utility services north of the 60th parallel where such services might not otherwise be available at reasonable economic rates.

2. Significant accounting policies

Property and equipment

Property and equipment, with the exception of those gifted to the Commission by Canada and others which have been recorded at nominal value, are carried at cost less accumulated depreciation. Costs of additions, betterments and major renewals are capitalized. In addition to direct payments for goods and services, project costs include interest at current rates on funds used to finance construction during the construction period and a share of engineering and general administration which is directly attributable to the capital projects.

Gains or losses on disposal of property and equipment resulting from exceptional circumstances such as the disposal of assets which have not entered the production cycle, are written off against operations in the year the losses are recognized. Gains or losses on the disposal of assets which have entered the production cycle are charged against accumulated depreciation.

NORTHERN CANADA POWER COMMISSION—Concluded

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 1978—Concluded

Depreciation

Depreciation on property and equipment, financed by loans from Canada, is calculated as an amount equivalent to the principal portion of the repayment of the associated loan which is being repaid by the annuity method over the estimated economic life of the asset. The Commission charges straight-line depreciation over the estimated economic life on the assets purchased from internally generated funds and on the head office building.

The following are the estimated economic lives of the principal classes of assets:

Hydroelectric plants	30 - 40 years
Diesel engines and associated equipment	15 years
Fuel storage equipment	20 years
Buildings	20 years
Heating systems	20 years
Transmission and distribution systems	20 years
Office and general equipment	10 years
Motor vehicles	4 years

Deferred charges

Deferred charges represent the unamortized costs of relocating the head office from Ottawa to Edmonton and the unamortized costs related to the transfer of the Resolute Bay plant to the Commission. In each case, the remaining costs will be fully written off in the next financial year.

3. Due to Canada

This item represents principal and interest installments on loans from Canada which fell due at March 31, 1977 and which remain unpaid.

4. Loans from Canada

The Commission receives funds for capital expenditures by way of interest-bearing loans from Canada. Interest at current rates is accrued during the course of construction of a project and added to the amount borrowed. Upon completion of each project, the total loan including accrued interest is repaid by equal annual installments of principal and interest over the estimated economic life of the related asset which varies from four to forty years.

At March 31, 1978, these loans carried interest rates ranging from 3.125% to 10.375% and mature as follows:

	Principal	Interest
	(thousands of dollars)	
1979	\$ 4,117	\$ 15,256
1980	4,427	14,945
1981	4,763	14,610
1982	4,795	14,248
1983	4,971	13,880
1984 to 2008	162,616	
	185,689	
Deduct current portion	4,117	
	181,572	
Advance: project investigation	50	
	<u>\$181,622</u>	

At March 31, 1978, the weighted average interest rate applicable to loans on completed projects was 8.3%.

5. Engineering and general administration

Engineering and general administration is net of amounts charged to capital and recoverable projects. Allocations to capital and recoverable projects in 1978 totalled \$996,000 and in 1977 amounted to \$2,335,000. The decreased allocation to capital and recoverable projects in 1978 is a direct result of the reduced capital program.

6. Cancelled projects

During the year the Commission charged to current operations the preliminary construction costs of the cancelled Snare Cascades Hydro Project of \$1,209,000, development costs of \$265,000 and recognized losses of \$387,000 on assets not put into production.

7. Interest expense

Interest expense is net of amounts charged to capital projects and interest earned from short-term investments. Capitalized interest charges were \$1,128,000 in 1978 and \$3,307,000 in 1977. Interest earned on short-term investments in 1978 amounted to \$420,000 and \$112,000 in 1977.

8. Contingent liabilities

Recognition of lawsuits against the Commission at March 31, 1978 has been made in the accounts in an amount which the Commission considers adequate to provide for any settlement which may arise out of such claims.

9. Commitments

Commitments for the completion of capital projects under construction and contractual obligations for services and equipment to be delivered were approximately \$3,900,000 at March 31, 1978.

10. Insurance

The Commission purchases catastrophe insurance on specified assets as protection against major losses up to \$6,500,000. Business liability insurance coverage is maintained in an amount considered necessary to provide adequate protection to the Commission. Other coverage in effect includes fleet, aircraft, airstrip, boiler and comprehensive general liability insurance. Special coverage for major projects under construction is purchased by the commission or by its contractors if required by the Commission.

11. Rate regulations

Regulations pursuant to Section 10 of the Northern Canada Power Commission Act, for the purpose of establishing public utility rates, require the approval of the Governor-in-Council and, according to the Statutory Instruments Act, shall not come into force until the date registered with the Clerk of the Privy Council.

An Order-in-Council authorizing certain rate increases applied in April 1977 was, inadvertently, not obtained until September 22, 1977 and registered with the Clerk of the Privy Council until September 26, 1977.

12. Disclosure of agents

During 1977-78, H.K. Hartley Ltd. was engaged to act as a procurement agent on behalf of the Commission. The aggregate of all remuneration paid to this agent was \$5,304.

13. Comparative figures

Comparative figures have been restated to conform to the current year's presentation. Within property and equipment, assets have been reclassified to accurately reflect costs associated with each category. Investigation costs which are recoverable from Canada and were included in deferred costs in the prior year have been restated as accounts receivable.

14. Anti-Inflation Act

The Commission has been designated as a Level 1 supplier and is required to comply with the Anti-Inflation Act and related regulations, which provide for the restraint of profit margins, dividends and employee compensation. The commission has complied with the legislation in every respect.

NORTHERN TRANSPORTATION COMPANY LIMITED AND SUBSIDIARY COMPANIES

(Continued under the Canada Business Corporation Act)

AUDITOR GENERAL OF CANADA

Ottawa, Ontario

February 13, 1978

THE HONOURABLE OTTO LANG, P.C., M.P.,

MINISTER OF TRANSPORT,

OTTAWA, ONTARIO.

I have examined the consolidated statement of financial position of Northern Transportation Company Limited as at December 31, 1977 and the consolidated statements of operations and deficit, and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these consolidated financial statements give a true and fair view of the financial position of the corporation as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS AT DECEMBER 31, 1977

1. Corporate objective

The principal objective of the Company is to provide a general transportation service throughout Northern Canada and the Arctic, together with related intermodal services.

2. Accounting policies

The Company's accounting policies are in accordance with generally accepted accounting principles. The following policies are considered to be significant.

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries, Yellowknife Transportation Company Limited and Grimshaw Trucking and Distributing Ltd. both of which are wholly owned.

Operating and general supplies

Inventories of operating and general supplies are valued at the lower of cost or estimated replacement cost.

Insurance investment fund—provision for insurance

Except for assets of a subsidiary and certain specified assets of the Company which are insured in total for \$20,000,000 the Company is self-insured for physical loss or damaged to real property and equipment. A fund in respect of self-insured losses is being accumulated by annual charges against income. Proceeds are invested in short-term bank deposits. It is the policy of the Company to carry general and third party liability insurance.

Property and equipment

Investment in property and equipment is recorded at cost. The cost of major additions and replacements are capitalized; maintenance, repairs and minor replacements are charged to operations. On retirement or disposal, the resulting gains or losses are reflected in current earnings.

Depreciation

Boats and barges are depreciated on a unit of production basis taking into account the estimated ton-mile productive capacity of each vessel over a 15 year period with a minimum charge of four per cent per annum calculated on a 25 year maximum useful life. The cost of other depreciable assets is amortized on a straight-line basis over an estimated useful life of 10 to 20 years for buildings, other structures and site development and 5 to 10 years for other equipment.

NORTHERN TRANSPORTATION COMPANY LIMITED AND SUBSIDIARY COMPANIES—*Concluded*NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS AT DECEMBER 31, 1977—*Concluded*

Pension plan

The Company participates in the Eldorado Pension Plan (1959), a contributory fixed benefit trusted plan covering all of the regular full-time employees of Northern Transportation Company Limited. Current service costs are funded and charged to operations as they accrue. Unfunded liabilities as determined by actuarial valuation are funded by annual payments which are charged to operations over periods recommended by the consulting actuary and as required by the Pension Benefits Standards Act.

3. Property and equipment

	1977	1976
Land	\$ 1,641,182	\$ 1,511,911
Boats and barges	57,743,922	57,755,703
Buildings, other structures and site development	18,081,322	18,041,962

	<u>40,498,531</u>	<u>40,866,490</u>
Less current portion	705,398	155,000
	<u>\$39,793,133</u>	<u>\$40,711,490</u>

5. Share capital

	1977	1976
Authorized:		
400,000 common shares of no par value		
Issued and fully paid:		
250,520 shares to Canada	<u>\$25,052,000</u>	<u>\$25,052,000</u>

6. Freightage revenue

Included in freightage revenue is an amount of \$252,695 (1976—\$202,042) approved by Parliament to defray the excess of costs incurred over revenue earned from the 1977 Keewatin resupply operation.

7. Other expense (net)

	1977	1976
Expense:		
Interest on debt	\$3,157,459	\$ 4,580,267
Income:		
Interest on short-term deposits	(833,484)	(661,163)
Gain on disposal of property and equipment	(87,291)	(46,867)
	<u>\$2,236,684</u>	<u>\$ 3,872,237</u>

8. Income taxes

The Company has claimed for income tax purposes certain expenses, principally capital cost allowances on depreciable assets, in amounts lower than those charged against operations. Accordingly, income taxes payable on income of future years may be reduced by claiming allowances for tax purposes in excess of amounts charged against operations. At December 31, 1977, the undepreciated capital cost exceeds the net book value of depreciable assets by approximately \$15,300,000. Pursuant to Section 149(1)(d) of the Income Tax Act the Company's subsidiaries are not subject to income tax.

9. Lease commitments

The Company and its subsidiaries lease certain equipment, land and real estate under long-term contracts and is committed in 1978 to rental payments of \$598,000; 1979—\$576,000; 1980—\$506,000; 1981—\$281,000 and 1982—\$265,000.

10. Pension plan

At December 31, 1976 the present value of the unfunded liability of the plan determined by actuarial evaluation was \$1,399,174. This liability is being retired by annual payments of \$131,513 to 1991.

11. Federal anti-inflation legislation

The Company is subject to the Anti-Inflation Act which provides for the restraint of profit margins, prices, dividends and compensation. Management is of the opinion that the Company has complied with the intent of the Act and Regulations and that no significant liability will arise as a result of the legislation.

PACIFIC PILOTAGE AUTHORITY
(Established by the Pilotage Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
March 17, 1978

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
MINISTER OF TRANSPORT,
OTTAWA, ONTARIO.

I have examined the balance sheet of the Pacific Pilotage Authority as at December 31, 1977 and the statements of operations, retained earnings and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Authority as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the accounting changes described in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

PACIFIC PILOTAGE AUTHORITY—Concluded

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1977

1. Nature of activities

The Pacific Pilotage Authority was established on February 1, 1972, pursuant to the Pilotage Act to establish, operate, maintain and administer an efficient pilotage service within the compulsory areas established by the Pacific Pilotage Regulations. The Act further provides that the tariffs of pilotage charges shall be fair and reasonable and consistent with providing a revenue, together with any revenue from other sources, sufficient to permit the Authority to operate on a self-sustaining financial basis. The Authority became self-sustaining during 1976.

Pilotage services on the Fraser River are provided by employee pilots and in other coastal waters under a contract with a local association of licensed pilots.

2. Significant accounting policies

(a) Depreciation

Depreciation of capital assets is calculated on a straight-line basis and is based on the estimated useful life of the asset as follows:

Buildings	20 years
Pilot boats	20 years
Floats	10 years
Communication equipment	10 years
Office furniture and equipment	10 years

(b) Contributed capital

Amounts representing the values assigned to assets transferred to the Authority from Canada in 1972, plus the cost of capital assets financed from parliamentary appropriations, are shown as contributed capital.

(c) Capitalized lease

The Authority leases a boat from Canada under a long-term financing lease. Under the terms of the lease agreement, the Authority assumes the right and obligation of ownership of the boat. As a result, the lease is treated as a purchase and the principal portion of the lease payments is capitalized and depreciated over the estimated useful life of the boat. The corresponding liability is reduced by the principal portion of the lease payment and the interest portion is expensed in the year to which it relates.

3. Prior year's adjustment

During the year a lease under which the Authority had rented a pilot boat from Canada since 1973, was capitalized. This retroactive change in accounting policy increased the deficit at December 31, 1975 by \$6,800. Comparative figures for pilot boats—operating costs and depreciation in 1976 have been restated to reflect the new accounting policy.

4. Fixed assets

At December 31, 1977, the fixed assets and related accumulated depreciation were as follows:

	1977		1976	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Buildings	\$ 40,000	\$ 11,665	\$ 40,000	\$ 9,837
Floats	9,810	4,662	9,810	3,509
Pilot boats	461,615	143,748	461,615	119,017
Chartered pilot boat	275,865	65,518	275,865	51,725
Communication equipment	220,773	102,608	204,338	79,220
Office furniture and equipment	41,504	21,597	37,562	17,661
	<u>\$ 1,049,567</u>	<u>\$ 349,798</u>	<u>\$ 1,029,190</u>	<u>\$ 280,969</u>

5. Pilot boat—operating costs

Pilot boats' costs recovered from ships' agents previously not shown on financial statements in 1977 of \$79,068 (1976, \$65,950) are included as income—pilotage charges and as expense—pilot boats—operating costs. The 1976 comparative figures have been restated to conform with this presentation. This change has had no effect on the determination of net income in either year.

6. Long-term commitment

The Authority has an outstanding commitment in respect of a contract for the provision of launch services involving an annual payment, which may vary according to changes in costs and usage, up to and including 1990. The amount payable in 1978 is expected to be \$178,700. This commitment may be terminated at the discretion of the Authority on exercise of its option to purchase, with the amount to be determined on the date the option is exercised.

7. Contingent liabilities

Contingent liabilities exist with respect to:

- Legal actions wherein shipping companies dispute the legality of the regulations pursuant to which the Authority has collected compulsory pilotage of \$82,585.
- Legal action against the Authority and others alleging damages of \$723,000 for the imposition of certain pilotage charges and tug and draft requirements.

In the opinion of legal counsel, the Authority's position is defensible and the final outcome should not result in any significant payments.

8. Income tax

The Authority is not subject to the provisions of the Income Tax Act and consequently has no taxable income.

9. Anti-Inflation Act

The Authority became subject to the Anti-Inflation Act on May 27, 1976, and is satisfied that it has complied with the legislation in all material aspects for the year ended December 31, 1977.

PETRO-CANADA

Calgary, Canada

AUDITORS' REPORT

TO THE HONOURABLE ALASTAIR W. GILLESPIE, P.C., M.P.
THE MINISTER OF ENERGY, MINES AND RESOURCES
HOUSE OF COMMONS
OTTAWA, CANADA

We have examined the consolidated balance sheet of Petro-Canada as at December 31, 1977 and the consolidated statement of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the corporation as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

We further report as required by Section 77(1) of the Financial Administration Act that, in our opinion, proper books of account have been kept by the corporation and the transactions that have come under our notice have been within the powers of the corporation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1977

(tabular amounts shown in thousands of dollars)

1. Summary of Significant Accounting Policies

(a) Basis of Consolidation

The consolidated financial statements include the accounts of Petro-Canada ("the Corporation") and its wholly owned subsidiary, Petro-Canada Exploration Inc. The excess of the purchase price of the subsidiary over the underlying net book value at the date of acquisition has been allocated to the related assets acquired and additional depletion and amortization provided accordingly.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value.

(c) Investment in Panarctic Oils Ltd.

The Corporation accounts for its investment in Panarctic Oils Ltd. on the equity method. The activities of Panarctic Oils Ltd. are in the exploratory stage and all expenses less sundry income have been capitalized; the company is deemed not to have earned a profit or sustained a loss.

(d) Property, Plant and Equipment

The Corporation follows the full cost method of accounting for oil and gas properties whereby all costs relating to the exploration for and development of oil and gas reserves are capitalized. Such costs include those related to lease acquisitions, geological and geophysical activities, carrying charges of non-producing properties, drilling both productive and non-productive wells and overhead related to exploration.

The costs incurred, except as noted below, are depleted on the unit of production method based on estimated proven oil and gas reserves. For purposes of calculating depletion, natural gas production and reserves are converted to equivalent barrels of crude oil based on the relative energy content of each commodity. In addition, separate cost centres have been established for each of the Frontier areas, presently comprising Mackenzie Delta/Beaufort Sea, Arctic Islands, Labrador Shelf and Scotian Shelf. Annual costs accumulated in these separate cost centres are amortized on a straight line basis over the period during which exploration activity in each cost centre is expected to continue. Where exploration proves to be successful, amortization will be suspended and the unamortized balance of the cost centre will be depleted on the unit of production method when production commences. Where exploration proves to be unsuccessful and the cost centre is condemned or abandoned, the unamortized balance of that cost centre will be charged to earnings at that time.

Expenditures on the Syncrude Project and related leases are accumulated in a separate cost centre and will be depleted on the unit of production method when production commences. Expenditures on other bituminous sands leases are also accumulated in a separate cost centre and are amortized, depleted or otherwise charged to earnings in accordance with the policy described above for the Frontier areas.

Depreciation of plant and production equipment directly associated with oil and gas activities is provided on the unit of production method. Depreciation of other property and equipment is provided on the straight line method at rates varying from 10% to 25%, designed to amortize the cost of the assets over their estimated useful lives.

(e) Deferred Charges

The Corporation is deferring costs relating to its participation in the Polar Gas Project. These costs relate to feasibility studies in connection with a gas transmission system from the

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 1977—Continued

Arctic Islands to Eastern Canada. Under the participation agreement, subject to the project's feasibility and approval by the necessary regulatory authorities, the participants shall be entitled to have the costs they have incurred treated as an equity investment in a company incorporated to construct and operate the transmission facilities, or be reimbursed out of any financing of such company. In the event that a decision is made not to proceed with the project, costs will be charged to earnings at that time.

Costs incurred on feasibility studies involving economic evaluation and preliminary engineering relating to an Arctic Liquefied Natural Gas Project and to the production of hydrocarbons from conventional heavy oil deposits are being deferred. When production commences, total expenditures will be amortized based on the estimated useful lives of the projects. In the event that a decision is made not to proceed with a project, all associated costs will be charged to earnings at that time.

Debt issue expense is being amortized on a straight line basis over the life of the debt.

(f) Research Costs

Research costs are charged against income as incurred.

(g) Income Taxes

The Corporation makes full provision for income taxes deferred as the result of claiming tax depreciation, exploration, development and other costs which exceed the related amounts charged to expense in the financial statements.

2. Comparative Figures

The Corporation was incorporated pursuant to an Act of the Parliament of Canada which received Royal Assent on July 30, 1975. The inaugural meeting of the Board of Directors was held on January 20, 1976 after which operations commenced. Effective August 1, 1976 the Corporation acquired all of the issued shares of its subsidiary company. Accordingly, the 1976 comparative figures in the consolidated statements of earnings and retained earnings and changes in financial position include the operating results of the subsidiary company from August 1 to December 31, 1976.

Certain reclassifications have been made to the 1976 comparative figures to conform with the current year's presentation.

3. Investment in Panarctic Oils Ltd.

During 1977, the Corporation subscribed to a further financing of Panarctic Oils Ltd., increasing its investment at December 31, 1977 to \$91,807,000 (1976—\$80,000,000). This additional investment maintained the Corporation's ownership of the issued common shares of Panarctic Oils Ltd. at approximately 45%. These shares are not traded on the open market and therefore do not have a quoted market value.

4. Property, Plant and Equipment

Property, plant and equipment consists of:

	1977		1976	
	Cost	Accumulated Depreciation, Depletion and Amortization	Net	Net
Oil and gas properties				
—Non-Frontier areas	\$350,490	\$23,990	\$326,500	\$322,890
—Frontier areas	76,934	4,733	72,201	27,438
Plant and production equipment	47,502	2,679	44,823	41,571
Bituminous Sands				
—Syncrude Project and related leases (construction in progress)	259,064		259,064	170,405
—Other bituminous sands leases and expenditures thereon	10,737	352	10,385	10,254
Other property and equipment	6,540	667	5,873	3,751
	<u>\$751,267</u>	<u>\$32,421*</u>	<u>\$718,846</u>	<u>\$576,309</u>

*consists of depreciation—\$3,346,000, depletion—\$23,990,000 and amortization—\$5,085,000 (at December 31, 1976—\$1,082,000, \$7,226,000 and \$546,000 respectively).

5. Deferred Charges

Deferred charges consist of:

	1977	1976
At cost:		
Polar Gas Project	\$10,887	\$ 7,020
Heavy oil projects	3,504	
Arctic Liquefied Natural Gas Project	2,000	
Other	211	
Unamortized debt issue expense	308	
	<u>\$16,910</u>	<u>\$ 7,020</u>

6. Long-Term Debt

Long-term debt consists of:

	1977	1976
Bank Income Debentures	\$210,000	\$ 240,000
Income Debenture		
Other long-term debt, non-interest bearing	4,000	
	<u>214,000</u>	<u>240,000</u>
Less principal due within one year	<u>20,400</u>	<u>10,000</u>
	<u>\$193,600</u>	<u>\$230,000</u>

PETRO-CANADA—Continued

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 1977—Continued

Bank Income Debentures

On February 1, 1977 the Corporation issued Bank Income Debentures to a Canadian chartered bank in the amount of \$240 million, which have maturity dates from December 31, 1978 to December 31, 1983 and bear interest at approximately 52% of the bank's prime lending rate, as announced from time to time. No deduction is allowed under the Income Tax Act for interest expense relating to the Bank Income Debentures (Note 7). The proceeds of the issue were used to repay an Income Debenture which was outstanding at December 31, 1976, held by the same bank.

While the Bank Income Debentures are not secured by any charge against the assets of the Corporation, there are certain restrictions with respect to the disposition or encumbrance of the investment by the Corporation in its subsidiary company.

Repayment of Long-term Debt

The minimum repayment of long-term debt in each of the next five years is as follows:

1978—\$20,400,000, 1979—\$30,400,000, 1980—\$40,400,000, 1981—\$50,400,000, 1982—\$50,400,000.

7. Income Taxes

The provision for income taxes of \$20,898,000 (1976—\$11,216,000) differs from the result which would be obtained by applying the combined Canadian Federal and Provincial income tax rate of 47% to the earnings before income taxes of \$30,413,000 (1976—\$14,549,000). This difference results from the following items:

	1977		1976	
	Amount	% of earnings before income taxes	Amount	% of earnings before income taxes
Computed "expected" tax expense.....	\$14,294	47.0%	\$ 6,838	47.0%
Increase (decrease) in taxes resulting from:				
Royalties and other payments to Provincial Governments.....	25,311	83.2	9,462	65.0
Provincial income tax rebate plans.....	(4,463)	(14.7)	(1,126)	(7.7)
Tax depletion on Canadian production income.....	(8,611)	(28.3)	(3,402)	(23.4)
Federal resource allowance.....	(13,156)	(43.3)	(5,060)	(34.8)
Federal frontier exploration allowances.....	(2,568)	(8.4)		
Non-deductible interest on Bank Income Debentures (Note 6).....	4,960	16.3	2,424	16.7
Amortization of excess of assigned value over book value of assets acquired on purchase of subsidiary company.....	5,131	16.9	2,080	14.3
Provision for income taxes.....	<u>\$20,898</u>	<u>68.7%</u>	<u>\$11,216</u>	<u>77.1%</u>

8. Capital

Authorized:

The initial authorized capital of the Corporation was \$500 million divided into 100 common shares of the par value of \$5 million each. This was increased to 116 common shares on the acquisition of the capital stock of Panarctic Oils Ltd.

Pursuant to the Petro-Canada Act, and subject to certain conditions and limitations as to the aggregate amount, the authorized capital of the Corporation is increased by the issue of preferred shares. Accordingly, at any time, the authorized and issued preferred shares are identical. At December 31, 1977, 258,299,853 preferred shares of the par value of \$1 each had been issued, such preferred shares, which are redeemable at par at the option of the Corporation, carry no stated rate of dividend and are non-cumulative.

Issued (to the Government of Canada):

Balance at end of period	258,299,853	\$ 258,300	158,799,853	\$ 158,800

9. Commitments

In addition to commitments incurred in normal exploration activities, the Corporation has the following undertakings:

- (a) The Corporation is a participant in a project operated by Syncrude Canada Ltd. to produce synthetic crude oil from the Athabasca Oil Sands. The project is expected to be completed in 1978 at an estimated cost of \$2.1 billion. The Corporation's 15% interest will require a total commitment of approximately \$315 million of which \$259 million had been expended to December 31, 1977. Associated with the Syncrude Project are facilities which are not owned by the participants, consisting of an electricity generating plant, a fuel gas supply pipeline and a pipeline to transport plant product to Edmonton. The Corporation, together with the other participants, has minimum usage commitments relating to these facilities.
- (b) The Corporation is committed to expenditures of approximately \$8 million in connection with the financing of Panarctic Oils Ltd.

10. Remuneration of Directors and Officers

During 1977 the Corporation had ten directors and fifteen officers of whom three served in both capacities (1976—ten directors and ten officers of whom three served in both capacities). The following aggregate remuneration was paid or payable:

	Directors		Officers	
	1977	1976	1977	1976
By Petro-Canada	\$ 57	\$ 34	\$ 727	\$ 308
By subsidiary company			83	
	\$ 57	\$ 34	\$ 810	\$ 308

11. Anti-Inflation Program

The Corporation is subject to the Anti-Inflation Act which provides for a restraint on profit margins and compensation to employees.

12. Subsequent Event

Subsequent to December 31, 1977 the Corporation issued 25,500,000 preferred shares of the par value of \$1 each to the Government of Canada for a cash consideration of \$25,500,000.

ROYAL CANADIAN MINT

(Incorporated under the Royal Canadian Mint Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
March 23, 1978

THE HONOURABLE JEAN-PIERRE GOYER, P.C., M.P.,
MINISTER OF SUPPLY AND SERVICES
OTTAWA, ONTARIO.

I have examined the balance sheet of the Royal Canadian Mint as at December 31, 1977 and the statements of income and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1977

1. Corporate objectives

- to produce and arrange for the production and supply of coins of the currency of Canada;
- to produce coins of the currency of countries other than Canada;
- to melt, assay and refine gold, silver and other metals;
- to buy and sell gold, silver and other metals;
- to assay, refine, store and otherwise deal with gold, silver and other metals for the account of Her Majesty or others;
- to prepare and store shipments of coin, gold, silver and other metals and to move such shipments to or from the Mint;
- to make medals, plaques and other devices.

2. Statutory financial limitations

Significant financial limitations set out in the Royal Canadian Mint Act respecting loans from the Minister of Finance and the reserve for losses are as follows:

- Loans are made on such terms and conditions as are approved by the Governor in Council.
- Loans made to the Mint for fixed assets and working capital may not in the aggregate exceed \$35 million which includes a maximum of \$5.0 million for working capital.
- Additional loans made for temporary purposes may not in the aggregate exceed \$1 million and each shall be repaid within twelve months from the day on which the loan is made.
- The Mint may make a provision from income for a reserve against possible losses, but the aggregate amount in the reserve at any one time shall not exceed \$1 million. Any amounts in excess of those required to cover previous losses and the reserve shall be applied to non-tax revenues of Canada.

Income in Excess of Statutory Limitations

	1977	1976
Excess profits at beginning of the year	\$ 4,472,735	\$ 1,775,888
Net income for the year	3,994,072	2,696,847
	<u>8,466,807</u>	<u>4,472,735</u>
Amount paid in the year	1,775,888	
Balance at end of the year	<u>\$ 6,690,919</u>	<u>\$ 4,472,735</u>

3. Significant Accounting Policies

(a) Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined as follows:

- metals and supplies are valued at average cost
- work in process and finished goods are valued at standard cost which approximates actual cost

(b) Fixed assets

All fixed assets are stated at cost. Depreciation is calculated on a straight-line basis at the following annual rates:

Land improvements	5%
Buildings	5%
Equipment	10%

ROYAL CANADIAN MINT—Concluded

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1977—Concluded

(c) Prepaid expenses

Major advertising costs relating to a numismatic program have been recorded as prepaid expenses and charged against income over the duration of the program. This program will be terminated in 1978.

4. Inventories

	1977	1976
Metals	\$ 9,212,584	\$ 5,597,506
Work in process	3,446,284	2,930,460
Finished goods	243,298	260,163
Operating and maintenance supplies	1,344,103	1,495,558
	<u>\$14,246,269</u>	<u>\$10,283,687</u>

5. Fixed assets

	1977		1976	
	Cost	Accumulated Depreciation	Net	Net
Land	\$ 626,178	\$	\$ 626,178	\$ 626,178
Land Improvements	983,848	145,618	838,230	887,422
Buildings	10,779,992	1,590,072	9,189,920	9,717,118
Equipment	9,210,520	4,263,498	4,947,022	5,430,790
	<u>\$21,600,538</u>	<u>\$ 5,999,188</u>	<u>\$15,601,350</u>	<u>\$ 16,661,508</u>

6. Government of Canada loans

Loans from Canada bear interest at rates ranging from 7- $\frac{3}{4}$ % to 9- $\frac{3}{4}$ % per annum and are payable in varying instalments over the next twenty years. The following payments on principal become due within the next five years:

1978	\$ 2,953,850
1979	5,153,850
1980	1,953,850
1981	1,953,850
1982	1,953,850
	<u>\$13,969,250</u>

7. Remuneration to agents

A total remuneration of \$549,262 was paid to Rceta International and Comarex A.G. as agents of the Royal Canadian Mint during 1977.

8. Safekeeping

As at December 31, 1977, the Mint held in safekeeping the following inventories which are excluded from the accounts:

On behalf of the Department of Finance:

i) Gold and silver at year end market value	\$41,428,000
ii) Coins, at face value	4,018,000
	<u>\$45,446,000</u>

On behalf of others:

i) Gold and silver at year end market value	\$11,828,000
ii) Unprocessed ore at approximate market value less cost to complete	10,725,000
	<u>\$67,999,000</u>

9. Mint displays

The Mint maintains displays of minted products in Ottawa and Winnipeg. These contain Canadian and foreign coins and medals of undetermined value. As these coins are not intended for resale, they are excluded from the accounts.

THE ST. LAWRENCE SEAWAY AUTHORITY

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
July 14, 1978

THE HONOURABLE OTTO E. LANG, P.C., M.P.
MINISTER OF TRANSPORT
OTTAWA, ONTARIO

I have examined the balance sheet of The St. Lawrence Seaway Authority as at March 31, 1978 and the statements of operations, accumulated deficit, contributed capital and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the accompanying financial statements give a true and fair view of the financial position of the Authority as at March 31, 1978 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to changes in accounting for depreciation and employee termination benefits referred to in Note 3 to the financial statements, on a basis consistent with that of the previous year.

I further report that, in my opinion, proper books of account have been kept by the Authority, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

THE ST. LAWRENCE SEAWAY AUTHORITY—Continued

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1978

1. Objectives and Operations

The St. Lawrence Seaway Authority was established under The St. Lawrence Seaway Authority Act and is classified as a proprietary Crown Corporation under Schedule D of the Financial Administration Act. The Authority was incorporated to construct and operate a deep waterway between the Port of Montreal and Lake Erie together with such works and other property including bridges incidental to the deep waterway as deemed necessary by the Governor in Council. The Authority has also been entrusted with operating the Canadian lock and canal at Sault Ste. Marie and the Cornwall Canal hereafter referred to as the Non-Toll Canals.

2. Significant Accounting Policies

(a) Parliamentary Appropriations

The operating deficits and capital expenditures of the Welland Canal Section and Non-Toll Canals are recovered from parliamentary appropriations. Parliamentary appropriations to finance capital expenditures of the Welland Canal Section are added to Contributed Capital. Recoveries for operating deficit are reflected in the statement of operations as a reduction of the net loss for the year. The recoveries for operating deficits do not include depreciation, accrued employee termination benefits and deferred planning costs. The amounts recoverable are recorded at the time deficits and capital expenditures are incurred. The amounts not yet recovered from Canada are shown as due from Canada on the balance sheet.

(b) Investments

The investment in the wholly-owned subsidiary, Great Lakes Pilotage Authority, is recorded at cost since the Authority does not exercise any control over the subsidiary's operation. Accordingly, these financial statements have not been consolidated since such statements would serve no useful purpose. Separate financial statements for the subsidiary are available and summary financial information is included in Note 6.

The investment in the joint venture, The Seaway International Bridge Corporation Ltd. is recorded at cost. All income from the operation of the bridge after payment of operating expenses is transferred to the participants each year by agreement and included in other income.

The investment in Canada bonds is recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized when the bonds are sold.

(c) Fixed Assets

Fixed assets purchased or constructed by the Authority are recorded at cost. Assets transferred to the Authority are recorded at values established at the date of transfer which generally approximate the historical cost to the transferee.

It is the policy of the Authority to capitalize all expenditures for additions, replacements or major improvements which increase the capacity of the deep waterway system.

Expenditures for repairs and maintenance are charged against expense as incurred.

The cost of assets sold, retired or abandoned and the related accumulated depreciation are removed from the accounts on disposal. Gains or losses on disposals related to the Montreal-Lake Ontario Section are currently included in the statement of operations. The net cost of disposals on the Welland Canal Section is charged directly against contributed capital, since these assets were acquired through appropriation. Effective April 1, 1978 all gains or losses will be charged against operations.

Non-Toll Canal assets with a value of \$8,363,976 are under the administration of the Authority but do not form part of the deep waterway system. Since the Authority does not hold title, the assets are not recorded in the accounts.

Depreciation is provided on a straight line method using rates based on the estimated useful lives of the assets. Depreciation rates for major categories of assets are as follows:

—Locks, channels, canals and remedial works	1%
—Buildings, bridges and tunnels	2%
—Movable equipment	2-20%

No depreciation has been provided on interest in the amount of \$32,822,016 capitalized during construction of the Welland Modernization Project as it is anticipated the interest will be cancelled and reversed in the near future as part of the second phase of the refinancing of the Authority.

(d) Income Taxes

The Authority, as a Schedule D Crown corporation is subject to the provisions of the Income Tax Act. The Authority has incurred substantial losses in prior years which can be carried forward and applied against taxable income in future years. While the exact amount of these losses carry forward benefits has not been determined pending completion of the refinancing plan, management does not anticipate that the Authority will be in a taxable position within the next few years.

(e) Employee Termination Benefits

Employees of the Authority are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the employees become entitled to the benefits.

(f) Pension Plan

All employees of the Authority are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Authority. These contributions represent the total liability of the Authority and are recognized in the accounts on a current basis.

(g) Grants in Lieu of Taxes

Grants in lieu of municipal and school taxes are recorded when paid.

3. Changes in Accounting Policies

As part of the refinancing plan described in Note 4 the following accounting policies were adopted during the year:

- (a) The Authority retroactively adopted the policy of providing for depreciation on all depreciable fixed assets except for unpaid interest capitalized during construction of the Welland Modernization Project. Previously, depreciation had only been provided on certain assets with a total cost of approximately \$16,000,000 in the Montreal-Lake Ontario Section.
- (b) The Authority retroactively adopted the policy of accruing for employee termination benefits in the period in which the benefits are earned by the employees. Previously, employee termination benefits were expensed when they were paid on termination. The net effect of these changes on the 1976/77 financial statements, which have been restated, was to increase the previously reported net loss for the year ended March 31, 1977 by \$7,638,160 increase the deficit by \$131,051,484, increase the accumulated depreciation by

THE ST. LAWRENCE SEAWAY AUTHORITY—Concluded

NOTES TO FINANCIAL STATEMENTS

MARCH, 1978—Concluded

\$124,901,630 and record accrued employee termination benefits of \$6,149,854.

4. Refinancing Plan

On April 1, 1977, loans from Canada of \$624,950,000 were converted to equity by parliamentary appropriation. Under the original terms of the interest bearing loans, interest was charged at rates ranging from 3¼ to 8¾%. In addition, interest was charged at rates ranging from 6% to 10¾% on the deferred interest. Effective April 1, 1977, further accrual of interest on the deferred interest was cancelled by the Governor in Council.

In addition the Authority has also offset \$120,986,136 of contributed capital against deficits incurred prior to March 31, 1978. It is also the intention of the Authority to seek approval from Parliament to have the remaining deferred interest payable cancelled and reversed.

The parliamentary appropriation authorizing the conversion of the loans from Canada to equity also authorizes the Minister to fix, from time to time, that amount that shall be paid by the Authority annually out of its toll revenue as return on capital. It is anticipated that no return on capital will be required until the new toll structure is fully implemented over the next three years.

5. Agreements of Sales

These agreements of sale are receivable over periods up to 10 years at interest rates varying from 5¼ to 9¾%.

6. Investment in Subsidiary

Summary financial information of the Great Lakes Pilotage Authority for the year ended December 31, 1977 is as follows:

Balance Sheet	
Current assets	\$ 1,906,771
Fixed assets less accumulated depreciation	47,463
Total assets	1,954,234
Less	
Current liabilities	1,905,271
Accrued employee termination benefits	886,000
Total liabilities	2,791,271
Excess of liabilities over assets	\$ 837,037
Statement of Operations	
Income	\$6,412,691
Expense	(7,248,817)
Net loss for the year	\$ 836,126
Amount recovered by parliamentary appropriation ..	\$ 630,681

7. Investment in Joint Venture

The Seaway International Bridge Corporation, Ltd. is owned jointly by the Authority and The Saint Lawrence Seaway Development Corporation. The joint venture was incorporated to operate and manage the international toll bridge system between Cornwall, Ontario and Roosevelttown, New York. By agreement the annual income from the bridge system, after payment of operating expenses is first applied towards the amortization of the cost of the North Channel Bridge together with interest, then applied towards the amortization of the Raquette River Bridge, and the balance, if any, is divided equally between both parties.

The bridge system is owned directly by the participants and does not form part of the joint venture assets.

Summary financial information of the joint venture for the year ended December 31, 1977 is as follows:

Balance Sheet	
Current assets	\$ 26,234
Fixed assets less accumulated depreciation	13,361
Total assets	39,595
Less	
Current liabilities	23,595
Net assets	\$ 16,000
Statement of Income and Expense	
Income	\$909,094
Expenses	(591,019)
Bridge user charge paid to the Authority	(318,075)
Net income for the year	\$ Nil

8. Services Provided by Government Departments

The Department of Transport provides services for aids to navigation, channel sweeping and icebreaking necessary for the safe operation of the deep waterway system. These are provided without charge to the Authority.

9. Write-Off of Deferred Planning Costs

Deferred planning costs represent costs which were previously capitalized in anticipation of future capital expansion. This planning is now obsolete and accordingly these costs have been written off.

10. Contingent Liabilities

Claims and lawsuits have been brought against the Authority and the Authority has initiated claims and lawsuits against others. These claims and lawsuits have arisen in the normal course of business and management does not anticipate that any material losses will arise upon resolution of these actions.

Contractual expenditures, committed but not expended, at March 31, 1978 amounted to \$1,546,000.

11. Anti-Inflation Act

The Authority is subject to controls on employee compensation under the terms of the Federal Government's Anti-Inflation Legislation. The Authority is in compliance with these controls.

The tariff of tolls is governed by an International Agreement approved by the Governments of Canada and the United States of America and therefore is not subject to the Anti-Inflation Legislation.

12. Subsequent Events

Effective with the opening of the navigation season 1978, a revised tariff of tolls will be implemented which provides for incremental increases of rates over the next three navigation seasons.

The Authority has been assigned the responsibility to operate and maintain the Jacques Cartier and Champlain Bridges at Montreal, Quebec effective April 1, 1978. It is anticipated that a separate corporation will be incorporated to own, operate and maintain these bridges.

THE SEAWAY INTERNATIONAL BRIDGE CORPORATION, LTD.
(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
 Ottawa, Ontario
 February 8, 1978

THE HONOURABLE OTTO E. LANG, P.C., M.P.,
 MINISTER OF TRANSPORT,
 OTTAWA, ONTARIO

I have examined the balance sheet of The Seaway International Bridge Corporation, Ltd. as at December 31, 1977 and the statement of income and expense for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As explained in Note 2 to the financial statements the Corporation has not recorded the cost of future benefits accruing to employees.

In my opinion, except for the failure to record the amount of future employee benefits referred to in the preceding paragraph, these financial statements present fairly the financial position of the Corporation as at December 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within the statutory powers of the Corporation.

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1977

1. Significant accounting policies

a) General

The Seaway International Bridge Corporation, Ltd. was incorporated for the purpose of operating and managing the international toll bridge system between Cornwall, Ont., and Roosevelttown, N.Y., on behalf of the owners, The St. Lawrence Seaway Authority and the Saint Lawrence Seaway Development, Corporation. By agreement between the Seaway entities, the annual income from the operation of the bridge system, after payment of operating expenses, is transferred to the St. Lawrence Seaway Authority as a bridge usage charge.

b) Deferred income from tolls

Unredeemed toll tokens are recorded as deferred revenue.

c) Depreciation

Depreciation of equipment is based on the estimated useful life of the assets calculated on a straight line method at the following rates:

Automotive	20%
Office and Shop	10%
Toll equipment	10%

d) Statement of changes in financial position

A statement of changes in financial position has not been presented as, in the opinion of management, it would not add significantly to the information to be derived from the financial statement.

2. Termination benefits

The financial statements do not reflect the amount of the future termination benefits accruing to employees. Actual costs are expensed in the year of termination or retirement, and in 1977 such costs amounted to \$9,000 (1976—\$4,700). The amount of unrecorded future benefits earned to December 31, 1977 is estimated at \$135,500 (1976—\$75,000).

3. Remuneration of directors and officers

The Corporation has eight directors and seven officers, five of whom are also directors. No remuneration was paid to them during the year.

4. Anti-Inflation legislation

The Corporation is subject to controls on employee compensation under the terms of the Federal Government's Anti-Inflation legislation which became effective October 14, 1975. User charge increases are controlled by Canadian Transport Commission. The Corporation is in compliance with these controls.

TELEGLOBE CANADA

(Established by the Teleglobe Canada Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
June 22, 1978

THE HONOURABLE JEANNE SAUVÉ, P.C., M.P.
MINISTER OF COMMUNICATIONS
OTTAWA, ONTARIO

I have examined the balance sheet of Teleglobe Canada as at March 31, 1978 and the statements of retained earnings, income and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

As described in Note 4 to the financial statements, partnership accounts in respect of Commonwealth financial arrangements have been finalized only for the year ended March 31, 1974, under the current Agreement, and for the years up to and including the year ended March 31, 1971, under the preceding arrangements. For unfinalized years, the Corporation has recorded its estimates of the amounts recoverable from the partnership and has provided for the repayment of provisional settlements in excess of those amounts. However, complete information is not available as to the probable results of the final settlements for those years.

In my opinion, subject to the determination of adjustments arising from final settlements of Commonwealth financial arrangements, these financial statements give a true and fair view of the financial position of the Corporation as at March 31, 1978 and the results of its operations and changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

**NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1978****1. Nature of activities**

The Teleglobes Canada Act provides that the Corporation shall establish, maintain and operate in Canada and elsewhere external telecommunication services for the conduct of public communications, and coordinate Canada's external telecommunication services with those of other nations. Such services include the telephone, telex and telegraph services, the leasing of private and public use circuits, data transmission, television and radio programme transmission and participation in the provision of international communications satellite systems.

2. Summary of significant accounting policies

The accompanying financial statements have been prepared in accordance with Canadian generally accepted accounting principles. Significant accounting policies are as follows:—

(a) Fixed assets—

Fixed assets are stated at acquisition cost, which includes salaries, wages, employee benefits and certain general overheads applicable to the construction activity. In addition the Corporation capitalizes the cost of funds used to finance major construction projects lasting for more than twelve months as a component of the cost.

TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1978—Continued

The Corporation was designated by the Government of Canada to be the Canadian signatory to the International Telecommunications Satellite Organization (INTELSAT) Operating Agreement, and as a consequence includes in fixed assets its ownership in the international satellite system. Periodically each signatory's ownership share is adjusted to conform with its percentage of total use of the system. The Corporation's ownership share as at March 31, 1978, is 2.248921% (1977—2.554508%).

(b) Depreciation and obsolescence—

Assets are depreciated over their respective estimated service lives, using the straight line method. Where assets are taken out of service prior to the expiry of their estimated lives any undepreciated balances, less salvage values, are charged to "depreciation and obsolescence" in the year of retirement, except for satellite system costs when a launch failure occurs. In such a case the costs of the satellite are depreciated over the life of that group of satellites.

The estimated service lives for determining depreciation of the various classes of assets are:

	Years
Building & improvements	20—40
Furnishings	8—10
Cable systems	20—25
Terminal, transmission and switching equipment	10—14
International satellite system space segment	4—12
Other plant & equipment	5—25

(c) Foreign exchange—

Amounts receivable or payable in foreign currencies are translated to Canadian dollars at exchange rates prevailing at year end. Income and expense items are translated at average monthly exchange rates for the month in which the transactions are reflected in the accounts.

(d) Revenue—

The Corporation reports as revenue its share of income earned from all its telecommunications facilities, whether owned outright by the Corporation, owned jointly with other partners or leased from third parties.

Telephone, telex and telegraph service revenue reflects the Corporation's portion of amounts billable to domestic and foreign subscribers by the Canadian carriers and foreign administrations. Estimates are included to provide for that part of such amounts for which foreign administrations have yet to account to the Corporation.

Leased circuit revenue includes the Corporation's portion of revenue derived from the leasing of circuits to other administrations and private users.

Intelsat revenue comprises the Corporation's share of revenue, less its share of operating expenses excluding depreciation, derived from its ownership in the international satellite system.

(e) Income tax—

The Corporation, being a Canadian Crown Corporation, is not subject to the payment of Provincial income taxes.

The deferment of income taxes results from claiming depreciation and other items for tax purposes in amounts which exceed those recorded in the accounts.

(f) Commonwealth Telecommunications Organization—

The Corporation is the designated Canadian participant in the Commonwealth Telecommunication Organization (CTO), the purposes of which are to promote the development and efficient operation of the Commonwealth external

telecommunication system and to provide for the administration of collaborative financial arrangements.

The financial agreement provides that the aggregate expense incurred by all partners, in the provision and operation of each facility within the Commonwealth system, is apportioned to partners in proportion to the use made by the partners of that facility. Use of the system is measured in terms of the number of units of traffic carried over each facility within the system.

Settlements are initially effected between partners during each financial year on the basis of estimated traffic volumes and system costs, with final settlements only being effected after the close of each year on the basis of audited data submitted by each partner. Since the final settlements cannot be accurately predicted, the Corporation follows the practice of recording estimated recoverable costs in each financial year, and of recording final adjustments, in its accounts, only at the time that final settlements are made.

(g) Maintenance—

Costs incurred in maintaining the planned life and capacity of operational facilities, and in ensuring that quality standards are met, are charged to "maintenance expense".

3. Fixed assets and depreciation

(a) The major categories of fixed assets as at March 31, 1978, are as follows:

	Thousands of dollars			
	1978		1977	
	Cost	Accumulated depreciation	Cost	Accumulated depreciation
	\$	\$	\$	\$
Land	1,346		1,363	
Buildings & improvements	18,284	6,249	17,491	5,505
Furnishings	2,437	871	2,066	671
Cable systems	84,459	39,627	82,150	35,632
Terminal, transmission & switching equipment	72,905	38,035	68,907	32,348
International satellite system space segment	15,396	4,648	14,270	5,530
Other plant & equipment	13,233	7,358	12,726	6,312
Construction in progress	12,511		4,023	
	<u>\$220,571</u>	<u>\$96,788</u>	<u>\$202,996</u>	<u>\$85,998</u>

(b) Fixed assets include assets owned outright by the Corporation and assets owned jointly with other telecommunications entities as follows:

	Thousands of dollars	
	1978	1977
Owned outright	\$140,499	\$125,094
Owned jointly (Corporation's interest)	80,072	77,902
	<u>\$220,571</u>	<u>\$202,996</u>

(c) During the year the Corporation charged to fixed assets salaries, wages, employee benefit and general overheads relating to construction activity amounting to \$2,443,000 (1977—\$2,266,000).

(d) The method of calculating depreciation on the capital investment share in Intelsat has been revised during the year. The change was needed to adjust to Intelsat depreciation procedures. The favourable effect on income before taxes was approximately \$1,470,000.

TELEGLOBE CANADA—Continued

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1978—Continued

4. Commonwealth financial arrangements

(a) Finalization of partnership accounts—

As of March 31, 1978, 26 Commonwealth Governments are signatories to the Commonwealth Telecommunications Organization Financial Agreement (1973). Due to the fact that some partners are delinquent in submitting audited statements of incurred expenses and traffic volumes, in accordance with the 1973 and preceding Agreements, it has only been possible to finalize partnership accounts for the year ended March 31, 1974, under the current Agreement, and for the years up to and including the year ended March 31, 1971, under the preceding arrangements.

The Corporation has submitted its own audited accounts for the year ended March 31, 1975, under the current Agreement, which commenced April 1, 1973.

As of March 31, 1978, the Corporation has received provisional settlements amounting to \$45,198,000, in total, for the six years where partnership accounts remain unfinalized.

(b) Estimated amount due to Commonwealth Partners—

The estimated amount due to Commonwealth Partners comprises:

\$662,000 with respect to the amount by which instalments received for the years yet to be finalized, and which ended prior to April 1, 1973, exceeded the estimated amount recoverable recorded in the books of account, and

\$16,362,000, net of amounts receivable for 1973/74, with respect to the amount by which the instalments received for the four years ended March 31, 1978, exceeded the estimated amounts recoverable for these years under the 1973 Agreement.

(c) Estimated amount recoverable from Commonwealth Partners—

The estimated amount of \$14,914,000 recoverable from Commonwealth Partners reflected in the statement of Income comprises:

	Thousands of dollars	
	1978	1977
Adjustment under previous financial arrangements	\$ 2,545	\$ 1,139
Adjustment under the 1973 Agreement for the year 1973/74 finalized during the year	2,609	
Estimated amount recoverable under the 1973 Agreement for the current year	9,760	6,305
	<u>\$14,914</u>	<u>\$ 7,444</u>

5. Long-term debt

Loans from the Government of Canada bear interest at rates from 3 1/2% to 6 3/4%, and averaging 5%.

Maturities by fiscal year and interest rate:

	Thousands of dollars				
	3½— 4%	4½— 5%	5½— 6%	6½— 6¾%	Total
1978/79	\$ 98	\$ 831	\$ 1,282	\$ 401	\$ 2,612
1979/80	94	835	1,351	427	2,707
1980/81	97	877	1,423	456	2,853
1981/82	100	922	1,500	485	3,007
1982/83	104	968	1,581	517	3,170
1983/84	2,085	4,177	2,403	552	9,217
	2,578	8,610	9,540	2,838	23,566
Less: portion maturing within one year	98	831	1,282	401	2,612
	<u>\$2,480</u>	<u>\$7,779</u>	<u>\$8,258</u>	<u>\$2,437</u>	<u>\$20,954</u>

6. Commitments

(a) As at March 31, 1978, the estimated cost of completing construction projects, as approved by Governor in Council, amounts to approximately \$100,900,000 (1977—\$99,600,000) of which \$39,600,000 (1977—\$27,200,000) relates to the year ending March 31, 1979. Contractual commitments amounting to approximately \$24,525,000 (1977—\$19,100,000) are outstanding as at March 31, 1978.

(b) The Corporation is a party to certain non-cancellable long-term leases for property and facilities used in the performance of its operations. As at March 31, 1978, the aggregate minimum annual rentals for all such leases are:

	Thousands of dollars
1978—79	\$ 7,263
1979—80	2,846
1980—81	2,228
1981—82	1,136
1982—83	1,049
1983—88	3,222

Rental expense relating to such items for the year ended March 31, 1978 is \$7,449,000.

(c) Under the terms of an agreement, which expires in 1980, between the Corporation and the Department of Transport, the Corporation charters the Cables/Ship/Icebreaker C.C.G.S. John Cabot on a cost reimbursement basis. This agreement is cancellable on 12 months' notice.

7. Anti-inflation legislation

The Corporation is subject to the provisions of the Federal Anti-inflation Act, effective October 14, 1975, which provides for restraints on prices, profit margins and compensation of employees.

Management is of the opinion that the Corporation is in compliance with the requirements of the Act.

8. Executive remuneration

Included in expense for 1978 is remuneration of 5 directors, as directors, \$2,250 (1977—\$3,000) and 12 officers, as officers, \$426,000 (1977—\$394,000). One officer is also a director.

9. Contingent liabilities

On November 1, 1974, the Corporation established a retirement bonus scheme, in lieu of post-retirement life insurance previously provided, for all employees on staff at that date who

TELEGLOBE CANADA—Concluded**NOTES TO FINANCIAL STATEMENTS****FOR THE YEAR ENDED MARCH 31, 1978—Concluded**

subsequently retire while in the service of the Corporation. As at March 31, 1978, the maximum liability of the Corporation under this scheme, should all entitled employees retire while in the service of the Corporation, amounts to \$2,343,000.

10. Comparative figures

Following a retroactive modification of certain aspects of the Commonwealth Telecommunications Organization Financial Agreement (1973), certain of the 1977 comparative figures have been reclassified to conform with the financial statement presentation adopted for 1978.

URANIUM CANADA, LIMITED

(Incorporated under the Canada Corporations Act)

AUDITOR GENERAL OF CANADA
Ottawa, Ontario
March 22, 1978

THE HONOURABLE A. W. GILLESPIE, P.C., M.P.,
MINISTER OF ENERGY, MINES AND RESOURCES,
OTTAWA, ONTARIO.

I have examined the balance sheet of Uranium Canada, Limited as at December 31, 1977 and the statement of operations of accounts administered for Canada and the statement of account due to Canada for assets administered for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at December 31, 1977, and the results of the operations administered by the Corporation for the account of Canada and the account due to Canada for assets administered for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of accounts have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

J. J. MACDONELL
Auditor General of Canada

Due to Canada, end of year	\$108,430,520	\$117,605,377

The accompanying notes are an integral part of the financial statements.

NOTES TO FINANCIAL STATEMENTS AS AT DECEMBER 31, 1977

1. Significant accounting policies

a) Activities administered for Canada

The corporation administers and sells, as Canada's agent, the joint uranium stockpile purchased from Denison Mines Limited and the general government uranium stockpile acquired by Canada since 1963. All monies and benefits received from the sale of the stockpiles are paid to Canada after deduction of selling expenses. Accordingly, such activities are reported as administered for Canada's account.

Administrative services are provided to the Corporation without charge by the Department of Energy, Mines and Resources.

b) Inventories

Inventories are carried at Canada's acquisition cost. Warehousing and other carrying costs are borne directly by Canada and are not reflected in these accounts.

c) Interest

The Corporation under contractual agreements allows extended payment terms to its customers. Interest is charged on the sales value from the time of delivery to the time of payment when such terms apply.

d) Translation of foreign currency

U.S. dollar accounts are translated to Canadian funds at rates prevailing at December 31. Gains or losses are included in sales.

2. Directors and officers

The Corporation's eight directors receive no remuneration as directors. The Corporation's five officers, four of whom are also directors, receive no remuneration as officers.

3. Selling expenses

Selling expenses represent a commission of \$734,476 paid to Mitsui & Co. Ltd. on sales of uranium concentrates to a Japanese utility and Canada's share of the direct out-of-pocket expenses, including commissions, incurred by Denison Mines Limited on the sale of uranium concentrates to Spanish utilities, amounting to \$990,990.

VIA RAIL CANADA INC.

AUDITORS' REPORT TO THE SHAREHOLDER

We have examined the balance sheet of VIA Rail Canada Inc. as at December 31, 1977 and the statements of expenditures for the period January 12, 1977 to December 31, 1977. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the company as at December 31, 1977 and the results of its operations for the period then ended, in accordance with generally accepted accounting principles.

Public relations	9,691	
Other	2,053	
		\$2,274,968
Less: Reimbursement from Government of Canada		\$ 2,274,968

5. Subsequent Event

Order-in-Council No. 1977-9/3148 dated November 3, 1977 approved the disposition by Canadian National Railways to the Government of Canada of its investment of \$100,000 in the issued and outstanding capital stock of the company. Authority for the Government to disburse the funds required for this transaction is contained in Appropriation Act No. 3, 1977/78 enacted on December 15, 1977. It is expected that Canadian National Railways will divest itself of this investment on March 31, 1978.

NOTES TO FINANCIAL STATEMENTS

1. Incorporation

The company was incorporated on January 12, 1977 under the Canada Business Corporations Act.

2. Operations

The operations of the company are being financed through a management contract with the Government of Canada which expires on March 31, 1978. This contract provides for the reimbursement of expenses incurred by the company in completing the necessary arrangements to enable it to take over the management of all Canadian rail passenger services on April 1, 1978.

The amount shown as deferred contributions represents the excess of payments received from the Government of Canada over expenditures incurred to date.

The total amount payable to the company under the management contract is limited to \$6,610,000.

3. Commitments

- (a) The company has entered into an agreement to purchase seventeen locomotives and forty-one coaches for a total estimated price of \$47 million payable over a period of two years based on reaching completion milestones.

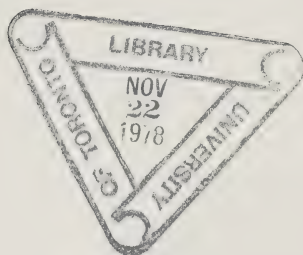

The Government of Canada has undertaken to provide the company with the funds required to retire any borrowing necessary to finance the above purchase by annual installments terminating in 1984.

- (b) Under the terms of an agreement dated September 30, 1977 the company is liable to pay the sum of \$700,000 for the development, implementation and on-going operation of an automated reservations and ticketing system. The amount of the contract is payable in five monthly installments of \$140,000 commencing on October 1, 1977. At the balance sheet date two installments amounting to \$280,000 were outstanding.

- (c) The annual rental under a ten-year property lease expiring in 1987 is \$282,600.

4. Statement of Changes in Financial Position

A statement of Changes in Financial Position has not been prepared for the shareholder as the company's operations have not yet reached the stage where such a statement would be meaningful.
